21. „ Mohinimohan Chatterjee, M.A., B.L., Vakil, High Court.

Arrangements will be made for systematic courses of lectures, Moot Courts, and regular exercises. Facility will also be given to students to read in the College Library after the College hours under the supervision of the Principal or a member of the staff.

The College fees will be Rs. 6 per month.

Eight scholarships of Rs. 10 a month, each tenable for one year, have been established. Four of these will be open to competition among students of the first-year class and the other four among the students of the second-year class. The scholarships in the first-year class will be awarded towards the end of September upon the result of a College test to be held at that time. Those in the second-year class will be awarded upon the results of the Preliminary Examination in Law. They will take effect retrospectively from July. Additional scholarships will be awarded from the endowment established by the Hon'ble the Maharaja of Cossimbazar.

Two scholarships of Rs. 32 a month, each tenable for two years, have been established, to be open to competition among students who have prosecuted their studies in the University Law College not less than a year. The award will be made upon the results of the final Examination in Law, and on condition that the recipients do prosecute a course of study for the M.L. examination under the direction of the Principal.

Provision has been made for the residence of students who do not reside with their parents or guardians. Such students must apply on or before the 1st July 1910. Dr. B. C. Ghose, M.A., M.B. (Cantab.), will be the Medical Officer for such students as reside in the College Hostel.

Students are recommended in all cases to take their admission before the 1st July 1910.

The College classes will be held ordinarily from 9 A.M. to 11-15 A.M. for first-year students and from 3-30 P.M. to 6-45 P.M. for second-year students. Students who have completed their first-year Lectures and intend to withdraw temporarily from their Law studies on account of pressure of M.A. work are warned that they must do so at their own risk, as under the New Regulations they are not likely to obtain next year a complete course of lectures corresponding to the present second-year course; they are strongly advised to consult the Principal before they take any action in the matter.

To the College is attached an extensive Law Library containing numerous sets of reports and text-books. The Library is divided into two sections—(A) for reference, (B) for lending. Books in section (A) may be consulted by students at any time from 9 A.M. to 6-30 P.M. Books in section (B) may be borrowed by students; no deposit is required, if one volume is borrowed. Those who deposit Rs. 5 are allowed to borrow two volumes at a time.

During the last session, the Hon'ble the Vice-Chancellor presided over many of the Moot Courts, and a special course of lectures on the Law of Mortgages was delivered by Babu Mahendranath Ray, M.A., B.L. Maulavi Zahadur Rahim Zahid, M.A., B.L., and Mr. Manmathanath Basu, M.A. (Cantab.), also delivered extra courses of lectures. Similar arrangements will be made during the ensuing session.

All applications for admission are to be addressed to the Registrar, Senate House, Calcutta, to whom any application for further information may be sent.

NOTICE TO TENDERERS No. $\frac{C}{1}$.

SEALED TENDERS for the supply of the undermentioned supplies from 1st September 1910 to 31st August 1911 will be received by the Station Supply Officer, Presidency Brigade, up to 12 noon on the 13th July 1910.

II.—Forms of "Tender" and "Schedules" (I. A. F. Z2120, 2121 and 2122) of the stores for the supply of which tenders are invited are obtainable on payment at the rate of Re. 1 per set on application in writing up to 5th July 1910.

III.—Tenders will only be received in accordance with the conditions on these printed forms, which must be submitted in English and should specify in words as well as in figures the rate at which each description of article named in them will be delivered. Fractional parts of pies in rates will not be accepted. Tenders must be duly signed and completed in accordance with the instructions they contain.

IV.—Tenders should be accompanied by a deposit in the form of a $\frac{\text{Presidency Bank}}{\text{Treasury}}$ receipt or Government Promissory Notes, Provincial or Municipal debentures, or Port Trust bonds, as earnest-money, at the rate of 2 per cent. on the total value of the stores tendered for, subject to a minimum as noted below, which deposit will be returned on acceptance or rejection of the tender. In the case of Promissory Notes being furnished they must remain in the name of the depositor.

V.—No security or deposit which the tenderer may have furnished in connection with a previous contract or on any other account can be accepted as earnest-money.

VI.—The approval or rejection of tenders rests with General Officer Commanding 8th (Lucknow) Division, who reserves to himself the right of rejecting any tender, or any items in a tender, without cause assigned. The lowest tender will not of necessity be accepted.

VII.—Tenders will be opened at this office at 12 noon on Wednesday, the 13th July 1910. Tenderers are invited to attend.

VIII.—Parties tendering are particularly requested to give their addresses in full.

IX.—Any further information required can be obtained on application to this office between the hours of 10 A.M. and 4 P.M. (Sundays and holidays excepted).

X.—Tenders must be sent under a strong cover, securely fastened, sealed with a distinctive device and conspicuously marked "Tender for the supply of potatoes," and addressed to the Station Supply Officer, Presidency Brigade, and not to any officer by name.

XI.—Tenders which do not comply with the above conditions will be rejected.

CUSTOM HOUSE NOTICE.

Credit system for the payment of Salt duty.

UNDER this system, as explained in the rules appended hereto, the payment of duty on salt manufactured in, or imported into, or transported within Bengal may be postponed for any period not exceeding six months from the date on which such payment is due.

2. The advantage to the merchant is that in taking delivery of a consignment of salt from boardship or from bond, it will be open to him, instead of prepaying the amount of the duty into the Treasury, to execute a bond and to deposit Government Promissory Notes or the other securities specified in the rules of a sufficient value to secure the payment. He will have the advantage of drawing interest on the securities throughout the period for which they are deposited. At present he loses interest on the amount of the duty from the date of payment till the date of the sale of the salt. If any further particulars are required, the Accountant at the Custom House will furnish them on application.

CALCUTTA CUSTOM HOUSE,
The 11th December 1909.

H. F. HOWARD,
Offg. Collector of Customs.

NOTIFICATION.

No. 338 S.R.—The 2nd April 1909.—In exercise of the power conferred by section 2 of the Indian Salt Duties Act, 1908 (X of 1908), the Lieutenant-Governor is pleased to make the following rules providing for the payment of duty on salt (manufactured in, or imported into, or transported within Bengal) within a period not exceeding six months from the date on which payment is due, and for the furnishing of security for such payment:—

Rules.

1. The payment of duty on salt manufactured in, or imported into, or transported within Bengal may, subject to the following rules, be postponed for any period not exceeding six months from the date on which such payment is due.

2. Any person who desires such postponement must deposit adequate security for such payment and must execute an agreement in the form appended to these rules.

3. Such security shall take the form of—

(*a*) Government promissory notes,
(*b*) Treasury loan acknowledgments,
(*c*) Treasury Bills,
(*d*) Calcutta Port Trust Bonds,
(*e*) Calcutta Municipal Bonds,
(*f*) Government Savings Bank Pass-books, or
(*g*) Post Office Savings Bank deposits of the kind referred to in clause 42 in rule 333 of the rules contained in the Indian Postal Guide of April 1908.

which must be endorsed over to and deposited with the Collector of Customs, Calcutta, or a District Collector empowered by the Board of Revenue in this behalf,

4. (1) Whenever securities are so deposited, the Collector shall grant to the depositor a receipt therefor, showing the amount of duty and charges for which the depositor will receive credit in respect of such securities.

(2) The said amount shall be fixed according to the probable marketable value of the securities, after making such deduction as the Collector may think fit to meet the contingency of depreciation in such value during the currency of the credit.

5. The Collector shall open a credit account for the amount shown in the aforesaid receipt: provided that no account shall be opened for a less sum than Rs. 500.

6. (1) A depositor may have more than one credit account opened in his name at the same time, upon depositing separate securities and executing a separate agreement in respect of each account.

(2) Any deficit arising upon any such account may be realized from securities deposited on any other such account.

7. (1) Where a credit account is opened by the Collector of Customs, Calcutta, applications by the depositor for the clearance of salt must be made upon a Bill-of-Entry bearing the words "Credit Account" in red ink on its face, and the depositor must in all other respects conform to the Customs procedure for the time being in force in Calcutta.

(2) Where a credit account is opened by a District Collector, applications by the depositor for the clearance of salt must be made in the prescribed form, and the Collector shall then pass the necessary orders for the issue of the salt.

8. (1) All payments due upon credit accounts opened in Calcutta must be made to the Collector of Customs, Calcutta:

Provided that the Collector may permit any such payment to be made at any Treasury outside Calcutta.

(2) All payments due upon credit accounts opened in any district outside Calcutta must be made to the Collector of that district.

9. Any interest accruing on securities during the time they remain in the custody of the Collector shall be paid to the depositor on presentation of interest warrants.

10. (1) Each current account shall be adjusted at the expiration of a period of six months from the date on which the account is opened.

(2) Whenever an adjustment is made, the Collector shall either—

(*a*) allow the account to be continued and the balance thereof carried over, after requiring additional security to be deposited if necessary, or
(*b*) if he thinks fit, direct the account to be closed.

11. (1) If any depositor fails to pay upon demand, the balance found to be due by him to the Government upon the final adjustment of his account, he may be charged with interest on such balance from the date on which the credit expired, at the rate of 12 per cent. per annum, and the Collector may proceed to realize the amount due for principal and interest by the sale of the depositor's securities or any of them.

(2) Any surplus accruing on such sale shall be paid to the depositor, and any loss consequent on the securities not realizing the sum due from the depositor for principal and interest must be met by him.

(3) For the purpose of making good any such loss, the Collector may credit to the Government any interest that may have accrued on any of the securities.

12. When an account opened in respect of any securities has been settled, such securities shall be returned to the depositor, upon his presenting the receipt which the Collector granted therefor.

13. (1) A depositor may have an account closed at any time before the expiration of the period of six months referred to in rule 10, upon paying amount shown to be due by him.

(2) When such payment is made the securities shall be returned to the depositor, upon his presenting the receipt which the Collector granted therefor.

THE INDIAN LAW REPORTS.

Published in FOUR SERIES, viz.

CALCUTTA, MADRAS, BOMBAY AND ALLAHABAD.

THE Indian Law Reports, published under the authority of the Governor General in Council, are printed in monthly Parts, which are issued, as soon as possible after the first of each month, at Calcutta, Madras, Bombay and Allahabad, respectively.

The Reports comprise four Series—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court.

The cases heard by the Privy Council on appeal from each High Court are reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta series.

The Calcutta Series is distributed by the Bengal Secretariat Book Depôt: and the Madras, Bombay and Allahabad Series are distributed direct from Madras, Bombay and Allahabad, respectively.

Persons desiring to subscribe for or purchase the Reports should apply to—

the Officer in charge, Bengal Secretariat Book Depôt, Calcutta,

or

the Superintendent, Government Press, Madras, or
the Superintendent, Government Central Press, Bombay, or
the Curator of Government Books, United Provinces of Agra and Oudh, Allahabad.

AMENDMENT OF THE CODE OF REGULATIONS FOR EUROPEAN SCHOOLS

GENERAL DEPARTMENT—EDUCATION.

Calcutta, the 25th June 1910.

RESOLUTION No. 2382.

READ—

Resolution by the Government of Bengal, General Department, No. 8051, dated the 24th November 1908.

With Resolution No. 8051 of the 24th November 1908, the revised Code of Regulations for European Schools in Bengal was published for general information, and it was stated therein that Sir Andrew Fraser desired that the Code should be introduced as soon as possible, and that accordingly His Honour directed that the High School and Scholarship examination, the Middle School and Scholarship examination, and the Primary School examination for European Schools should be held for the last time at the end of 1909. It was further stated that the first list of recognized secondary and elementary schools would be published at the beginning of 1910.

2. The Code was severely criticised, and representations on the subject were made to Government by some of the leading bodies and individuals interested in European education in Bengal. The main objections taken were—*firstly*, the classification of all schools into two grades—secondary and elementary—between which there was alleged to be an impassable barrier; and,

secondly, the large expense involved by the inclusion of science as a compulsory subject in the curriculum for secondary schools. In response to the feeling expressed, the Lieutenant-Governor directed that the orders for the introduction of the Code in the beginning of 1910 should be suspended until these and other criticisms had been fully considered.

3. The points at issue have been carefully examined, and the Lieutenant-Governor is satisfied that the objections can be met by the modification of certain rules of the Code, and that no alteration of its main features is necessary. His Honour is gratified that this should be so, as the Revised Code was prepared after prolonged and careful consideration by a large body of experts, assisted by many individuals directly interested in the welfare of European education.

4. The effect of the rules concerning the grading of schools contained in Chapter II, as at present drafted, is to compel a school to confine its attention to the elementary education of pupils up to 14 years of age, and to give up entirely the education of pupils over that age, unless the school authorities are prepared to teach the full secondary course, providing for the education of pupils up to the age of 18. The Lieutenant-Governor is convinced that a rigid classification of this character is not suited to the educational needs of this Province, nor does it appear to be in accordance with the practice obtaining in Europe. In India the great majority of European and Eurasian children, though unable to proceed to the highest standard of a secondary school, yet require an education which continues after the age of 14 and extends beyond the elementary school curriculum. His Honour is therefore prepared to recommend to the Government of India that, in place of the two standards at present laid down in Chapter II of the Code, there should be four standards as follows :—

(1) Elementary.
(2) Higher elementary, teaching—in addition to the curriculum prescribed for elementary schools—a technical course.
(3) Secondary, teaching up to the standard of the Junior Cambridge School Certificate examination.
(4) Higher secondary, teaching up to the standard of the Senior Cambridge School Certificate examination.

5. With regard to the barrier alleged to exist between elementary and secondary schools, His Honour is advised that there has been considerable misapprehension. It was not intended that the curriculum for the preparatory section of a secondary school should differ materially from that for the corresponding classes of an elementary school. To make this clear the note to Rule 28, clause (*a*), has been amended.

6. The Lieutenant-Governor has given his careful consideration to the representations on the subject of the expense involved in the proper provision for the teaching of science, and while still of opinion that it is desirable that science should find a place in the curriculum for secondary schools, His Honour considers it unnecessary for the present to make it an obligatory subject. This decision, the Lieutenant-Governor understands, conforms with the practice obtaining in England in connection with the rules governing the grant of Cambridge School certificates.

7. These conclusions involve the alteration of the rules concerning the grant of scholarships, the conduct of examinations, and other subsidiary matters to which it is unnecessary to make special reference in this Resolution. The changes involved are set forth in the statement attached.

8. The present opportunity has been taken to consider some minor alterations in the rules of the Code. The only one of these to which special reference need be made is the alteration proposed in Chapter IX in the method of conducting the examination of elementary schools. The Code, as at present drafted, provides for both an oral and a written examination *in situ* by a Board of three persons. This procedure is attended by considerable practical difficulties, and in modification thereof it is proposed that the examination should be by written papers which will be moderated by the full Board of Examiners and the Inspector of European Schools, to be followed, as soon as the Department can make the necessary arrangements, by an oral

examination *in situ* conducted by a Board of three persons. It is further proposed that the standard of passing should be regulated by the Director of Public Instruction in consultation with the Inspector of European Schools.

9. The exact wording of the alterations which it is proposed to introduce in the rules of the Code published with Resolution No. 8051, dated the 24th November 1908, is set forth in the statement appended to the present Resolution, reference being given in each case to the rule of the Code concerned. The Lieutenant-Governor desires to invite the opinions of school managers and all bodies and individuals interested in European education in Bengal upon the changes now proposed, and he would also be glad to receive any suggestions which, while not opposed to the main principles of the Code, would be likely to lead to improvement in detail. All such expressions of opinion should reach the Secretary to the Government of Bengal in the General Department not later than 1st August 1910, and will receive the Lieutenant-Governor's careful consideration.

10. Finally, certain alterations approved by the Government of India since the Code was published in 1908 have been included in the statement appended. A clause has been added to Rule 2, giving the Local Government power to admit to the benefits of the Code schools in which the system of education approximates to that prescribed in the Code, and in which the scholars in respect of habits and mode of life approximate to scholars of European schools. It is not intended, however, that non-Europeans should be eligible for scholarships given under the Code, and consequently a clause has been added to Rule 101 to the effect that non-European scholars studying in European schools or in non-European schools which have been admitted to the benefits of the Code shall not be eligible for scholarships provided under Rules 101 and 107.

By order of the Lieutenant-Governor of Bengal,

W. R. GOURLAY,

Offg. Secy. to the Govt. of Bengal.

Statement of amendments proposed in the Code of Regulations for European Schools in Bengal, which was published with Resolution No. 8051, dated 24th November 1908.

1. ARTICLE 2, LINE 4.—*The words* "The term scholar signifies European scholar" *to be deleted.*

2. ARTICLE 2.—*Add the following paragraph to Article 2 :—*

"The Local Government may, at its discretion, admit to any or all the benefits of this Code any school in which the system of education is the same as or approximates to that prescribed in this Code, or which wishes to adopt such a system, and of which the scholars in respect of habits and mode of life approximate to scholars of European schools."

3. ARTICLE 7 (c).—*Add* "who have not adopted European habits of life" *after the words* "*non-European scholars.*"

4. ARTICLE 8 (*d*).—*Insert an asterisk after the words* "*class by class,*" *and add the following as a footnote :—*

"Non-European scholars in respect of whose attendance or instruction a grant-in-aid is drawn under the provisions of this Code shall be charged fees at no higher rates than European scholars of the same school and at the same stage of instruction."

CHAPTER II.

5. ARTICLE 14.—*Substitute for the present article the following :—*

"All recognized schools shall be placed in one or other of the four following grades :—

"(1) Elementary.
"(2) Higher Elementary.
"(3) Secondary.
"(4) Higher Secondary."

6. ARTICLE 15.—*Add* "A higher elementary school is one which, in addition to the curriculum prescribed for elementary schools, teaches one or other of the technical courses given in Appendix III."

7. ARTICLE 16.—*Add* "and which makes provision for the four classes constituting the general school as defined in Article 20."

"A higher secondary school is one which carries the teaching of the secondary courses to a higher standard, and makes provision for the two classes constituting the upper school as defined in article 20."

8. ARTICLE 20.—*The word* "higher" *to be inserted between the words* "*complete*" *and* "*secondary*" *in the first line.*

9. ARTICLE 28 (*a*).—*In the note after* "*secondary school*" *omit* "*will be*" *to end of note, and substitute* "as well as of the preparatory section [so far as subjects (1) to (5) and an Indian vernacular are concerned] will follow the lines laid down in Appendix II for elementary schools."

10. ARTICLE 28 (*b*) (7).—*Substitute* "Science. Any two of the following four branches :—

"(*a*) Elementary Botany.
"(*b*) Elementary Physics.
"(*c*) Elementary Chemistry.
"(*d*) Elementary Physiology (including Hygiene)."

11. ARTICLE 30.—*Add an asterisk at the end of this article and a corresponding note at the foot of the page* as follows :—

"The teaching of Science in secondary or higher secondary schools, though desirable, will not be considered obligatory by the Department for the present."

12. ARTICLE 42, NOTE (1).—*Add after the words* "*non-Europeans*" *the words* "who have not adopted European habits of life."

SECTION VI.

13. *The word* "European" *should be inserted in the heading in the following places :— Between* "*for*" *and* "*orphans,*" *between* "*destitute*" *and* "*children*" *in the first line, and between* "*the*" *and* "*poor*" *in the second line.*

CHAPTER IX.

14. ARTICLE 91.—*Substitute for the present article the following :—*

"The examination for the elementary school certificate shall be by written papers, and shall include all the subjects of the school curriculum. No scholar who has not been through a complete course may present himself at it. The examination should be of a simple character, and should be such as to test whether a candidate has been taught the subject intelligently and has at the same time derived substantial benefit from it. The papers shall be moderated at a meeting of the full Board of Examiners and the Inspector of European Schools. The standard of passing shall be determined by the Director of Public Instruction in consultation with the Inspector of European Schools. As soon as the Department can [m]ake the necessary arrangements, the written examination will be supplemented by an oral [exa]mination to be held *in situ* in each school. For this purpose there shall be a Board of three [perso]ns, of whom two shall be appointed by the Department and the third shall be a teacher

of the school nominated by the Inspector in consultation with the Principal or Head Master of the school."

15. ARTICLE 95.—*Lines 1 and 4, for "examination" read* "examinations." *Line 5, for "senior" read* "Junior and Senior." *Omit from "In other words" to the end of the penultimate sentence, and substitute :* "In other words, these will be the school final examinations for pupils leaving school at the end of the secondary and higher secondary stages respectively. Pupils, however, may present themselves for examination for the junior school certificate, even though they may intend to go on to the classes of the upper school."

16. ARTICLE 96.—*Substitute* "1910" *for "1908" in the beginning of the fourth line.*

17. ARTICLE 98.—*Substitute for the last sentence :—*

"The examinations, which will be of two standards—lower and higher—will be held at the same time as the Junior and Senior School Certificate examinations."

18. ARTICLE 99.—*Substitute for the present article the following :—*

"The subjects for the Junior and Senior school certificate examinations in which schools may present candidates will require the sanction of the Department, and this sanction should issue not less than one year before the date of the respective examinations."

19. ARTICLE 101.—*Substitute for the present article the following :—*

"Scholarships are of six grades, namely—

"(1) Junior elementary.
"(2) Senior elementary.
"(3) Junior secondary.
"(4) Senior secondary.
"(5) Collegiate.
"(6) Final.

"The number and value of the scholarships of each grade to be awarded annually shall for the present be as follows :—

	Rs.	
"12 junior elementary scholarships at	12	per mensem.
"6 senior elementary scholarships at	12	,,
"4 junior secondary scholarships at	12	,,
"6 senior secondary scholarships at	20	,,
"3 collegiate scholarships at	30	,,
"2 final scholarships at	40	,,

"Non-European scholars studying in European schools or in non-European schools which have been admitted to the benefits of the Code shall not be eligible for the above scholarships, nor for the special scholarships provided under article 107."

20. ARTICLE 102.—*Substitute for the present article the following :—*

"Elementary scholarships shall be of two grades, junior and senior. Junior scholarships shall be awarded on the results of the elementary school final examination, and shall be tenable for two years at a recognized higher elementary school in connexion with a supplementary technical course recognized by the Department.

"Senior scholarships shall be awarded on the results of the departmental test-examination at the end of the supplementary course, and shall be tenable for two years in connexion with an approved course in a recognized institution for professional or technical instruction. In deserving cases the Director of Public Instruction may, if he thinks desirable, renew a senior scholarship after the two years' tenure has expired for such further period not exceeding three years as may be necessary to complete the course of instruction at the institution at which the scholarship is held."

Add footnote to Article 102 as follows :—

"Junior elementary scholarships may in special cases, at the discretion of the Director of Public Instruction, be made tenable in a secondary school."

21. ARTICLE 103.—*Substitute for the present article the following :—*

"Secondary scholarships shall be of two grades, junior and senior. Junior scholarships shall be awarded on the results of the Junior School Certificate examination, as prescribed in article 95, and shall be tenable for two years at an institution to be approved by the Director of Public Instruction. Should the period of study at such an institution exceed two years, they may, at the discretion of the Director of Public Instruction, be renewed for such further period as he may think necessary. Senior scholarships shall be awarded on the results of the Cambridge University local examination," *etc., as in the present article.*

22. ARTICLE 105.—*Substitute for the present article :—*

"Candidates for junior and senior elementary scholarships must be under the ages of 15 and 17 years respectively on the 31st December in the year of examination. Candidates for junior and senior secondary scholarships must be under the ages of 17 and 19 years respectively on the 31st December in the year of examination. No age-limits are fixed for collegiate and final scholarships."

APPENDIX III.

23. ARTICLE 27.—*Under "4—The domestic course" omit the words :— "The first two years" to "alternative with course 2 (industrial course)," and substitute* "the scope of the above courses may be modified at the discretion of the Director of Public Instruction."

During the week price of rice risen in six States, and stationary in the remaining States. Price of rice varying from 11 seers in Athmallik and 12 seers in Athgarh to 18½ seers in Ranpur and 20 seers in Bamra, Pal Lahara and Talcher.

* The report is for the week ending the 18th June 1910.

GENERAL SUMMARY.—The rainfall was general all over the Province; the fall being heavy in Murshidabad, Purnea, Cuttack, Angul, Cooch Behar and in parts of Midnapore and the Sonthal Parganas, moderate in Burdwan, Khulna, Champaran, Puri and Manbhum and light elsewhere. The recent rainfall has been beneficial in Behar for standing crops and for agricultural operations. Excessive rain has damaged the standing crops to some extent in parts of Bhagalpur and the Sonthal Parganas. Weeding of jute and sowing of *bhadoi* crops continue. Transplantation of *aman* paddy has commenced in some districts. The sugarcane crop is doing well. The price of common rice has risen in Burdwan, Midnapore, Patna, Shahabad, Manbhum and has fallen in Jessore, Gaya, Saran, Champaran, Angul and Ranchi. Cattle-disease is reported from Burdwan, Nadia, Murshidabad, Gaya, Muzaffarpur, Darbhanga, the Sonthal Parganas, Cuttack, Angul, Sambalpur and Hazaribagh. The supply of fodder and water is sufficient throughout the Province.

The mean pressure, temperature, etc., are deduced from eye observations.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected to those of the standard, Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV and V of the official tables computed in the Meteorological Office and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground. The rainfall reported on any day is for 24 hours preceding 8 A.M. of that day.

o, overcast; d, drizzling rain; p, passing temporary showers.

No. 54.—The 4th January 1910.—IN the year 1903 His Majesty's Secretary of State for India sanctioned as a provisional measure the institution of certain number of scholarships tenable by natives of India, in Europe or America. The purpose of these scholarships, was to provide for natives of India that higher technical education which might qualify them to assist in promoting existing native industries and developing new industries, wherever this might be possible. Technical education for this purpose was defined as (a) the study of the scientific methods and principles underlying the practice of any handicraft, industry or profession, and (b) the application of these methods and principles to the handicraft, industry or profession in question. Law, medicine, engineering, forestry and veterinary science, being already provided for, were not included among the subjects to be studied by the holders of the technical scholarships, and agriculture was excluded from the scope of the scheme.

2. The Government of India have decided to award, during the year 1910, one scholarship to each province, provided that the Local Government or Administration concerned has a suitable candidate to nominate, and that its recommendation is submitted in accordance with the principles which are stated in paragraph 5 below, and that the industry to be studied is either already developed or in the process of development.

3. It may, however, happen that owing to the dearth of eligible candidates in certain provinces, two or more scholarships may on occasion be available for allotment to other provinces. If, therefore, a Local Government is in a position to recommend confidently more than one candidate, such recommendation may be submitted to the Government of India. In such cases the candidates need not necessarily be selected for the same industry.

4. As regards the current year, it has been decided, after consultation with representatives of the mercantile and industrial communities that one candidate will, if possible, be recommended for a scholarship in connexion with power loom weaving, finishing and dyeing. If a second scholarship is allotted to Bengal, a second candidate may be recommended in the same subject. The selection will depend largely on the character of the applications received.

5. The principles in accordance with which recommendations for scholarships will be submitted to the Government of India are as follow :—

(a) In making selections Government will bear in mind the fact that it will be necessary for the students to have a competent knowledge of English, or of the language of any other country to which they may be sent.

(b) Government will also be guided by considerations of the capacity and intelligence of applicants, and of the practical interest shown by them in the industries selected, as also the assurance which they may afford that they will continue to devote themselves to the industries selected on their return in India. These being matters which cannot be decided by competition, it is to be understood that the scholarships are not to be regarded as prizes, for which every one has a right to claim an equal opportunity of competing.

(c) As a general rule, a scholar, before being nominated, should have received the best technical education available in the province in the particular industry which he proposes to study. The standard of this education differs in different industries, and each may be considered on its own merits. Even if the standard of technical education in a particular industry is low, the scholar may be nominated, if he has availed himself of the best facilities obtainable, and shown an interest in the industry selected.

(d) No age limit is fixed for scholars, but an age limit may, at the discretion of Government, be fixed for any particular scholarship for which it invites applications.

6. The following are the conditions and terms on which the scholarships are tenable :—

(a) The value of the scholarships has been fixed at £150 a year, exclusive of fees payable to the institutions, where the scholars will study, and travelling expenses ; but in special cases Government will consider proposals for increasing the amount of the scholarships.

(b) In ordinary circumstances the period for which a scholarship is tenable will be two years, but in special cases it may be increased to a third year, or, on the other hand, it may be reduced below even two years.

(c) The scholarships are tenable in foreign countries as well as in Great Britain, and are payable from the date on which a scholar reports his arrival in the country which he may have selected for the purpose of study.

(d) The scholarships are tenable by persons who are natives of India within the meaning of section 6, Statutes 33 and 34 Vic., Cap. 3.

(e) The scholars, while in England or elsewhere, will be under the supervision and control of the Secretary of State. The conditions under which they will hold the scholarships are given in the "Rules for Indian Government Technical Scholars in England," a copy of which is attached to this notification.

7. It is essential, not only in the interests of the scholars themselves, but also in order to avoid unnecessary extensions of scholarships, that the beginning of the period of the scholar's residence in England should coincide with the opening of the academical session of the institution which they propose to enter. It has accordingly been arranged, in consultation with the Secretary of State, that scholars shall report themselves in England not later than the middle of September. It has also been ascertained that it is of no advantage to them to reach England earlier than this, and that consequently they should not ordinarily leave India before the middle of August.

8. The Government does not guarantee to provide scholars with employment on their return to India.

9. All applications for scholarships to be awarded during the year 1910 must reach the Director of Public Instruction on or before the 15th February 1910.

10. Applicants for scholarships must file certificates as to (1) moral character and antecedents, (2) educational qualifications, (3) knowledge of the language of the country in which the scholarship is to be held, and (4) physical fitness. Candidates must name the country to which they propose to proceed, and the course of studies, which they propose to take up while in receipt of scholarships. They should also state whether they have had any actual experience of the industry or industries for which the scholarships are offered.

11. If more than one duly qualified candidate is available, endeavour will be made to reserve one nomination for a Hindi-speaking candidate. If, however, no such candidate is forthcoming, some other qualified candidate who may apply will be recommended.

RULES FOR INDIAN GOVERNMENT TECHNICAL SCHOLARS IN ENGLAND

1. Every scholar shall, on reaching England, at once present himself to the Secretary, Judicial and Public Department, at the India Office, and report his arrival in writing.

2. Every scholar shall, without any unnecessary delay, inform the Secretary of State to which University or College he is about to proceed, and shall at once take steps to enter himself thereat.

3. Every scholar shall, within four weeks of reaching England, submit, for the approval of the Secretary of State, a statement showing the general course of study he proposes to follow ; and the course approved shall not be changed without the sanction of the Secretary of State.

4. Every scholar shall, at the end of each term of residence at a University or College, submit to the Secretary of State a certificate from the proper University or College authority showing that his residence, conduct, and progress in study have been satisfactory during the term.

5. Every scholar shall at all times obey such instructions as he may receive from the Secretary of State.

6. Subject to a due compliance with the above conditions, the allowance, at the rate of £150 a year, for two years, or three years, if so determined, will be paid quarterly, in advance by the India Office, commencing from the date of the scholar's reporting his arrival

in England; but this allowance shall be reduced by the amount of any other sum which may become payable to him out of the revenues of India in respect of residence at a University or College during the same period or any part of it, but not in respect of University or College fees, the cost of which will be separately defrayed by the Secretary of State.

The necessary travelling expenses of scholars, by second class, or by third class, if no second class be available, will also be separately defrayed by the Secretary of State; these should be claimed on forms obtainable from the Accountant-General, India Office, S. W.

Charges for hotel bills are not defrayed.

7. Every scholar will forfeit his scholarship, who, not being disabled by illness or prevented by any other cause which the Secretary of State may consider sufficient, fails to complete the required term of residence in England according to the terms and conditions approved by the Secretary of State under Rule 3, or who is guilty of misconduct or disregard of the orders of the Secretary of State. If a scholarship be forfeited, the scholar will lose his claim to a free return passage to India, and will further become liable to refund the cost of his free passage to England.

8. The scholars will be under the special supervision and charge of the Political Aide-de-Camp to the Secretary of State, through whom the necessary orders will be given and to whom all reports and other communications respecting them should be sent.

No. 53.—The 4th January 1910.—The following draft of revised rules framed under section 8 of the Burial Board Act, 1881 (Bengal Act V of 1881), is published for general information.

2. Any objection or suggestion which may be received from any person with respect to the draft before the 15th February 1910 will be considered by the Lieutenant-Governor.

REVISED RULES OF THE CHRISTIAN BURIAL BOARD FOR THE TOWN AND SUBURBS OF CALCUTTA.

[Alterations and additions are shown in italics.]

I.—Jurisdiction.

1. Under section 5 of Act V (B.C.) of 1881, the general management of, and control over, the following Cemeteries have been vested in, and are exercised by the Board:—

The North, South, and Mission Cemeteries in Park Street.
The Lower Circular Road Cemetery.
The Ekbalpur Cemetery at Kidderpore.
The Tiretta or French Cemetery.

II.—Meetings of the Board.

1. A meeting of the Board shall be held ordinarily on the first Monday in each month. *Four* members of the Board shall be a quorum.

2. The Chairman may summon a special meeting when he thinks fit, and shall do so when required by three members of the Board.

3. In the absence of the Chairman at any meeting of the Board the members present (being a quorum) shall choose one of their number to preside

4. All questions shall be decided by a majority of votes. The Chairman of the meeting shall have a second, or casting vote

5. Minutes of the proceedings of all meetings of the Board shall be kept *by the Secretary*, and shall be signed by the Chairman.

6. Matters of emergency, and matters not provided for by the rules, shall be referred by the *Secretary* for the orders of the Chairman. All such references, with the orders passed thereon, shall be laid before the next monthly meeting for confirmation.

7. The members of the Burial Board shall be monthly Visitors of the cemeteries in rotation, and shall record in a book any remarks on the state of the same. The Superintendent shall send a notice on the first day of each month to the member whose turn it is to visit, reminding him of the fact, and, on the last day of each month, the Remark Book for any entries. The *Visitor's* remarks shall be read at the monthly meetings of the Board.

III.—Graves.

1. *The area to be used for graves in every cemetery shall be divided into grave-spaces which shall be serially numbered so that the portion of each grave-space may be readily ascertained.*

2. *A corresponding map or maps of the burial ground shall always be kept at some convenient place, and shall be open to the inspection of all persons. Every grave-space shall be delineated on such map, and its number inscribed thereon. A book shall also be kept with such map or maps in which all interments made in the aforesaid grave-spaces and their dates shall be entered.*

3. *No grave-space shall exceed 9 feet by 5 feet in superficial dimensions, and every grave shall be constructed so as to leave a space of at least 1 foot on all sides between it, and the boundary of the grave-space.*

4. *No masonry grave shall, for the first interment therein, be constructed to a perpendicular depth of less than 6 feet, and no non-masonry grave to a depth of less than 5 feet; and a measuring rod shall be kept in each cemetery on which shall be legibly marked the perpendicular depth herein prescribed; and it shall be incumbent on every person having control or being in charge of a cemetery to satisfy himself by the use of such rod that, prior to any interment being made therein, each grave is of the prescribed depth.*

5. *Grave-spaces shall be occupied consecutively according to the date of application, and no grave-space shall be allotted out of its regular serial order.*

6. *No masonry grave shall be re-opened until after the expiry of eight years from the last interment made therein, except in order to inter another member of the same family, in which case a layer of earth shall be left undisturbed above the last previously interred remains of not less than 6 inches in depth; provided that no soil shall be disturbed which, when the grave is re-opened, shall be found to be offensive.*

Provided also that no second interment may take place unless there is room to place at least 3 *feet of earth between the top of the coffin and the surface of the ground at its ordinary level.*

Provided also that no second interment may take place within twelve months of the previous one.

7. The land used for a non-masonry grave, *if not purchased,* may be re-used after a period of *eight years, provided that no soil shall be disturbed which, when the grave is re-opened, shall be found to be offensive.*

8. The enclosure round a grave *shall consist of* a metal railing, or chains, or bars of metal supported on iron or masonry pillars. Wooden or masonry enclosures shall not be permitted.

9 *No person who is not in the service of the Board shall be permitted to dig graves within the Cemeteries under the care of the Board, save as the Board may otherwise appoint.*

10. All masonry graves shall be constructed in accordance with plans and specifications, and with materials approved by the Board, and shall be arched in after the interment to the satisfaction of the Board.

11. In the case of a non-masonry grave no right shall be acquired to the exclusive use of the ground, unless the land is purchased, in which case the purchaser shall have the same rights and be subject to the same obligations in respect of interments as the owner of a masonry grave. But, after the lapse of one year, a non-masonry grave may be converted into a masonry grave on a written application to the Board, and on payment of the difference between the fee *already* paid and the fee leviable under the rules.

12. The Commissioner of Police shall have power to order the exhumation of corpses *when* such exhumation is considered necessary by him for police purposes, *and he shall forthwith give information to the Board of any such order for disinterment. Otherwise no disinterment shall be made without a special order of the Chairman,* who, before giving such sanction, shall obtain the concurrent permission of the Archdeacon of Calcutta in cases arising within a Church of England cemetery, or portion of a cemetery, and of the Archbishop of Calcutta in cases arising within a Roman Catholic cemetery, or portion of a cemetery. In regard to the *general* portion of a cemetery, the Chairman of the Burial Board shall obtain, if possible, the sanction *of the representative* of the denomination concerned. *A list of those to whom application is to be made for such sanction shall be kept in the Secretary's office, and revised quarterly after communication with the persons named therein.*

In urgent cases the Superintendent may give leave for exhumation within 12 hours of the burial, notifying the fact at once to the Chairman.

13. *The ashes of cremated bodies, if interred in an urn or other suitable receptacle, may be exhumed at any time with the sanction of the Chairman. Nothing in rules 3, 4, 6 and 7 shall apply to the interment of the ashes of cremated bodies.*

IV.—Monuments.

1. All applications for the erection of monuments, or alterations *or additions to* the same, shall be made to the *Secretary* of the Board, and shall show the proposed design and inscription and cost of the same.

2. *No monument or head-stone of any description shall be placed over a non-masonry grave, unless the grave-space has been purchased. The foundations in this case shall be not less than 5 feet in depth.*

3. *The superficial area of a monument erected upon a grave shall not, without the special sanction of the Chairman, exceed 8 feet by 4 feet.*

Provided that the use of masonry, or of wood or other perishable materials for monuments shall not be allowed. This shall not apply to crosses, which may be made of wood.

4. The Board will undertake to keep in repair any monument for the repair of which *a sum of money, or an annual payment deemed sufficient by the Board, shall be deposited or made.*

5. If any monument *which the Board has not undertaken to keep in repair* falls into a ruinous condition, the Board may call upon the friends of the deceased to repair it, and if they neglect to do so, or if they cannot be traced, the Board may deal with such monument at *its* discretion.

Note.—In the above rules the term *monuments* includes head-stones, slabs, and all other memorials of the dead, and grave enclosures.

V.—Endowment of Monuments.

1. *An endowment fee of Rs. 15 shall be charged when a person wishes to endow a single stone monument.*

2. *All other monuments shall be divided into two classes:—*

(i) *Plain and solid monuments which are likely to require only occasional repair; and*

(ii) *Elaborate monuments and other monuments which are likely to require special attention or frequent repair.*

An endowment fee of Rs. 30 shall be charged for monuments of the first class, and of Rs. 75 for monuments of the second class. The classification shall rest with the Executive Engineer, Public Works Department, 2nd Calcutta Division, but any person objecting to his decision may appeal to the Chairman, Christian Burial Board.

Note.—*In the case of a child's monument these fees may be reduced to Rs. 20 and Rs. 50 respectively, provided that the monument does not exceed 5 feet by 3 feet.*

3. *On the recommendation of the Executive Engineer, Public Works Department, 2nd Calcutta Division, a higher fee may be charged in cases where fees on the classified scale are insufficient.*

4. *No addition to an existing monument in any cemetery under the Board shall be allowed beyond mere lettering on existing slabs, head-stones, or crosses, unless the whole monument is endowed.*

5. *The endowment is intended to cover the expense of ordinary annual maintenance, re-lettering, and repairs, but not the risk of accidents due to floods, earthquakes or other extraordinary causes. It is open to any person to provide for extraordinary repairs by making a special endowment, in addition to the ordinary endowment fixed by the Executive Engineer, Public Works Department, 2nd Calcutta Division, under rules 1-3. This special endowment shall, however, be limited to the amount necessary to cover such work as the Board can undertake to execute.*

6. *The interest accruing on deposits shall be applied to meet the expenditure for the repair of those monuments, for the preservation of which deposits have been made.*

VI.—Fees and Charges.

1. The following fees shall be payable to the Board in respect of any burial in a *non-masonry grave* in any cemetery under the care of the Board:

	Full size grave. 7 ft. by 2 ft.	Medium size grave. 5 ft. by 2 ft.	Small size grave. 3 ft. by 2 ft.
	Rs.	Rs.	Rs.
For a funeral in which the coffin is carried on men's shoulders	5	4	3
Where a hearse is employed, and there are no mourning coaches ...	10	8	6
Where a "shellabier" is employed ...	15	12	9
Where a hearse and coach, or coaches, are employed	20	16	12
For a funeral in which the corpse is not enclosed in a coffin or in which the coffin is composed of materials recognised by the Board as perishable, the above fees for burial will be reduced to one-half of the usual charges.			
For a hearse in the case of deceased inmates of all charitable institutions ...	1	1	1
*For a pauper funeral	1	1	1
*(The poverty of the deceased must be certified by a Minister of Religion, Medical Practitioner, Magistrate, or other public officer, in cases not coming through the police.)			

If it is desired to purchase the grave-space, an additional fee of Rs. 60 for a full size grave, Rs. 45 for a medium size grave, and Rs. 20 for a small size grave shall be charged.

2. The following charges shall be payable to the Board in respect of any burial in a *masonry grave* in any cemetery under the care of the Board:—

	Rs.
Masonry grave, full size, 8 feet by 4 feet and 7 feet deep ...	120
" " medium size, 5 feet by 4 feet and 6 feet deep ...	100
" " small size 4 feet by 3 feet and 6 feet deep ...	60
These charges shall include the grave-space fee, and the cost of construction of the grave, and of the arching in.	
Second interment	16

This charge shall not include arching in nor any expenses connected with the opening or closing of the grave, *for which a separate charge of Rs. 4 shall be made.*

	Rs.
For a grave space when the masonry grave is not constructed by the Board	60

Masonry grave construction, where the grave space has been previously acquired:—

	Rs.
Full size	60
Medium size -	55
Small size	40

3. Monuments and additions to monuments shall be charged for at 20 per cent. of their cost under Section VII, Rule 4, subject to a minimum of Rs. 25 for each monument (which minimum, however, shall not apply to mere additions). But the minimum fee for a headstone shall be Rs 15.

4. A copy of the Registration of Burial, *over* the signature of the *Secretary of the Board*, shall be given on payment of Re. 1 as searching fee, and Re. 1 as copying fee.

5. Any person may acquire and appropriate, for a grave for himself and his family, a space of land not exceeding *9 feet* by *5 feet* by external measurement, on payment of a fee of Rs. 60. No fee shall be charged on the placing of a border not exceeding 6 inches in height, delimiting a grave space by the person acquiring the same.

6. A certificate (*or "pottah"*) securing a right of interment shall be granted by the Board to the purchaser of a grave-space *on payment of the necessary stamp duty*.

7. All fees and charges not paid to the credit of the Board's account in the Bank of Bengal shall be payable to the *Secretary*.

8. The person or firm applying for permission for a burial, or for the erection of any monument or addition to a monument, shall be responsible for the payment in advance of all fees connected therewith.

VII.—Undertakers.

1. In cases of burial in the Cemeteries under the Board a certificate of the cause of death shall be obtained by the undertaker or other person conducting the funeral, who will sign and deliver the said certificate to the Superintendent for the person officiating at the funeral as an authority for the burial. *Such certificate shall be signed by a Medical Practitioner or other responsible person competent to vouch for the accuracy of its contents.*

2. In the event of no certificate of the cause of death being furnished, the Superintendent shall give notice to the nearest police-station.

3. It shall be the duty of each licensed undertaker, at the time of applying for permission to erect a monument in any of the Cemeteries, to lodge in the Board's office a correct copy of the estimate of the cost of the monument accepted by the person ordering the monument.

4. Licensed undertakers shall attend personally all funerals conducted by them, or shall be represented by agents, who have previously been *approved* by the Board, *and registered as agents to act for them.*

5. A list of all such persons, signed by the Chairman, shall be kept at the Board's office. Any undertaker, or employee of an undertaker, violating the terms of the Board's Rules, or misconducting himself in the performance of his duties, either within the Cemetery or in his dealings with any person by whom he may be so employed, shall be held liable to have his license suspended, revoked, or cancelled, or to forfeiture of any sum fixed by the Board, not exceeding Rs. 25 in any one particular case. Undertakers are liable to have their materials and their work inspected by the Public Works Department, and condemned if inferior. In such a case fresh materials shall be used, and the work re-executed.

6. *The work connected with the erection of any monument shall be completed within a maximum period of four months from the date of its commencement.*

7. *A complaint-book shall be kept in the charge of the Superintendent at every cemetery controlled by the Board in which complaints may be entered on any matter connected with the burial of the dead, and the complaint-books shall be placed before the Board at their regular meetings.*

8. The Superintendent is authorised to *stop* any work which he considers inferior, pending a reference to the *Engineer*.

9. Except for the purpose of fitting up, no stone is to be cut or chipped within the Cemeteries. All rubbish shall be cleared away *as soon as* the work is completed.

10. Notices of evening funerals shall be sent *to the Superintendent of the Cemetery* before noon, and notices of morning funerals not later than 9 P.M.

VIII.—Servants of the Board and their duties.

1. The Superintendent shall have general charge of the Cemeteries, and shall be directly responsible for the due observance of the Rules, and for the maintenance of the Cemeteries in a proper condition.

2. *Servants of the Board* drawing salaries of Rs. 20 and upwards per mensem shall be appointed by the Board at a meeting; *servants* drawing salaries below Rs. 20 may be appointed by the Chairman. Any *servant* may be suspended or *dismissed* by the authority by which he was appointed.

3. The Superintendent may suspend any of his subordinates for breach or neglect of duty, reporting his action for the approval of the Chairman. Any *servant* of the Board who shall accept any fee, perquisite or gratuity, other than authorised pay, for the performance of any duty under the Board, shall be liable to immediate dismissal.

4. The office of the *Board* shall be at the Circular Road Cemetery, and office hours shall be 6 to 10 A.M. and 4 to 6-30 P.M. except on Sundays and public holidays. When absent on urgent business during these hours, the Superintendent shall leave a notice with the Durwan *stating* where he has gone, and *the probable time of his* return. From 10 A.M. to 4 P.M. the Assistant shall be present to attend to all work.

5. All books and registers shall be kept at the office, *and shall be open for inspection* by a member of the Board.

6. The Superintendent shall keep the plans of the Cemeteries, and shall mark on each, at the time of the interment, the grave *then* occupied, entering the *required particulars* in a corresponding register.

7. No monuments or materials for graves *shall be brought into* the Cemetery without the sanction of the Superintendent. He shall report to the Executive Engineer the arrival of any materials which may seem to him defective.

8. Ordinarily no work, except the conduct of funerals, shall be allowed on Sundays

9. All gates, except the main gate, shall be kept locked, and shall be opened only for funerals and on special occasions.

10. The main gate shall be shut at sunset.

11. The Durwans shall be held responsible for any irregularity or damage committed at night.

12. Malis shall not be permitted to sell or give away any fruit or flowers. Any complaint *regarding* the neglect of, or damage to, graves or monuments shall be enquired into by the Superintendent. He shall keep a *record* of such complaints, and bring them to the notice of the Board *at their next meeting*.

13. The Durwans are authorised to keep all idlers out of the Cemeteries.

14. No hearse, coach, or other vehicle, *and no animal* shall be allowed within any Cemetery; *provided that this shall not apply to carts or animals engaged on work*. No noise or other disturbance, and no riotous or improper conduct, will be permitted within the Cemeteries.

IX.—Accounts.

1. The Board shall submit to the Government annually, in the month of *February*, a budget statement of the estimated receipts and expenditure for the ensuing financial year.

2. The Board shall also submit to Government annually, before the end of the month of June, an account of the receipts and expenditure of the last financial year.

3. The Superintendent shall submit at the monthly meeting of the Board a statement of the receipts and expenditure of the preceding month. He shall use vouchers with counterfoils in granting receipts for money received, and keep a register in the form prescribed at the Cemetery.

4. *Numbered receipts signed by the Secretary shall be given to undertakers in printed form with counterfoils for all payments. A certificate in the prescribed printed form shall be furnished by all licensed undertakers to the Board's office not later than the 3rd of each month, stating that receipts have been obtained, under the signature of the Secretary, for all fees paid by them during the preceding month.*

5. *All money received by 2 p.m. shall be sent to the Bank on the same day. The Standing Auditor shall be required to see that all daily collections have been brought to credit in the accounts, and regularly remitted to the Bank every day. He shall also submit a report of his having done so at every meeting of the Board.*

6. *The Board, if desired, will undertake on a fixed charge, to be determined by the Board, to provide flowers, shrubs, etc., for any grave, and all moneys paid by private individuals to the Superintendent for this purpose will be acknowledged by the Board.*

7. A separate account shall be kept of expenditure incurred on repairs of monuments under Section IV, Rule 3.

8. *The Board's accounts shall be audited by an auditor or auditors appointed by the Board.*

X.—Miscellaneous.

1. Notice Boards shall be put up at the main gate of each Cemetery, *containing all necessary information to the public.*

2. All persons committing suicide, who are Roman Catholics by denomination, shall be buried in the unconsecrated portion of the Cemetery allotted to that denomination, unless the funeral is attended by a priest, or unless a priest gives a written certificate that the interment may be made in the consecrated ground.

3. *The Superintendent, if appointed by the Chairman of the Corporation under section 526 (4) of the Calcutta Municipal Act in that behalf, may be Sub-Registrar in any cemetery under the Board's control.*

Advertisement of sale.

NOTICE is hereby given that the proprietary right of Government, as specified in the conditions of sale below, to the undermentioned estates situate in the district of Murshidabad will be put up to sale at the Jangipur subdivisional office on Saturday, the 15th January 1910, corresponding with the 2nd Magh 1316B.S.

The purchasers will be subject to the following conditions of sale :—

Conditions of Sale.

1st.—The estate to be sold to the highest bidder above the upset price which will be fixed by the Collector at the time of sale. The purchaser of this estate will be considered as the proprietor of the estate, and the entire proprietary right of Government in such estate will be transferred to him, subject to the revenue fixed in perpetuity.

2nd.—The sale to be subject to existing leases and to the rights conferred by the settlement proceedings, and by the laws in force; and purchasers to be bound to respect the rights of resident cultivators who have signed the schedule of assessment prepared by the Revenue authorities.

3rd.—If the amount of purchase-money do not exceed Rs. 100, whole amount to be paid down at once.

4th.—If the amount of purchase-money exceed Rs. 100, one-fourth of the amount bid to be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale is to be cancelled (the sum deposited being forfeited to Government), and the estate to be again put up to sale at the risk of the defaulting purchaser, after issue of advertisement, as in the case of original sale.

5th.—Land revenue demand of the mahals will be fixed at 75 per cent. of the existing gross rental.

LEGISLATIVE DEPT.,
BOOK DEPÔT BRANCH;
The 7th December, 1909.

THE INDIAN LAW REPORTS.

Published in FOUR SERIES, viz.

CALCUTTA, MADRAS, BOMBAY AND ALLAHABAD.

THE Indian Law Reports, published under the authority of the Governor General in Council, are printed in monthly Parts, which are issued, as soon as possible after the first of each month, at Calcutta, Madras, Bombay and Allahabad, respectively.

The Reports comprise four Series—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court. The cases heard by the Privy Council on appeal from each High Court are reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta series.

The Calcutta Series is distributed by the Bengal Secretariat Book Depôt: and the Madras, Bombay and Allahabad Series are distributed direct from Madras, Bombay and Allahabad, respectively.

Persons desiring to subscribe for or purchase the Reports should apply to—

the Officer in charge, Bengal Secretariat Book Depôt, Calcutta,
or
the Superintendent, Government Press, Madras, or
the Superintendent, Government Central Press, Bombay, or
the Curator of Government Books, United Provinces of Agra and Oudh, Allahabad.

PART IV.

Bills of the Bengal Legislative Council.

GOVERNMENT OF BENGAL.

LEGISLATIVE DEPARTMENT.

THE following Bills were introduced in the Council of the Lieutenant-Governor of Bengal on the 4th January, 1910, and are hereby published for information, together with Statements of Objects and Reasons:—

THE BENGAL CESS (AMENDMENT) BILL, 1909.

A

BILL

to amend the Cess Act, 1880.

WHEREAS it is expedient to amend the Cess Act, 1880, in the manner hereinafter appearing; *(Ben. Act IX of 1880.)*

It is hereby enacted as follows:—

Short title. 1. This Act may be called the Bengal Cess (Amendment) Act, 1909.

Amendment of section 4 of Bengal Act IX of 1880. 2. (*1*) The words "revenue or", in both places in which they occur in the definition of "annual value of any land, estate or tenure" in section 4 of the Cess Act, 1880, are hereby repealed. *(Ben. Act IX of 1880.)*

(*2*) To the said definition the following shall be added, namely:—

"*Explanation.*—For the purposes of the foregoing definition, the revenue which is payable to the Government by raiyats cultivating land, directly under the Government, in a Government estate shall be deemed to be 'rent.'"

The Bengal Cess (Amendment) Bill, 1909.
(Clauses 3—7.)

(*3*) After the definition of "the Collector of the district," in the same section, the following definition shall be inserted, namely :—

"'the Settlement Officer' means the Revenue-officer appointed by the Local Government under the designation of Settlement Officer or Assistant Settlement Officer for the purpose of preparing a record-of-rights and making a settlement of rents under the provisions of Chapter X of the Bengal Tenancy Act, 1885, in respect of the lands in any local area, estate or tenure, or part thereof." [*Cf.* Act VIII of 1885, s. 40 (*2*).] VIII of 1885.

Amendment of section 12.

3. In section 12 of the Cess Act, 1880, after the words "this section," the words, figures and letter "or in Chapter IIA" shall be inserted. Ben. Act IX of 1880.

Amendment of section 14.

4. In section 14 of the said Act, after the words "has ordered" the words and figures "under section 12" shall be inserted.

Amendment of sections 12, 14, 15, 16 and 36.

5. (*1*) In sections 12, 14, 15, 16 and 36 of the said Act for the words "Lieutenant-Governor" the words "Board of Revenue" shall be substituted.

(*2*) In sections 12 and 15 of the said Act, for the word "he," wherever it occurs, the word "they" shall be substituted.

New sections 22 and 23.

6. For sections 22 and 23 of the said Act the following shall be substituted, namely :—

Valuation by Collector where return untrue or incorrect.

"22. The Collector may, if he is satisfied, for reasons to be recorded by him in writing, that any return made under this Act is untrue or incorrect, by such ways and means as to him may seem expedient, ascertain and fix the annual value of the lands in respect of which the return has been made.

Recovery of expense of such valuation

"23. The expense of any valuation made by the Collector under section 22 may be recovered in the manner prescribed in sections 98 and 99 from the person by whom the untrue or incorrect return was made:

Provided that, where such return relates to lands for which no rent is payable by cultivating raiyats to the person who made the return, and the annual value of such lands, as determined by the Collector under section 22, does not exceed by one-fifth the value stated in such return, the said expense shall be borne by the District Road Fund."

New Chapter IIA.

7. After section 37 of the said Act the following shall be inserted, namely :—

"CHAPTER IIA.

"PROCEDURE FOR VALUATION OF LANDS IN RESPECT OF WHICH A RECORD-OF-RIGHTS IS BEING PREPARED, AND A SETTLEMENT OF RENTS IS BEING MADE, UNDER CHAPTER X OF THE BENGAL TENANCY ACT, 1885, OR IN RESPECT OF WHICH A RECORD-OF-RIGHTS IS MAINTAINED UNDER ANY ACT FOR THE TIME BEING IN FORCE. VIII of 1885.

Valuation during preparation of record-of-rights and settlement of rents.

"37A. Notwithstanding anything contained in Chapter II, the Board of Revenue may, if they think fit, order that a valuation shall be made by the Settlement Officer of any local area, estate or

The Bengal Cess (Amendment) Bill, 1909.
(Clause 7.)

tenure, or part thereof, in respect of which a record-of-rights is being prepared, and a settlement of rents is being made, under Chapter X of the Bengal Tenancy Act, 1885, or in respect of which a record-of-rights is being maintained under any Act for the time being in force; and such valuation shall take effect from the beginning of such year as the Board of Revenue may direct.

VIII of 1885.

Preparation of valuation-roll by Settlement Officer.

"37B. (1) When an order has been issued by the Board of Revenue under section 37A, the Settlement Officer shall, at the time of preparing the record-of-rights for the local area, estate or tenure, or part thereof, to which such order relates, prepare a valuation-roll showing the annual value of all lands comprised within such local area, estate or tenure.

(2) Where the lands of a local area, estate or tenure, in respect of which a valuation-roll is to be prepared under sub-section (1), are situate in more than one district, the Settlement Officer may prepare the valuation-roll in respect of the lands lying in one district; and valuation may be effected and brought into force for the portion of the local area, estate or tenure situate in such district in accordance with the procedure hereinafter prescribed.

Method of valuation by Settlement Officer.

"37C. The Settlement Officer shall, without calling for returns from the holders of estates or tenures, ascertain and fix the annual value—

(a) in the case of land the rent of which is payable in cash, on the basis of the rent which has been entered as payable therefor in the record-of-rights, and

(b) in all other cases, by inquiry, or by local inspection, or by such other ways and means as the Board of Revenue may prescribe in that behalf.

Powers and functions of Settlement Officer in regard to valuation of rent-free lands.

"37D. Notwithstanding anything contained in section 37C, the Settlement Officer may, for the purpose of ascertaining or fixing the annual value of any land held without payment of rent, other than land mentioned in section 33, and other than estates entered on the general register of revenue-free lands of the district, exercise any of the powers and functions which are exerciseable by a Collector under Chapter IV.

Publication of draft valuation-roll and hearing of objections.

"37E. When a draft valuation roll has been prepared, the Settlement Officer shall publish the draft together with, and in the manner and for the period prescribed for the publication of, the draft record-of-rights under sub-section (1) of section 103A of the Bengal Tenancy Act, 1885, and shall at the time when he is receiving and considering objections to entries in the draft record-of-rights under the aforesaid section, receive and consider any objection which may be made to any entry in the valuation-roll.

VIII of 1885.

Final publication of valuation-roll.

"37F. When such objections have been considered and disposed of according to such rules as the Local Government may prescribe, the Settlement Officer shall finally frame the valuation-roll and shall cause it to be finally published, and thereafter shall refuse to receive and consider any objections which may be made to any entry therein:

Provided that, where any material alteration has been made in the record-of-rights in accordance with any decision under section 105, section 105A or section 106 of the Bengal Tenancy Act, 1885, the Settlement Officer

(Clauses 8—9.)

shall make a corresponding correction in the valuation-roll after its final publication.

Appeals against entries in valuation-roll.

"37G. (1) Where the Settlement Officer has ascertained and fixed the annual value of any land in the manner described in clause (a) of section 37C, no appeal shall lie against the entry of such annual value in the valuation-roll; and the entry in the record-of-rights of the amount of rent payable in cash for such land shall, for the purposes of this Act, be final.

(2) Where the Settlement Officer has ascertained and fixed the annual value of any land by any of the ways and means mentioned in clause (b) of section 37C, or in section 37D, an appeal shall, if preferred within one month from the final publication of the valuation-roll, lie to such authority as the Local Government may by rule prescribe.

(3) The Commissioner may, on application made to him within one month from the date of the decision of the appellate authority in an appeal under sub-section (2), revise such decision.

Submission of valuation-roll to Collector and Collector's procedure thereupon.

"37H. (1) When the valuation-roll has been finally published, the Settlement Officer shall submit it to the Collector.

(2) On receipt of such valuation-roll the Collector shall note thereon the total annual value of each estate and of the tenures therein comprised, and the amount of revenue annually payable to the Government on which the deduction specified in section 41 is to be calculated.

(3) The Collector shall not entertain any objection against the total annual value of any estate or tenure which has been calculated under sub-section (2), except on the ground that an error or omission has been made in calculating the same.

Term of, and Collector's power to reduce, valuation.

"37I. The provisions of section 36 with regard to the terms of a valuation, and of section 37, with regard to the power of the Collector to reduce a valuation, shall apply to a valuation made under this Chapter."

Amendment of section 46 (2).

8. In sub-section (2) of section 46 of the Bengal Cess Act, 1880, for the words from "and the Board of Revenue may" to the end of the sub-section, the following shall be substituted, namely :— Ben. Act IX of 1880.

"and the Collector, if he becomes aware that any separate account opened under sub-section (1) does not represent existing facts, may, after service of a notice on the recorded proprietor or manager, and after hearing any objection which may be preferred, close the account."

New section 72A.

9. After section 72 of the said Act the following shall be inserted, namely :—

Penalty for omitting to make a return.

"72A. (1) Any owner, chief agent, manager or occupier who, without sufficient cause being shown to the satisfaction of the Collector, refuses or omits to lodge the required return in the office of the Collector within two months from the date of the service upon him of a notice under section 72, or within any extended time which may have been allowed by the Collector for lodging such return, shall be liable to a fine which may extend to fifty rupees for every day after expiration of such time or extended time until such return is furnished, or until the annual [Cf. Ben. Act IX of 1880, s. 18.]

(Clauses 10—13.)

net profits of the property in respect of which the notice has been served shall have been otherwise ascertained and determined by the Collector as hereinafter provided.

(*2*) The amount of such fine accruing due from time to time may be levied by the Collector as provided in section 98 or section 99, and the fact of an appeal against such fine being pending shall not avail to prevent the levy of any such fine pending the disposal of the appeal, unless the Commissioner otherwise directs.

(*3*) Whenever the amount levied in respect of any such fine exceeds five hundred rupees, the Collector shall report the case specially to the Commissioner; and no further levy for such default shall be made otherwise than by authority of the Commissioner."

New section 91A.

10. After section 91 of the said Act the following shall be inserted, namely:—

"91A. The Collector may, with the sanction of the Commissioner, pay to any person appointed by him to collect the road-cess and public works cess such percentage of the total amount collected by such person as to him may seem fit."

Payment of commission to tahsildars.

Partial repeal of section 94.

11. In section 94 of the said Act, the words from "And, if the person so prosecuted" to the end of the section, are hereby repealed.

Amendment of section 102.

12. In section 102 of the said Act, after the words and figures "section 78 and" the words, figures and letter "subject to anything contained in Chapter IIA" shall be inserted.

Amendment of sections 112 and 113.

13. In sections 112 and 113 of the said Act, for the words "Lieutenant-Governor," the word "Commissioner" shall be substituted.

STATEMENT OF OBJECTS AND REASONS.

THE main object of the present Bill is to provide, by an amendment of the Cess Act, 1880, a means of carrying out re-valuation for cess purposes simultaneously with settlement work. The rents recorded by the Settlement Officer in the case of lands for which cash rents are payable, and the information which he has the fullest opportunity of gathering on the spot in respect of the rents of other lands, will form a very safe basis for the preparation of a valuation-roll showing the annual value on which the amount of cess payable is to be computed. It is hoped that by such combination of work, the cost of re-valuation, which has to be borne by the District Board, will be reduced by more than one-half. A contribution by the Board, covering a period of six months, at the rate of six rupees for each square mile re-valued would, it is estimated, enable the Settlement Officer so to enlarge his staff as to make the preparation of a valuation-roll in no way detrimental to the settlement work. The valuation of a district of 3,000 square miles for a period of six months would thus cost Rs. 18,000, which compares very favourably with, for instance, the recent re-valuation of Muzaffarpur (3,035 square miles), which cost Rs. 47,832.

2. In order to bring about the above-mentioned change, it is proposed to insert a new Chapter IIA in the Act by clause 7 of the Bill, and to make consequential amendments in sections 4, 12, 14 and 102 of the Act by clauses 2(*2*), 3, 4 and 12, respectively, of the Bill.

Other amendments proposed by the Bill are as follow:—

3. *Clause 2 (1) and (2).*—In the original Cess Act (the District Road-cess Act, 1871—Bengal Act X of 1871) the words "revenue or" had no place in the definition of "annual value of land," and it is understood that they were introduced with the sole object of covering the case of raiyats in Government estates, whose rent is, in technical language, Government revenue. It was not foreseen that, as a consequence of the addition of these words, a proprietor who cultivates the whole of his revenue-paying estate himself might be able to escape paying the amount of cess which would be payable in respect of the estate were it let out to raiyats; and the amendments now proposed are designed to prevent such a construction of the Act.

4. *Clause 5.*—Although under sections 12 and 15 of the Act it is the Lieutenant-Governor who has the power to order the valuation or re-valuation of a district or part of a district, or, in lieu, the re-valuation of particular estates or tenures only in such area, the decision practically rests with the Board of Revenue. The administration of the Cess Department vests in the Board, and its recommendations in the above-mentioned respect are invariably accepted. It is desirable to fix the responsibility where it really lies, and the proposed amendments have been inserted with this object.

5. *Clauses 6 and 11.*—There is no provision in the Act enabling the Collector to reject or revise incorrect cess returns filed by proprietors of estates under Part II, except under section 22 after a conviction obtained under section 94 of the Act. Even when recent settlement figures are available as a basis of valuation, the Collector cannot utilise such information until he has obtained a conviction after prosecution. The number of incorrect returns filed in every re-valuation proceeding is very large; and, apart from the delay caused by protracted inquiries into cases of fraud and the difficulties in the way of obtaining a conviction in the Criminal Court in such cases, there are many obvious objections to a wholesale institution of prosecutions. The opportunity of the present amendment of the Act has therefore been taken to endeavour to remove this defect; and, by the substitution of new sections 22 and 23 in clause 6, and the repeal of the last sentence of section 94 by clause 11 of the Bill, it is intended to provide a practical means for dealing with incorrect returns under Part II. The new sections will allow the Collector, in cases where settlement has already been completed, to make a free use of settlement records by comparing them with returns.

6. *Clause 8.*—Under section 74A of the Land Registration Act, 1876 (Ben. Act VII of 1876), the Collector has power to close a separate account opened under section 10 or 11 of the Bengal Land-revenue Sales Act, 1859 (XI of 1859), or under section 70 or 72 of the Land Registration Act, 1876, otherwise than upon an application. Section 46 (*2*) of the Cess Act, 1880 (Ben. Act IX of 1880), gives the Board power to order the closing of such account. Under the rules of the Board the Collector has now to obtain the approval of the Commissioner and sanction of the Board for the closing of an account. The amendment to be made by clause 8 of the Bill is intended to bring the law under the Cess Act into line with that under the Land Registration Act.

7. *Clause 9.*—In Chapter V of the Act there is no provision, corresponding to section 18, for imposing a penalty on owners, agents and managers of mines, quarries, railways, tramways and other immovable properties, when they refuse or omit to lodge the return required under section 72. It seems expedient to take the present opportunity for making these persons liable to penalties, as are holders of estates and tenures. It is therefore proposed to insert a new section 72A by clause 9.

8. *Clause 10.*—Under the present Act no authority is given for the payment to tahsildars of commission on the amount collected by them. It is proposed, by the new section 91A to be inserted by clause 10 of the Bill, to allow such payment by the Collector, provided that the Commissioner's sanction has been obtained and that the budget grant is not exceeded.

9. *Clause 13.*—Although, under sections 112 and 113, it is the Lieutenant-Governor who has the power to appoint and accept the resignation of members of a District Road Committee, it is virtually the Commissioner who makes the appointment, for his recommendations are invariably accepted. It is desirable to fix the responsibility where it really lies, and to give the Commissioner the power to appoint and accept the resignation of members.

THE CALCUTTA PORT (AMENDMENT) BILL, 1909.

A

BILL

further to amend the Calcutta Port Act, 1890.

Ben. Act III of 1890.

WHEREAS it is expedient further to amend the Calcutta Port Act, 1890; It is hereby enacted as follows:—

Short title.

1. This Act may be called the Calcutta Port (Amendment) Act, 1909.

Amendment of section 30 of Ben. Act III of 1890.

2. In the proviso to section 30 of the Calcutta Port Act, 1890, after the figures "31" the words, letter and brackets "[except clause (*g*) thereof]," shall be inserted.

[*Cf.* Bom. Act VI of 1879, s. 21, as amended by Bom. Act I of 1899, s. 6.]

Amendment of section 31.

3. (*1*) After clause (*f*) of section 31 of the said Act the following shall be inserted, namely:—

"and

(*g*) for determining the conditions under which pensions, gratuities or compassionate allowances may be paid to any of such officers or servants injured, or to surviving relatives of any such officers or servants killed, in the execution of their duty, whether the injury or death occurred before or after the commencement of the Calcutta Port (Amendment) Act, 1909."

[*Cf.* Bom. Act VI of 1879, s. 22 (7) (inserted by Bom. Act I of 1899, s. 7).]

(*2*) For sub-section (*2*) of the said section 31 the following shall be substituted, namely:—

"(*2*) In the event of any question arising as to the right of any officer or servant, or any surviving relative of any officer or servant, to any pension, gratuity or compassionate allowance referred to in clause (*e*) or clause (*g*), or as to the amount thereof, such question shall be determined by the Local Government."

Local Government to determine right to pension, &c.

(*3*) In sub-section (*3*) of the said section 31, before the word "shall" the words and letter "or clause (*g*)" shall be inserted.

Amendment of section 33.

4 In section 33 of the said Act, after the word "allowance" the following shall be inserted, namely:—

"or of granting a pension, gratuity or compassionate allowance to any officer or servant injured, or to surviving relatives of any officer or servant killed, in the execution of his duty."

Amendment of section 34.

5. In sub-section (*1*) of section 34 of the said Act, after the word "rupees" the following shall be inserted, namely:—

"or to any surviving relative of any officer referred to in this section."

STATEMENT OF OBJECTS AND REASONS.

THE object of this Bill is to enable the Commissioners of the Port of Calcutta to pay pensions, gratuities or compassionate allowances to any of their officers or servants who may be injured, or to surviving relatives of any of their officers or servants who may be killed, in the execution of their duty. This object is secured by clause 3(*1*) of the Bill, which introduces into the Calcutta Port Act, 1890, a clause inserted in the Bombay Port Trust Act, 1879, by Bombay Act I of 1899, and which will empower the Commissioners to make rules authorising the grant of pensions, gratuities or compassionate allowances in the circumstances mentioned. It is proposed to give the clause retrospective effect, in order to enable the Commissioners to make grants in certain cases where accidents have already occurred.

The other provisions of the Bill are explained in the subjoined notes.

NOTES ON CLAUSES.

1. *Clause 2.*—The effect of this clause is to extend the proposed legislation to artisans, porters and labourers, and *sirdars* of porters and labourers, who are not entitled to retiring pensions.

2. *Clause 3(2).*—Sub-section (*2*) of section 31 of the Calcutta Port Act, 1890, leaves to the determination of the Local Government any question arising as to the right to, or the amount of, a retiring pension, gratuity or allowance. Clause 3(*2*) of the Bill re-enacts that sub-section with alterations extending its range to the new class of pensions, gratuities and allowances which it is proposed to make payable in cases of injury or death.

3. *Clause 3(3).*—Sub-section (*3*) of section 31 of the Act requires the sanction of the Governor General in Council to rules as to retiring pensions, gratuities or allowances. Clause 3(*3*) of the Bill amends that sub-section so as to require the same sanction to the rules to be made under the Bill as to the new class of pensions, gratuities and allowances.

4. *Clause 4* places with the Commissioners in meeting, subject to the other provisions of the Act, the power of granting the new class of pensions, gratuities or allowances.

5. *Clause 5.*—Section 34 of the Act requires the sanction of the Local Government to retiring pensions, gratuities or allowances granted to officers of the higher classes. The section, as it stands, will extend to the grant of pensions, gratuities or allowances of the new class to these officers; and clause 5 of the Bill amends it so as to extend its range to the grant of such pensions, gratuities or allowances to surviving relatives of such officers.

CALCUTTA.

The 21st December, 1909.

A

BILL

declare the meaning of certain words in clause (b) of section 66 of the Bengal Municipal Act, 1884.

Ben. Act III of 1884.

WHEREAS certain officers were directed by the Lieutenant-Governor of Bengal, by orders issued under clause (*b*) of section 66 of the Bengal Municipal Act, 1884, to exercise and perform the powers and duties of the Commissioners of certain Municipalities who had been superseded by orders issued under section 65 of that Act;

And whereas the said officers, in exercise of the power conferred by section 9 of the said Act on Commissioners at a meeting, recommended alterations in the numbers of the Commissioners of the said Municipalities;

And whereas the Lieutenant-Governor of Bengal thereupon, by notifications issued under sections 9 and 9A of the said Act, altered the numbers of the Commissioners of the said Municipalities, with effect from the expiration of the period for which the former Commissioners were superseded;

And whereas doubts have been raised as to whether clause (*b*) of the said section 66 confers upon the persons appointed thereunder any of the powers of the Commissioners which are expressed by the said Act to be exercisable only at a meeting of the Commissioners;

And whereas it is expedient to remove such doubts, by declaring that the said clause (*b*) refers to powers exercisable at a meeting of the Commissioners;

And whereas it is also expedient to give retrospective effect to such declaration, in order to validate all action taken by bodies of Municipal Commissioners constituted in pursuance of orders issued under the said section 9 on the recommendation of the officers aforesaid;

And whereas, in the case of one of the Municipalities hereinbefore referred to, namely, the Santipur Municipality, the number of the Commissioners was altered by a Notification, No. 1726, dated the 2nd September, 1904, issued under section 9 of the said Act, instead of by notifications issued under both section 9 and section 9A;

And whereas it is expedient to validate the said notification;

It is hereby enacted as follows:—

Short title.

1. This Act may be called the Bengal Municipal (Amendment and Validation) Act, 1909.

Meaning of clause (b) of section 66 of Bengal Act III of 1884.

2. The expression "all the powers and duties of the Commissioners" in clause (*b*) of section 66 of the Bengal Municipal Act, 1884, shall include, and shall be deemed always to have included, powers and duties which may be exercised and performed at a meeting of the Commissioners, as well as powers and duties which may be exercised and performed otherwise than at such a meeting.

Validation of notification altering the number of the Commissioners of the Santipur Municipality.

3. The Notification No. 1726, dated the 2nd September, 1904, which was framed under section 9 of the said Act and published at page 202 of Part IB of the Calcutta Gazette of the 7th day of September, 1904, shall be deemed to be as valid as if it had been rightly framed and followed in due course by a notification framed under section 9A of that Act; and the number of the Commissioners of the Santipur Municipality, in the district of Nadia, shall accordingly be deemed to have been lawfully fixed at nine, with effect from the 2nd day of September, 1904, and shall remain at nine unless and until the number be altered hereafter by notifications published under sections 9 and 9A of the said Act.

STATEMENT OF OBJECTS AND REASONS.

THE objects of this Bill are—

(1) to remove doubts as to whether an officer who is appointed to exercise the powers and duties of Municipal Commissioners who have been superseded by an order of the Government can exercise powers which, under the Bengal Municipal Act, 1884 (Bengal Act III of 1884), are exercisable only at a meeting of the Commissioners, and

(2) to validate a notification by which the number of the Commissioners of the Santipur Municipality was reduced from 25 to 9.

2. The Commissioners of the Santipur Municipality were superseded for a period of one year by an order issued by the Lieutenant-Governor under section 65 of the Bengal Municipal Act, 1884, and published at page 198 of Part IB of the Calcutta Gazette of the 2nd September, 1903. By the same order the Sub-divisional Officer of Ranaghat was directed, in pursuance of clause (b) of section 66 of the Act, to exercise and perform all the powers and duties of the Commissioners during the period of suspension. During that period he, in exercise of the power conferred on the Commissioners at a meeting by clause (e) of section 9 of the Act, recommended that the number of the Commissioners of the Municipality should, on the expiration of the period, be reduced from twenty-five to nine; and that reduction was accordingly made by notification (No. 1726, dated the 2nd September, 1904) issued by the Lieutenant-Governor under section 9. In a recent suit (Bipin Behari Sen *v.* The Chairman of the Santipur Municipality—13 C.W.N., cxxxii) by a person whose property had been distrained for recovery of rates imposed by the newly-constituted body of Municipal Commissioners, the High Court held, on appeal, that clause (b) of section 66 confers upon officers appointed thereunder only those powers of the Commissioners which are not required by the Act to be exercised at a meeting, and does not confer upon him the powers which are expressed to be exercisable only at a meeting of the Commissioners, and that, consequently, the newly-constituted body of Commissioners for the Santipur Municipality was not properly constituted, and accordingly had no power to impose the rates in question. This decision was reversed in second appeal on the 6th August, 1909, but that was done on a mere point of procedure, the Appellate Court not entering into the merits of the case.

3. The Commissioners of the Nadia Municipality were also superseded in January, 1904, and the number of the Commissioners of the Municipality was reduced on the recommendation of the Deputy Magistrate of Nadia, who had been appointed under section 66 (b) to discharge their functions during the period of supersession. A similar difficulty might also be raised in this case.

4. When a body of Municipal Commissioners is superseded, it is desirable that the officer appointed to take their place during the period of supersession should have authority to exercise all the powers, and be required to perform all the duties, of the Commissioners, for there might be a deadlock if he were restrained from discharging some of their functions. It is accordingly proposed, by clause 2 of the Bill, to declare that clause (b) of section 66 shall be read so as to cover all the functions of Commissioners who have been superseded, whether exercisable at a meeting or not. The effect of the clause will be to restore, in this respect, the law which was laid down in the concluding paragraph of section 318 of the Bengal Municipal Consolidation Act, 1876 (Bengal Act V of 1876), the terms of which appear to have been changed inadvertently when drafting section 66 (b) of Bengal Act III of 1884.

5. Clause 2 of the Bill has been drawn with retrospective effect, with the object of preventing questions being raised as to the validity of any of the various proceedings which have been taken by, or on the recommendation of, the newly-constituted bodies of Municipal Commissioners for Santipur or Nadia.

6. The notification of the 2nd September, 1904, which reduced the number of the Commissioners of the Santipur Municipality from 25 to 9, was issued under section 9 of the Bengal Municipal Act, 1884, but was wrongly framed. Two notifications ought to have been issued, viz., one under section 9, to declare the intention of the Lieutenant-Governor to reduce the number of the Commissioners, and one under section 9A (after considering objections) to give effect to that intention. In order to prevent questions being raised as to the validity of proceedings of the Commissioners of this Municipality from the 2nd September, 1904, onwards, it is proposed by clause 3 of the Bill to declare the notification of that date to be valid, unless and until any further change in the number of the Commissioners be directed by future notifications.

FIRST FORECAST OF THE SPRING OILSEED CROPS OF BENGAL, 1909-10.

THE following is published for general information.

F. W. DUKE,
Chief Secy. to the Govt. of Bengal.

The 3rd January 1910.

DEPARTMENT OF AGRICULTURE, BENGAL.

FIRST FORECAST OF THE SPRING OILSEED CROPS OF BENGAL, 1909-10.

(On an average of the five years ending 1907-08, the area under linseed and rape and mustard in the territory to which this forecast relates has represented some 22·7 and 13·0 per cent. respectively, of the total area under these crops in British India.)

Explanatory.—Of the three forecasts issued of the spring oilseed crops, the first forecast deals with estimates of the areas sown with all kinds of oilseeds excepting *sesamum*, for which four separate forecasts are issued.

Area sown.—Oilseeds are grown chiefly in Bihar and in the Presidency and Chota Nagpur Divisions. The total area sown this year (*til* excepted) is estimated to be 1,857,500 acres against 1,557,900 acres last year. The normal area is reported to be 2,170,300 acres, but this figure probably requires revision. The increase over last year's area is due to good weather during the sowing season.

Character of the season and general condition of the crops.—The rainfall was general all over the Province in September, though defective in many districts. In the early part of October there was good rainfall in the Bhagalpur Division and light rain in the rest of the province and there was sufficient moisture in the soil at the time of sowing. The season being more favourable, larger areas were sown. The rain which fell early in this month has benefitted the crops and their condition is reported to be generally good.

W. R. GOURLAY,

Offg. Director of Agriculture, Bengal.

FIRST FORECAST OF THE WHEAT CROP OF BENGAL, 1909-10.

THE following is published for general information.

F. W. DUKE,
Chief Secy. to the Govt. of Bengal.

The 3rd January 1910.

DEPARTMENT OF AGRICULTURE, BENGAL.

FIRST FORECAST OF THE WHEAT CROP OF BENGAL, 1909-10.

(On an average of five years ending 1907-08, the area under wheat in the territory to which this forecast relates has represented some 4·4 per cent. of the total area under wheat in India.

The ratio of the irrigated wheat acreage to total wheat acreage, (*a*) in British India and (*b*) in the territory now reported on has, in the five years ending 1907-08, averaged (*a*) 38·7 per cent. and (*b*) 2·2 per cent., respectively.)

Explanatory.—Three forecasts of the wheat crop are issued. The first deals only with the estimates of the areas sown and the general condition of the crop.

Area sown.—The area sown this year is reported to be 1,459,600 acres against 1,255,200 acres last year. The increase is due to favourable weather at the time of sowing.

Character of the season and condition of the crop.—In September, rain was general though defective in most districts. In the beginning of October, good rain fell in the Bhagalpur Division; in the other districts of Bihar, the fall was light. There was sufficient moisture in the soil and the time of sowing was normal. The season being favourable the area under the crop this year is much greater. The rain received in the early part of December has benefitted the standing crops which are in good condition.

W. R. GOURLAY,
Offg. Director of Agriculture, Bengal.

CALCUTTA,
The 18th December 1909.

First Forecast of the Wheat Crop of 1909-10.

DISTRICT.	Approximate area under wheat last year (1908-09), in acres.	Estimated area under wheat this year (1909-10), in acres.	Date at which the sowing of the crop was begun this year.	A brief statement regarding the weather and general condition of the crop and whether the date of sowing was this year early, normal or late.	Remarks by the Department of Agriculture, Bengal.
1	2	3	4	5	6
Burdwan	1,500	1,800	Middle of October to November.	Sowings were normal all over the district except at Asansol, where it is reported they were early. Weather and rainfall conditions were favourable everywhere except in the Sadar subdivision, where it has been reported to be unfavourable for want of moisture. The condition of the crop is good in the Kalna and Katwa subdivisions and fair in the Sadar and Asansol subdivisions.	
Birbhum	1,100	2,700	Beginning November 1909 ...	Sowings were normal. They have not yet been completed. The rainfall conditions were not favourable, as there was no rain before sowing. No correct estimate of the condition of the crop can be made now, as the sowing has not yet been finished.	
Bankura	3,000	3,000	First November ...	Sowings were normal. The weather and rainfall conditions have not been favourable for the growth of the crop for want of rain. The condition of the crop is fair.	
Midnapore	1,000	1,100	End of October and from the 1st week of November.	Sowings were normal. The weather and rainfall conditions were favourable. The condition of the crop is fair.	
Hooghly	1,700	1,800	Second week of November ...	The date of sowing was late. There was no rain in the sowing season. The crops are being sown at present and seedlings have come up in many fields. The condition of the crop is fair.	

District.	Approximate area under wheat last year (1908-09) in acres.	Estimated area under wheat this year (1909-10), in acres.	Date at which the sowing of the crop was begun this year.	A brief statement regarding the weather and general condition of the crop and whether the date of sowing was this year early, normal or late.	Remarks by the Department of Agriculture, Bengal.
1	2	3	4	5	6
Nadia	13,900	15,400	October	Sowings were normal and are still going on in the Kushtia subdivision. The weather and rainfall conditions were favourable for the growth of the crop. The condition of the crop is fair.	
Murshidabad	31,900	32,300	October and November 1909...	Sowings were normal. The weather and rainfall conditions were favourable. The condition of the crop is fair.	
Jessore	900	700	October	Sowings, which commenced late, are still going on.	
Patna	104,300	118,300	From middle of October ..	Sowings were normal. The weather and rainfall conditions are favourable. The condition of the crop is good.	
Gaya	85,500	167,000	End of October ...	Sowings were normal. The weather was favourable, but absence of rain at the time of sowing and germination affected the crop on unirrigated areas, and in several parts of the district, the crops withered. They also suffered from the ravages of insect pests. The condition of the standing crop is however good so far.	

Shahabad	174,200	186,400	October	Sowings were early. The weather and general conditions were favourable. The condition of the crop is fair at present.
Saran	73,900	79,000	1st October	Sowings were normal. The weather and general conditions were favourable, but rain is wanted. The condition of the crop is fair.
Champaran	80,000	84,800	1st week of October	Sowings were normal. Owing to seasonable rainfall and sufficient moisture, a larger area has been cultivated this year than in the last year. The condition of the crop is good so far.
Muzaffarpur	75,000	80,000	October	Sowings were normal. The weather and general conditions have been favourable. The present prospects of the crop are very good.
Darbhanga	111,900	121,700	October	Sowings were normal. The weather and rainfall conditions were good. The condition of the crop is good.
Monghyr	232,900	314,400	October	Sowings were normal. The weather and general conditions were favourable. The condition of the crop is good.
Bhagalpur...	200,000	165,100	1st November	Sowings were normal. The weather and rainfall conditions were favourable. The condition of the crop is good.

The mean pressure, temperature, etc., are deduced from the traces of the Barograph and Thermograph and from eye observations.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected to those of the standard, Newman's No. 86; formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV and V of the official tables computed in the Meteorological Office and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken respectively from the Dine's pressure tube anemometer and the standard dial anemometer.

The mouth of the rain-gauge is one foot above the ground. The rainfall and wind velocity reported on any day are for 24 hours preceding 8 A.M. of that day.

Extract (paragraphs 1 and 2) from the Proceedings of the Government of India in the Home Department (Public), under date Calcutta, the 8th December 1899.

RESOLUTION.

THE Secretary of State for India has brought to the notice of the Government of India that it not infrequently happens that natives of India, students or others, who have proceeded to England, desire to obtain passports to enable them to travel to foreign countries in which the possession of a passport is necessary or desirable, and that difficulty often arises from want of evidence to show that the applicant is a British subject, and therefore entitled to a passport. Appeals for assistance are also frequently addressed to His Lordship by destitute Indians who desire to return to their country and by students who, owing to embarrassed circumstances, are unable to complete their course of education.

2. In order to enable the Secretary of State to deal with such cases satisfactorily, the Governor-General in Council has decided that it is necessary to press upon Indian students and others visiting England the desirability of providing themselves, before their departure from India, with an authoritative certificate of identity, in the form appended to this Resolution, signed by the head of the district (in a Presidency town, the Commissioner of Police) in the case of residents of British India and by the Political Officer in that of residents of Native States. For a student the certificate should be signed by the head of his last school or college and countersigned by the District Officer (in a Presidency Town, the Commissioner of Police) or Political Officer, as the case may be.

FORM OF CERTIFICATE OF IDENTITY.

1. Name of applicant—
2. Father's name and caste—
3. Residence—
4. Age of applicant—
5. Nationality* of applicant —
6. Social and pecuniary status of father (or guardian)—
7. Date of probable departure of applicant from India —
8. Object of applicant's visit to England (Europe)—

Signature of District Officer (in a Presidency Town, the Commissioner of Police), or Political Officer, or Head of School or College.†

Dated—

* *i.e.*, whether a British subject by birth or by naturalisation (or a subject of a Native State).
† Countersignature of the District or Political Officer should be obtained on certificates signed by Heads of Schools or Colleges.

The 11th January 1910.

No. 3 Marine.—The following Order of His Majesty in Council of the 22nd November 1909, directing that French ships which have complied with French regulations relating to assignment of load-lines, are not liable to detention, while within any port in the United Kingdom, for non-compliance with the provisions of the English Merchant Shipping Acts relating to overloading, are published for general information.

T. BUTLER,

Secy. to the Govt. of Bengal.

AT THE COURT AT BUCKINGHAM PALACE.

The 22nd day of November 1909.

PRESENT:

THE KING'S MOST EXCELLENT MAJESTY IN COUNCIL.

WHEREAS by section 445 of the Merchant Shipping Act, 1894, it is enacted that where the Board of Trade certify that the laws and regulations for the time being in force in anh foreign country and relating to overloading and improper loading are equally effective wity the provisions of that Act relating thereto, His Majesty in Council may direct that on proof of a ship of that country having complied with those laws and regulations, she shall not, when in a port of the United Kingdom, be liable to detention for non-compliance with the said provisions of that Act, nor shall there arise any liability to any fine or penalty which would otherwise arise for non-compliance with those provisions:

And whereas by section 1 of the Merchant Shipping Act, 1906, provision, as is more particularly therein mentioned, is made for applying to foreign ships when in ports in the United Kingdom certain sections of the Merchant Shipping Act, 1894, which relate to load-line, without prejudice to any direction of His Majesty in Council given under the said section 445 of the last mentioned Act.

And whereas the Board of Trade have certified that certain statutory regulations which have been approved by the French Government relating to overloading so far as regards the assignment of load-lines to French ships on and after the 21st September 1908, are equally effective with the corresponding regulations in force in this country respecting the assignment of load-lines to British merchant ships.

Now THEREFORE, His Majesty in Council doth direct that on proof that French ships have complied with the aforesaid French regulations, such ships shall not, when in ports of the United Kingdom, be liable to detention for non-compliance with the provisions of the Merchant Shipping Acts relating to overloading, nor shall there arise any liability to any fine or penalty which would otherwise arise for non-compliance with those provisions.

No. 6 Marine—The following orders of His Majesty in Council of the 22nd November 1909, directing that the provisions of sections 427 to 431 of the English Merchant Shipping Act, 1894, shall not apply to any Swedish and French ships while within any port in the United Kingdom, if it is proved that the provisions in force in those countries relating to life-saving appliances are complied with, are published for general information.

T. BUTLER,
Secy. to the Govt. of Bengal.

AT THE COURT AT BUCKINGHAM PALACE.

The 22nd day of November 1909.

PRESENT:

THE KING'S MOST EXCELLENT MAJESTY IN COUNCIL.

WHEREAS by section 4 of the Merchant Shipping Act, 1906, it is provided that sections four hundred and twenty-seven to four hundred and thirty-one of the Merchant Shipping Act, 1894 (hereinafter called the Principal Act), relating to life-saving appliances shall, after the appointed day, apply to all foreign ships while they are within any port of the United Kingdom as they apply to British ships:

Provided that His Majesty may, by Order in Council, direct that those provisions shall not apply to any ship of a foreign country in which the provisions in force relating to life-saving appliances appear to His Majesty to be as effective as the provisions of Part V of the Principal Act, on proof that those provisions are complied with in the case of that ship:

And whereas by section 5 of the said Act it is provided that the said appointed day shall be the First day of January, Nineteen hundred and nine, or such other day, not being more than twelve months later, as the Board of Trade may appoint:

And whereas the Board of Trade have appointed the First day of October 1909, to be the day after which the provisions of the Principal Act relating to life-saving appliances shall apply to all foreign ships while they are within any port of the United Kingdom as they apply to British ships:

And whereas it appears to His Majesty that the provisions in force in Sweden relating to life-saving appliances are as effective as the provisions of Part V of the Principal Act:

NOW THEREFORE His Majesty, by and with the advice of His Privy Council, is pleased to direct that the provisions of sections 427 to 431 of the Principal Act shall not apply to any Swedish ship while within any port of the United Kingdom, if it is proved that the aforesaid Swedish provisions relating to life-saving appliances are complied with in the case of that ship.

MEDICAL DEPARTMENT.

No. 25.—In supersession of the rules contained in the late Department of Military Supply Notification No. 16, dated the 13th March 1907, the following regulations for the grant of Study Leave to officers of the Indian Medical Service are published for information :—

Regulations regarding the Grant of Study Leave to Officers of the Indian Medical Service.

1. Extra furlough for the purpose of study may be granted to officers of the Indian Medical Service on the recommendation of the Director-General, Indian Medical Service.

2. The period of such Study Leave will be calculated in the case of an officer under Military Leave Rules at the rate of one month for each year of pension service, and in the case of an officer under Civil Leave Rules at the rate of one month for each year of active service, as defined in the Civil Service Regulations, up to a total in either case of 12 months in all during an officer's service.

3. Study Leave may be taken at any time, but will not be granted more than twice in the course of an officer's service. This restriction does not apply to an officer who has part of his furlough converted into Study Leave under rule 8.

4. The minimum period of study which will render an officer eligible for Study Leave shall be two months.

5. The minimum period of leave granted solely as Study Leave shall be six months time spent on the journey to and from India by an officer whose Study Leave is not combined with any other kind on leave, will reckon as Study Leave, but the allowance specified in rule 10 will be granted during the period of study only. An officer whose Study Leave is combined with any other kind of leave will, however, be required to take his period of Study Leave at such a time as to retain, at its conclusion, a balance of other previously sanctioned leave sufficient to cover his return journey to India.

6. Study Leave can be combined with any other kind of leave, provided the period occupied in study is not less than two months and, in the case of leave on medical certificate, provided that the Medical Board at the India Office certifies that the officer is fit for study. In the case, however, of officers in military employment, Study Leave cannot be taken in continuation of the combined privilege leave and furlough admissible under the terms of India Army Order No. 64 of 1904, if the total period would thereby exceed eight months; but Study Leave may be so taken provided such leave is for not less than two months and the total period of combined privilege leave, furlough and Study Leave does not exceed eight months; this limitation to eight months does not, however, apply in the case of Study Leave combined with privilege leave alone. The total period of absence from duty in India, in the case of officers under the Leave Rules of 1886 for the Indian Army, will be strictly limited to two years.

7. Except as provided in rule 8, all applications for Study Leave shall be submitted, with the audit officer's certificate, to the Director-General, Indian Medical Service, through the prescribed channel, and the course or courses of study contemplated and any examination the candidate proposes to undergo shall be clearly specified therein.

8. Officers on furlough who wish to have part of their furlough converted into Study Leave should address the Under-Secretary of State, India Office, and should furnish a statement showing how it is proposed to spend the Study Leave. Similarly officers on furlough or other leave who desire to have it extended for purposes of study should address the Under-Secretary of State, but in addition to the statement of the proposed study they must support their applications with documentary evidence of their having obtained the approval of the authorities concerned in India to their applying for an extension of leave.

9. An officer who is at home on combined leave may be permitted to commence a course of study before the end of his privilege leave, and to count the period so spent as part of his Study Leave, without forfeiting his privilege leave allowances during such period.

10. For the course of study, lodging allowance at the rate of 8s. a day for a field officer, 6s. for a Captain and 4s. for a Lieutenant will be granted. It is to be understood that in order to qualify for the grant of Study Leave or for the receipt of lodging allowance, a definite course of study at a recognized institution which will occupy the time of the officer for five or six days a week, must be pursued. This allowance will not be admissible to an officer who retires from the service without returning to duty in India after a period of Study Leave.

11. The rate of pay admissible during Study Leave to an officer under Civil Rules is determined as follows:—

A.—If the rate of pay admissible during furlough earned by service under Civil Rules is higher in his case than that admissible during furlough earned by service under Military Rules, then—

(1) He draws pay at the former rate for such period of his study leave as has been earned by his service under Civil Rules, and

(2) for the remainder, if any, he can elect either—

(a) to draw pay at the rate admissible during furlough earned by service under Military Rules, or

(b) to draw it at the rate admissible during furlough earned by service under Civil Rules for a period not exceeding the amount of such furlough at his credit. In this case an equal period of the furlough at his credit earned by service under Civil Rules will be treated as if it had been earned by service under Military Rules.

B.—If the rate of pay admissible during furlough earned by service under Military Rules is higher in his case than that admissible in respect of service under Civil Rules, then—

(1) He draws pay at the former rate for such portion of his Study Leave as has been earned by his service under Military Rules, and

(2) for the remainder, if any, he can elect either—

(*a*) to draw pay at the rate admissible during furlough earned by service under Civil Rules, or

(*b*) to draw it at the rate admissible during furlough earned by service under Military Rules for a period not exceeding the amount of such furlough at his credit. In this case an equivalent period of the furlough at his credit earned by service under Military Rules will be treated as if it had been earned by service under Civil Rules.

12. On completion of study the certificates of examinations passed, or the certificates of special study, which must show the dates of commencement and termination of the course, with any remarks by the instructor, shall be forwarded to the Under-Secretary of State, India Office, who will arrange for the transmission of copies of the documents to the Director-General, Indian Medical Service. Officers may also be called upon to report themselves in person to the President of the Medical Board, India Office, on the conclusion of their course of study.

13. Study Leave will count as service for promotion and pension, but, except so far as it may be taken during privilege leave (*see* Rule 9), it will not count for furlough or any other leave. It will not affect any leave which may already be due to an officer; and will not be taken into account in reckoning the aggregate amount of furlough taken by an officer towards the maximum period of six years admissible under article 299 of the Civil Service Regulations.

Municipal and Local.

NOTIFICATIONS.

24-Parganas.

No. 13M.—The 5th January 1910.—Under the provisions of section 308 of the Bengal Municipal Act, 1884 (Bengal Act III of 1884), the following plan which has been submitted by the Commissioners of the Maniktala Municipality, for lighting a portion of the said Municipality with gas, is published for general information :—

1. The portion of the Municipality which it is proposed to light with gas lies within the following boundaries:—

North.—From the Municipal holding No. 72-12, Canal east road towards east up to the Municipal holding No. 29, Baliaghata main road.

South.—From the Municipal holding No. 1-10, Choulputty road towards east up to the Municipal holding No. 111, Baliaghata main road.

East.—From the Municipal holding No. 29, Baliaghata main road towards south up to the Municipal holding No. 111, Baliaghata main road.

West.—From the Municipal holding No. 72-12, Canal east Road towards south up to the Municipal holding No. 1-10, Choulputty road.

2. Twenty-two gas lamps will be installed within this portion of the Maniktala Municipality, viz., on the Baliaghata main road from its junction with the Choulputty road and Canal east road, up to its junction with Rashmoney Bazar road. It is estimated that the total cost for the installation will be Rs. 1,210, and that the cost of maintenance and lighting will be Rs. 1,320 per annum. The Municipal Commissioners have not entered into an agreement with any Company for the supply of gas.

3. The Municipal Commissioners propose to meet the charge to be incurred on account of lighting the aforesaid area by imposing an annual lighting rate of 3 per cent. on the annual value of holdings within the area to be lighted as defined in paragraph (1) of this Notification. The income to be derived from the lighting-tax of the aforesaid area is estimated to be Rs. 1,117 per annum.

No. 15M.,—The 4th January 1910.—In exercise of the power conferred on the Local Government by clause (3), section 53 of the Calcutta Hackney Carriage Act, 1891 (Ben. Act II of 1891), the Lieutenant-Governor is pleased to confirm the following by-laws, which have been framed by the Commissioners of the Balasore Municipality under clause 1 of the said section.

By-laws made by the Commissioners of the Balasore Municipality under Sub-section (1) of Section 53 of the Calcutta Hackney-carriage Act, 1891 (Ben. Act II of 1891.)

(a) First Class Carriages.

1. First class hackney-carriage licenses shall only be granted for confortable, roomy, clean, easy-running vehicles of a description superior in all respects to second class carriages The carriages may be of any approved pattern, for example broughams, landaus, phætons, office-jauns. Each carriage must be provided with a thoroughly good pair of lamps.

2. No carriage drawn by a pair of horses shall be licensed as first class, unless both animals are fit for their work and are at least 14-2 hands high; and no carriage drawn by a single horse shall be so licensed, unless the animal is fit for its work and is at least 15 hands high.

(b) Second Class Carriages.

3. No carriage shall receive a second class license, unless it be in a thoroughly fit and proper condition.

4. If it be of the kind known as "*palki-gharry*" or "*brownberry*," it must conform with the following dimensions:—

		Inches.
Breadth of carriage inside	Not less than	33
Depth of seat	...	18
Width of well of carriage between cushions ...	Not less than	20
Height inside from cushions to roof	„	38

5. The springs and axles must be of thoroughly strong manufacture, all the iron work must be strongly put together, and the carriage must be provided with a good pair of lamps.

6. No carriage drawn by a pair of horses shall be licensed as second class, unless both animals are fit for their work and are at least 12-2 hands or 50 inches high; and no carriage drawn by a single horse shall be so licensed, unless the animal is fit for its work and is at least 13-2 hands or 54 inches high.

(c) Third Class Carriages.

7. No carriage shall receive a third class license, unless it is in a clean and safe condition, has sufficient room inside to seat four persons, and has stout axles, springs and wheels, and a good pair of lamps.

8. When drawn by a pair of ponies, each pony must be in a fit condition for work and not less than 12 hands or 48 inches high. When drawn by a single pony, the animal must be fit for work and at least 13 hands or 52 inches high.

9. Carriages of the description known as "*tum-tum*" or "dog-cart" shall be registered only in the third class.

(d) General.

10. No animal shall be deemed fit for its work, unless it is fit in respect of height, bone, muscle, and condition, and is equal to the work of drawing the carriage.

11. The harness of every carriage must be of strong leather, which must be in good condition. No chain or rope traces, unless they are covered with leather, and no string fastenings, shall be used.

12. (1) Every second and third class carriage must have the owner's name painted on some conspicuous part of the outside of the carriage, in addition to the plate which, by section 16 of the Calcutta Hackney-carriage Act, 1891, is required to be affixed thereto.

(2) Every first, second and third class carriage must have distinctly marked on its panels the number of the class to which it belongs. The figures of such number must be not less than 6 inches in length, and must resemble the figures used in numbering Railway carriages.

13. It shall be obligatory on the owner of every carriage registered under the Calcuttta Hackney-carriage Act, 1891, to produce his horse or vehicle for the inspection of the Registering Officer or the Chairman of the Municipality within 24 hours after receipt of a notice in writing from the Registering Officer requiring such production, and at such place and at such time as may be specified in such notice.

14. Every person applying for a driver's license must be acquainted with the principal places and streets in Balasore, and must have a thorough knowledge of the rates and fares in the Schedule posted up inside his vehicle.

15. Every first and second class carriage, when plying for hire, must carry a driver and syce, who must each wear a neat dress.

16. Every place where any hackney-carriage or horse is kept shall be open to the inspection of the officers of the Municipality at all reasonable hours.

REMARKS. (Revenue)

(C) Rs. 58 was the sale proceeds of land realised in 1906-07; Rs. 241 received in 1906-07, 1907-08 and 1908-09 as interest on investments; these were extraordinary receipts.

(D) In 1907-08 Rs. 9,000 was received from Government as contribution towards water-supply. This was extraordinary receipt.

(F) The whole of the receipts under this head in 1906-07, 1907-08 and 1908-09 are advances and deposits.

(G) The total ordinary receipts were far below what they ought to have been owing to a running embezzlement by the tax daroga throughout of at least one quarter's demand, which was never detected owing to reasons set forth in my special report as District Magistrate. The small collections did not attract notice owing to incorrect figures being supplied in the annual statements as well as at inspections. Small arrears being shown at the end of each year whereas the actual arrears were heavy. The annual demand on account of tax on persons and holdings and latrine tax alone amounts to about Rs. 15,000 besides other rates. The income of 1908-09 was specially low owing to heavy defalcations.

REMARKS. (Expenditure)

(A) The reduction in the expenditure under this head in 1908-09 is due to the abolition of Audit and banking charges and to the non-payment of the salaries of the officers of the Collection Department for a few months.

(C) Out of the total of the year 1906-07, Rs. 97 was the cost of the special establishment kept for the Drainage scheme. Similarly Rs. 389 in the year 1907-08 and Rs. 615 in the year 1908-09 were the cost of special establishment kept for the Drainage scheme and water-supply. These may be treated as extraordinary charges.

(G) The entire amount shown against this head in all these years were advances and deposits.

No. 50M.—The 7th January 1910.—The following by-laws which have been made by the Commissioners of the Howrah Municipality at a meeting under sections 26 and 35 of the Bengal Tramways Act, 1883 (Ben. Act III of 1883), and which the Lieutenant-Governor proposes to confirm under section 26 of that Act, are hereby published, as required by the proviso to section 28 of that Act, for the information of persons likely to be affected thereby.

Howrah.

The by-laws will be taken into consideration on the 1st day of March 1910, and any objection or suggestion which may be received by the undersigned before that date will be considered.

TRAMWAY BY-LAWS MADE BY THE COMMISSIONERS OF THE HOWRAH MUNICIPALITY UNDER SECTIONS 26 AND 35 OF THE BENGAL TRAMWAYS ACT, 1883 (BEN. ACT III OF 1883).

1. A clear space of at least 50 feet shall be kept between successive cars except at stations or turn-outs.

2. No two cars proceeding in opposite directions shall stop abreast of one another and so block the street. They shall stop so as to have a clear distance along the line of 50 feet between them, and no two cars shall pass each other on a road crossing.

3. At the intersection of narrow streets where there are stopping stations, cars shall be driven dead slow and they shall be brought to a dead stop at the approach side of a crossing so that no portion of the car shall project on the cross roads.

4. For the breach of any of the above by-laws the driver or motorman shall be liable to a fine not exceeding Rs. 10.

5. At curves, turnings and crossings at which it is, in the opinion of the District Magistrate, necessary, the Company shall station signallers. When the line is clear the signallers shall show a white flag by day and a white light at night. When the line is obstructed, they shall show a red flag by day and a red light by night. Every car shall be stopped until the line-clear signal is given. Any infringement of this by-law by any signaller, driver or motorman shall make him liable to a fine not exceeding Rs. 10.

6. The driver shall at all times be responsible for seeing that the line is clear of obstruction; and if there is any risk of collision, or if the line is in any way obstructed, the car shall be stopped till the line is clear of obstruction. The penalty for infringement of this by-law by the driver or motorman shall be a fine not exceeding Rs. 10.

7. If a procession be passing along the street, the driver shall stop the car till the procession has passed. For breach of this by-law the driver shall be liable to a fine not exceeding Rs. 10.

8. The *purdahs* or other side-arrangements on the cars shall be so arranged as not to project beyond the footboard, flap about, or otherwise interfere with the passing traffic.

For breach of this by-law, the Company and the conductor in charge shall each be liable to a fine not exceeding Rs. 20 and Rs 5 respectively.

9. Every car shall stop to enable passengers to ascend or descend when called upon. For breach of this by-law the conductor and the driver shall each be liable to a fine not exceeding Rs. 20.

10. Every car running after sunset shall carry two bright lights—one in front of the car and one at the back. For infringement of this by-law the conductor shall be liable to a fine not exceeding Rs. 5.

No. 60M.—The 10th January 1910.—In exercise of the power conferred by sub-section (2) of section 9A of the Bengal Municipal Act, 1884 (Ben. Act III of 1884), the Lieutenant-Governor is pleased to alter the number of the Commissioners of the Bankura Municipality from twelve to fifteen.

CALCUTTA UNIVERSITY.

NOTICE.

IN exercise of the powers conferred by section 7 (1) of the Indian Universities Act 1904 (VIII of 1904), His Excellency the Chancellor of the Calcutta University is pleased to direct that two Ordinary Fellows shall be elected this year by the Registered Graduates of the Calcutta University from among themselves.

The election will take place at the Senate House, College Square, on Saturday, the 12th March, 1910.

No person other than a Registered Graduate will be qualified to nominate, to vote, or to stand as a candidate for election.

Every candidate for election must be nominated by a Registered Graduate, and no person will be allowed to nominate more than one candidate. The nomination of a candidate shall be made in writing in the following form, which will be signed by the person making the nomination:—

FORM OF NOMINATION.

I, ————————————————————, Registered Graduate No.———, do hereby nominate——————————————————————, Registered Graduate No ——, as a candidate for election as an Ordinary Fellow of the Calcutta University subject to the approval of His Excellency the Chancellor.

The following is a brief statement of the special qualifications of my nominee :—

————————————————————————————————

————————————————————————————————

————————————————————————————————

The *1910.* *Signature*——————

The nomination paper should be, on the face of it, addressed to the Registrar, Calcutta University, and must reach his office on or before the 18th February, 1910, before 5 P.M. A printed list of the nominees (with the name of the first proposer in each case) and statements of their qualifications will be forwarded to the Registered Graduates on the 22nd February, 1910.

On the 24th February, 1910, a voting paper containing the names of the candidates nominated and their first proposers will be forwarded by the Registrar by registered post to each of the Registered Graduates. The voting paper must be filled up and signed in the presence of the Registrar at the Senate House, College Square, on the 12th March 1910, between the hours of 9 A.M. and 12 noon, but graduates who will not be able to appear in person before the Registrar, may fill up and sign their voting papers in the presence of a Magistrate, a Judge, a Subordinate Judge or a Munsif (excluding Village Munsifs). In the absence of a Magisterial or Judicial officer of the rank aforesaid in a Native State, the signature must be acknowledged before the Chief Minister or the Chief Magisterial Officer of the State. Voting papers may also be filled up and signed before the Registrar, any day (other than a Sunday or holiday) between the 25th February and 11th March 1910 between 4 and 5 P.M. The officer before whom such acknowledgment is made or the Registrar, as the case may be, shall countersign the voting paper, as having been signed before him by the person whose signature it bears. A voter exercising the functions of a Magisterial or Judicial officer of the rank aforesaid will not be competent to countersign his own voting paper. All voting papers duly signed and countersigned as aforesaid must reach the Registrar not later than 12 noon on Saturday, the 12th March 1910, after which no voting paper will be accepted. Graduates who are not known to the officer in whose presence they intend to fill up and sign their voting papers must bring with them their Diplomas or other satisfactory proof of identity.

Each voter shall have only one vote for each vacancy which is to be filled up and can give only one vote to any one candidate.

PART II.

Advertisements.

[N.B.—Advertisements, Notices, &c., intended for insertion in this Part of the "Gazette" cannot be received after Noon on Monday.]

LAND SALE NOTICES.

Advertisement of sale.

NOTICE is hereby given that the proprietary right of Government, as specified in the conditions of sale below, to the undermentioned estates situate in the district of Murshidabad will be put up to sale at the Jangipur subdivisional office on Saturday, the 15th January 1910, corresponding with the 2nd Magh 1316B.S.

The purchasers will be subject to the following conditions of sale :—

Conditions of Sale.

1st.—The estate to be sold to the highest bidder above the upset price which will be fixed by the Collector at the time of sale. The purchaser of this estate will be considered as the proprietor of the estate, and the entire proprietary right of Government in such estate will be transferred to him, subject to the revenue fixed in perpetuity.

2nd.—The sale to be subject to existing leases and to the rights conferred by the settlement proceedings, and by the laws in force; and purchasers to be bound to respect the rights of resident cultivators who have signed the schedule of assessment prepared by the Revenue authorities.

3rd.—If the amount of purchase-money do not exceed Rs. 100, whole amount to be paid down at once.

4th.—If the amount of purchase-money exceed Rs. 100, one-fourth of the amount bid to be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale is to be cancelled (the sum deposited being forfeited to Government), and the estate to be again put up to sale at the risk of the defaulting purchaser, after issue of advertisement, as in the case of original sale.

5th.—Land revenue demand of the mahals will be fixed at 75 per cent. of the existing gross rental.

THE INDIAN LAW REPORTS.

Published in FOUR SERIES, viz.

CALCUTTA, MADRAS, BOMBAY AND ALLAHABAD.

THE Indian Law Reports, published under the authority of the Governor General in Council, are printed in monthly Parts, which are issued, as soon as possible after the first of each month, at Calcutta, Madras, Bombay and Allahabad, respectively.

The Reports comprise four Series—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court.

The cases heard by the Privy Council on appeal from each High Court are reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta series.

The Calcutta Series is distributed by the Bengal Secretariat Book Depôt: and the Madras, Bombay and Allahabad Series are distributed direct from Madras, Bombay and Allahabad, respectively.

Persons desiring to subscribe for or purchase the Reports should apply to—

the Officer in charge, Bengal Secretariat Book Depôt, Calcutta, or

the Superintendent, Government Press, Madras, or

the Superintendent, Government Central Press, Bombay, or

the Curator of Government Books, United Provinces of Agra and Oudh, Allahabad.

OATH OR AFFIRMATION OF ALLEGIANCE.

The President said—

"The first step is the swearing in of the Members of the new Council. They will be requested to attend the Secretary's table, in groups of five, in the order in which they are marshalled by the members of my staff."

Each Member then made the prescribed oath or affirmation of allegiance to the Crown.

PRESIDENT'S ADDRESS.

The President addressing the Council, said—

GENTLEMEN OF THE COUNCIL—

"It gives me much pleasure to meet you here to-day, and to join with you in inaugurating the new system of administration which has formed the subject of such anxious consideration for more than three years past.

"During the last month, we have been watching the progress of the elections in Bengal with very keen interest, and it has been a cause of lively satisfaction to me that they have resulted in such marked and unmistakable success. The interest displayed by almost all sections of the public has been very gratifying: contests were keen in nearly every constituency: the utmost activity was shown everywhere by the candidates, in canvassing their supporters; and the proportion of voters who recorded their votes was in most places quite remarkably high. As regards the character of the candidates, it would obviously not be becoming in me to say much; but perhaps I may be permitted to say this much, that whether regard be had to rank and social standing, to practical experience of affairs, or to representative character, this Council may challenge comparison with any of its predecessors in Bengal. It is particularly gratifying to observe that out of 26 elected Members, no less than eight are gentlemen who have already served an apprenticeship in Council in the past. Their experience will, I anticipate, be of much service to us in launching our new ship, and in navigating her on her opening voyage.

"Gentlemen, we are all aware that a good deal of criticism has of late been expended on the Council Regulations—both in the Press and elsewhere. A good many overstatements have been made, and some things have been said which I think their authors, on reflection, will not be likely to recall with satisfaction. I do not propose to weary the Council by discussing any large number of these: but there are two matters on which I desire to say a few words; in one case, because up to a certain point I feel some sympathy with the critics; and, in the other, because I emphatically disagree with them.

"As regards the first of these points, it has been asserted that the Regulations are excessively unfavourable to the educated middle classes—the intellectual backbone of the country, and it is even affirmed that the rules were designed with the express purpose of excluding them.

"It is noticeable that this complaint appears to emanate chiefly from that section of the articulate public whose activities centre in and around Calcutta; and if any similar feeling exists in the mufassal, it has not found general or active expression. This is natural enough; for the *gravamen* of the charge is that the new Regulations have shifted the preponderance of political power from Calcutta to the mufassal, and that no place, or an inadequate one, is provided in the constitution for those whose qualifications do not include Municipal service in the interior.

"Now, to a certain extent, this result was foreseen and intended. Under the old Regulations, any one was eligible for election to the Council by District Boards or mufassal Municipalities who possessed a so-called residential qualification, a qualification which was drawn so widely and interpreted so freely as to be little more than nominal. The result was to enable numbers of gentlemen whose real interests and influence were centred in the capital to qualify for mufassal seats, and they actually secured these in considerable numbers to the exclusion of local candidates. This arrangement possibly did not work quite so badly as might have been expected, but it was an unsatisfactory expedient at best; and in my judgment it was only right and equitable that in framing the new Regulations, steps should be taken to ensure that mufassal seats should be filled by mufassal representatives.

"But, I think it must be acknowledged that we have gone too far. Those of us who had a hand in framing the rules—and I admit my own share of responsibility for the error—did not accurately realize the true effect of the rule which makes actual service on District Boards or Municipalities the sole channel of admission to the general electorate. The result has been to throw out of all, except the special electorates, a number of gentlemen whose weight, influence, intellectual attainments and past political services would have made them an acquisition to any Council in India. This result may even have extended to the mufassal, but its chief force has been felt in the capital, whose legitimate claims and interests have not received adequate recognition. To that extent I acknowledge the force of the criticism that has been expressed, and I regret the untoward result that has ensued. I will merely remind you

that His Excellency the Viceroy has declared that the Regulations must not be regarded as final or incapable of amendment, and I do not doubt that before the next general elections fall due, steps will have been taken to introduce whatever improvements present experience may show to be required.

"I now turn to the second of the two points of criticism which alone it is my intention to refer to. In certain quarters it has been alleged that, while we made a parade of creating a majority of non-officials in the Provincial Councils, yet in practice that majority has been so constituted that some part of its members will be likely to side with Government in controversial matters; and therefore, it is declared, the non-official majority is a sham and a make-believe.

"Gentlemen, if this contention had not been put forward again and again, it would have been unnecessary to treat it seriously. As one Calcutta paper said of it, the argument is only intelligible on the assumption that the author regarded the terms 'non-official' and '*anti*-Government' as synonymous. I consider this a most apposite remark and a most destructive commentary. If any appreciable section of the community really entertained such a view, I should regard it as a matter of very serious concern, for it would indicate that that section of the people of this Province are as yet utterly unfit to take any part in the administration of the country. A moment's consideration would surely have shown that if, on every contested question, the entire non-official majority were to vote solid against the Government, the administration of the country would be rendered impossible. Does any person of ordinary intelligence imagine that any responsible Government ever contemplated such a result or that they would permit it to continue for a day? I can only suppose that this singular hallucination had its origin in the system on which we have now turned our backs, and which encouraged the idea that it was the function of non-officials to oppose, because, inasmuch as they were in a powerless minority, it mattered little whether they opposed or not. I need scarcely remind you, gentlemen, that those days are now past. Henceforward it will be for us, not to override, but to convince. It is a necessary corollary that those who form the majority shall in all cases hold themselves open to conviction. And we expect and believe that in the great majority of cases, honest and independent opinion will incline to the side of Government. It is only in such conditions that the business of administration can be carried on.

"I will not enlarge further on this subject. We are about to enter upon a great experiment. It will lie in your hands and those of your successors in Council to make it either a bitter and disappointing failure, or, as I trust, a brilliant and triumphant success, which in its turn will prove the stepping-stone towards a further advance in the direction of associating the people with the Government in some form of constitution appropriate to an oriental country.

"We will now proceed, gentlemen, to the business of the day. The programme is a short one, but it includes some items of interest and importance. Our first business will be to appoint a Select Committee on the Calcutta Police Bill, which is a *remanet* from the old Council. Then, three small Bills will be introduced and read by the Hon'ble Members in charge of them. The official Members of the Council will then retire, and the non-official Members will then proceed to elect two Members to the Legislative Council of His Excellency the Governor General; and six Members from among their own body to serve on the Finance Committee of this Council."

THE CALCUTTA AND SUBURBAN POLICE (AMENDMENT) BILL, 1909.

The Hon'ble MR. DUKE moved that the Bill further to amend the Calcutta Police Act, 1866, and the Calcutta Suburban Police Act, 1866, be re-committed to a Select Committee, consisting of the Hon'ble Sir Bijay Mahtab, Maharajadhiraja Bahadur of Burdwan, the Hon'ble Mr. Cumming, the Hon'ble

Mr. Richardson, the Hon'ble Mr. Halliday, the Hon'ble Mr. Morshead, the Hon'ble Babu Bhupendra Nath Basu, the Hon'ble Mr. Apcar, the Hon'ble Babu Deba Prasad Sarbádhikári, the Hon'ble Mr. Bradshaw and the Mover, with instructions to report within one month.

He said:—"Sir, the Motion which stands in my name needs a very few words of explanation. The Bill further to amend the Calcutta Police Act of 1866 and the Calcutta Suburban Police Act of 1866 was introduced during the last session of the Council, and was carried through the stage of Select Committee and Report, but when it came before the Council in its final form very strong representations were made that further time should be given for consideration and for consultation of public bodies connected with Calcutta who might be supposed to be interested in the Bill. These bodies, or most of them, had been consulted at the initial stage, but only a very short time was allowed for consultation, and it was urged that further time and opportunity should be given. Government accepted the force of this contention, and accordingly the consideration of the Bill was postponed. In the meantime, the former Council having passed out of office, the Select Committee, which had then been charged with the consideration of the Bill, ceased to exist, and it has become necessary to appoint a new Select Committee. I am, therefore, to move that the Bill further to amend the Calcutta Police Act, 1866, and the Calcutta Suburban Police Act, 1866, be re-committed to a Select Committee consisting of the Hon'ble Sir Bijay Mahtab, Maharajadhiraja Bahadur of Burdwan, the Hon'ble Mr. Cumming, the Hon'ble Mr. Richardson, the Hon'ble Mr. Halliday, the Hon'ble Mr. Morshead, the Hon'ble Babu Bhupendra Nath Basu, the Hon'ble Mr. Apcar, the Hon'ble Babu Deba Prasad Sarbádhikári, the Hon'ble Mr. Bradshaw and myself, with instructions to report within one month."

The Motion was put and agreed to.

THE BENGAL CESS (AMENDMENT) BILL, 1909.

The Hon'ble MR. SLACKE moved for leave to introduce a Bill to amend the Cess Act, 1880.

He said:—"I beg, Sir, to ask for leave to introduce a Bill to amend the Cess Act of 1880. The main object of this Bill is to enable re-valuation for cess purposes to be carried out simultaneously with settlement work and thereby lessen the cost which is now entailed upon District Boards."

The Motion was put and agreed to.

The Hon'ble MR. SLACKE introduced the Bill, and moved that it be read in Council.

The Motion was put and agreed to, and the Secretary accordingly read the title of the Bill.

THE CALCUTTA PORT (AMENDMENT) BILL, 1909.

The Hon'ble MR. SLACKE moved for leave to introduce a Bill further to amend the Calcutta Port Act, 1890.

He said:—"I beg to ask leave, Sir, to introduce a Bill further to amend the Calcutta Port Act of 1890. The object of the Bill is to enable the Commissioners for the Port of Calcutta to pay pensions, gratuities or compassionate allowances to any of their officers or servants who may be injured, or to surviving relatives of any of their officers or servants who may be killed, in the execution of their duty."

The Motion was put and agreed to.

The Hon'ble MR. SLACKE introduced the Bill, and moved that it be read in Council.

The Motion was put and agreed to, and the Secretary accordingly read the title of the Bill.

THE BENGAL MUNICIPAL (AMENDMENT AND VALIDATION) BILL, 1909.

The Hon'ble MR. WHEELER moved for leave to introduce a Bill to declare the meaning of certain words in clause (*b*) of section 66 of the Bengal Municipal Act, 1884.

He said:—

"The Bill which I have now to introduce is to amend section 66 (*b*) of the Bengal Municipal Act, 1884, and to validate certain actions which purported to have been taken under that Act.

"Section 65 of the Municipal Act gives power to the Local Government to supersede for a specified period the Commissioners of any Municipality who may be declared incompetent to perform, or to have persistently made default in the performance of, the statutory duties imposed upon them. Fortunately it has not often been found necessary for the Local Government to have recourse to these powers, but in two instances they have been applied—in the cases of the Santipur and Nadia Municipalities respectively. Under orders of 1903 the former body was superseded for one year, and a like course was taken in 1904 in the case of the Nadia Municipality.

"It is obviously necessary, however, that in such a case arrangements should be made for carrying on the administration of the town which had been entrusted to the superseded body, and under section 66 (*b*) of the Act all the powers and duties of the Municipal Commissioners shall, during the period of supersession, be exercised and performed by such person or persons as the Local Government may direct. In accordance with this provision the Sub-divisional Officer of Ranaghat, in the case of Santipur, and a Deputy Magistrate, in the case of Nadia, were appointed to carry on the work of the superseded municipalities.

"It will be observed that section 66 (*b*) speaks of entrusting to the officer selected the powers and duties of the Commissioners. But under the Municipal Act of 1884, while some duties are exercisable by the Commissioners, other powers are conferred upon the Commissioners at a meeting, and it is this fact which has given rise to the present difficulty.

"In both cases, while the Municipality was under supersession, it was represented by the Special Officer in charge, acting under section 9 (*e*) of the Act, that the number of Commissioners was undesirably large, and their number was reduced from 25 to 9 in the case of Santipur, and from 12 to 9 in that of Nadia, the two bodies being reconstituted with this smaller strength in 1904 and 1905 respectively.

"Now the power to recommend an alteration in the number of Municipal Commissioners under section 9 (*e*) is vested in the Commissioners at a meeting. In the case of Nadia no difficulties have arisen from this fact, but in that of Santipur a rate-payer proceeded to sue the newly-constituted Municipality in respect of the levy from him of the rates imposed by it. The litigation was carried to the High Court, which, in a judgment dated the 15th February, 1909, has held that the Municipality of Santipur was not properly constituted at the time the new rates were imposed, since the reduction of its number to nine was made upon the recommendation of the Special Officer who was not competent to assume the powers vested by law in the Commissioners at a meeting. The Hon'ble High Court was of opinion that it was the intention of the Act to make a clear distinction between the powers of the Commissioners and the powers of the Commissioners exercisable at a meeting, and it was the former only which devolved upon the Special Officer.

"The decision has obviously created a practical difficulty in the case of Santipur, and a possible difficulty in that of Nadia. While it is true that the wording of the Municipal Act does make the distinction referred to by the High Court, it is open to considerable question whether that distinction was

intended to govern the powers of a Special Officer appointed under section 66 (*b*). The object of the appointment of a Special Officer in the place of a superseded municipality is to provide for the municipal administration during the period of supersession. But that administration could not be carried on if the Special Officer was restricted to the exercise of the powers conferred upon the Commissioners as distinct from the Commissioners at a meeting.

"I have here a list of the powers exercisable by the latter, which covers some 82 different points. Some of the contingencies thus provided for doubtless seldom arise; others are vital to any form of municipal administration. To take only two instances, it is the Commissioners at a meeting who prepare the budget estimates under section 72, and sanction expenditure in accordance with the estimates under section 78. Neither has the distinction between the powers exercised by the Commissioners and by the Commissioners at a meeting been drawn in all instances upon any very intelligible principle. Thus under section 148 the Local Government may make over a ferry to the municipality with the consent of the Commissioners; under section 157 it can only make over a toll-bar with the consent of the Commissioners at a meeting.

"That it was not intended to import this distinction into the powers exercisable by the Special Officer under section 66 (*b*) is shown further by the history of that section. The corresponding section 318 of Bengal Act V of 1876[1] enabled the District Magistrate, in the event of neglect on the part of a municipality, to exercise all the powers and rights conferred on the Commissioners and on the Commissioners at a meeting. In drafting the Act of 1884, the Select Committee, in respect of these particular sections, seems to have followed the wording of the Local Self-Government Bill, which does not distinguish between powers exercisable generally and those exercisable at meetings. There was no debate in Council upon this particular point, and it would appear that it was by inadvertence only that the new Act, as passed, restricted the powers of the Special Officer to those exercised by the Commissioners only.

"It is proposed, therefore, to restore the law practically to that in force prior to 1884, and to enact that the expression "all the powers and duties of the Commissioners" in section 66 (*b*) shall include, and shall always be deemed to have included, the powers and duties of the Commissioners, whether exercisable at a meeting or otherwise. The object of the retrospective effect to be given to the change is to validate the actions of the Santipur and Nadia Municipalities since their reconstitution.

"One other small point remains. In the course of the examination of the papers it has been discovered that the notification reducing the number of Commissioners of the Santipur Municipality from 25 to 9 did not strictly comply with the law. Under section 9 a notification of the intention to alter the number of Commissioners is required, followed by a notification, after an interval, under section 9A, of the actual change. In the case of Santipur this preliminary notification was by oversight omitted, and it is proposed also to remedy this defect."

The Motion was put and agreed to.

The Hon'ble MR. WHEELER introduced the Bill, and moved that it be read in Council.

The Motion was put and agreed to, and the Secretary accordingly read the title of the Bill.

The Council was then adjourned to Friday, the 28th January, 1910, at 11 A.M.

South Channel, Wide Bay Bar—Depth of water; Beacon erected.

No. 535 (third publication).—The Portmaster, Brisbane, has given Notice (No. 6 of 1909) that this channel now carries a minimum depth of 14 feet 6 inches at L.W.O.S.T., and its use by vessels of light draft is recommended in preference to the North Channel, owing to the fact that a vessel would carry the sea behind her, whereas in the North Channel the sea is on the broadside.

To facilitate the navigation of this Channel a triangular beacon has been erected, which is to be kept in line with the back square beacon on Hook Point bearing N. 89° W. until Inskip Point lead comes in line, when proceed as usual.

By following these directions a depth of 14 feet 6 inches at L.W.O.S.T. will be obtained.

RESOLUTION ON THE ADMINISTRATION REPORT OF THE COMMISSIONERS OF THE PORT OF CALCUTTA FOR THE YEAR 1908-09.

No. 34Marine.

Government of Bengal.

MARINE DEPARTMENT.

Dated Calcutta, the 7th January 1910.

RESOLUTION.

Administration Report of the Commissioners of the Port of Calcutta for 1908-09.

READ—

The Administration Report of the Commissioners of the Port of Calcutta for 1908-09.

Revenue Receipts and Expenditure.—The income of the year amounted to Rs. 1,20,16,630, against Rs. 1,09,57,142 in 1907-08. The year was one of general depression in trade; and it is very satisfactory to find that notwithstanding adverse conditions, the steady progress of the previous eleven years has been maintained. The expenditure amounted to Rs. 1,19,78,134; but this includes two items of a special nature, viz., Rs. 30,015 paid to Timber Merchants as the Commissioners' contribution towards the removal to the new depôt opened during the year, and a sum of Rs. 1,00,117, representing penalty charges on excess coal booked to the Docks, which the Commissioners agreed to

forego and refund. The surplus of the year was thus reduced to Rs. 38,496, which was again still further reduced to Rs. 23,796 by the net result of transactions for the year 1907-08 brought to account in 1908-09. There was also a profit of Rs. 4,617 on transactions in the securities held by the Trust. By the addition of these two sums to the revenue balance on the 1st April 1908, the total at credit of Revenue Account on the 31st March 1909 was Rs. 30,60,423.

2. *Capital Outlay.*—The expenditure during 1908-09 upon Capital Works was Rs. 60,17,190, including obsolete works written off the Block Account. The more important works in progress or completed during the year were the following:—

- Acquisition of land for future extension of the docks.
- Extension of dock No. 2.
- Four produce berths with two-storied transit sheds.
- Extension of the sale tea-warehouse.
- Reclamation of low-lying land—Kantapukur, Sonai Bazar and Dock Junction.
- Extension of the jetties—two new berths with two-storied transit sheds.
- Improvement of jetty roads.
- Improvements and extension of railway sidings at Cossipore.
- Six new locomotives.
- New timber depôt.
- Removal and reconstruction of Mutty Lal Seal Bathing Ghât.
- Remodelling of the Budge-Budge Petroleum Depôt.
- Four new ferry steamers.

3. *Capital Account.*—The liabilities on Capital Account of the Trust on the 31st March 1909, after deduction of the cash balance, amounted to Rs. 6,77,01,988. Against this the Commissioners hold properties aggregating Rs. 8,89,33,257. The latter figure does not represent the total value of the Commissioners' properties, as the value of a large area of land is included in the assets at cost price only.

4. *Sinking, Depreciation and Fire Insurance Funds.*—The net balances at credit of (1) the Sinking Fund, (2) the Depreciation Fund and (3) the Fire Insurance Fund on the 31st March 1909 were Rs. 77,02,067, Rs. 5,10,156 and Rs. 7,09,616 respectively.

5. *Working results of 1908-09 compared with those of 1907-08.*—The following table shows the details of the receipts and charges of the Revenue Account for the year 1908-09 as compared with similar figures for the previous year:—

(a) *Control.*—The Commissioners strengthened the Vice-Chairman's office by the appointment of an additional Assistant Secretary. A branch office was opened at the Docks for the collection of the rents of the lands under acquisition by the Special Collector; the establishment in the Land Revenue Department was increased.

(b) *Jetties.*—The steady increase in the tonnage of imports dealt with at the jetties was not maintained owing to general depression in trade. The quantity handled at the jetties fell from 789,535 tons to 718,952 tons. This resulted in a falling off of the earnings at the import jetties.

The decrease in the expenditure at the jetties was due to saving in labour and lighting charges, and also to the revision of the apportionment of municipal taxes in respect of which the jetties were overcharged in 1907-08.

(c) *Traffic at Jetties.*—During the year, 272 vessels with an aggregate tonnage of 921,812 tons were accommodated at the jetties, against 264 vessels with 895,525 tons in the preceding year. Of these 272 vessels, nine landed passengers against one in the previous year. The number of cargo vessels at the jetties remained practically unaltered, but, on the other hand, the merchandise landed decreased by more than 70,000 tons.

(d) *Petroleum Wharf.*—The total imports of oil in cases as well as in bulk showed an advance of 4,591,149 gallons as compared with the previous year. This larger importation had the effect of increasing the revenue receipts and expenditure under this head.

(e) *Rentable lands and buildings.*—Thisi a growing source of income. The Commissioners have revised the rates of rent payable on their properties in the Howrah side and on the Strand Bank lands and buildings.

(f) *Port and Port Approaches.*—The advance in revenue receipts was due to a larger number of vessels having visited the Calcutta port and also to the operation of the revised rules relating to the registration of cargo and passenger boats and flats, whether plying for hire or not.

The increase in expenditure was due to the new appointment of Second Assistant Conservator in charge of the Hydrographic Survey and to the reorganization of the Harbour Master's Department, and also to the renewals of buoys and moorings.

The following figures illustrate the work done by the Survey Branch of the Port and Port Approaches Department:—

	1885.	1907-08.	1908-09.
Miles sounded*	1,295	8,082	8,628
Small river charts and notices published	20	994	1,192
Number of buoys (Calcutta to Diamond Harbour) ...	7	50	50
River marks	57	229	258

* The number of soundings actually taken and recorded by the surveyors in field-books was 752,000, against 714,500 in 1907-08.

(g) *Railway.*—The earnings of the railway showed a general advance owing mainly to the increased quantity of jute railed from up-country to the local marts established along the Commissioners' line of railway and to terminal facilities provided at the Docks and Shalimar.

(h) *Wet Docks.*—The receipts showed an advance from Rs. 27,12,997 in 1907-08 to Rs. 29,53,799 during the year under review, and this was chiefly due to the improvement in the rice and sugar trade.

The total tonnage in imports, excluding salt, which passed over the Docks, rose from 272,619 tons to 444,211 tons, the greater portion being due to the large imports of Burmah rice and Java sugar.

The exports were 3,765,764 tons, against 3,890,347 tons during the previous year. With the exception of jute, shellac and hides under which there were increases, the decrease was general owing to the depression in trade. Although coal showed a decrease of 29,621 tons, the noticeable feature in this

trade is the enormous development during the last 15 years. It was 46,128 in 1894-95, but during the last three years it has reached about 3,000,000 tons per annum.

(*i*) *Dry Docks.*—The Dry Docks continue to be fully employed and give a good return. The number of vessels docked was 151 as against 152 in 1907-08.

(*j*) *Ferry Service.*—To meet the rapid development of the existing ferry service and further extensions, four additional steamers have been ordered.

(*k*) *River-dues.*—The total receipts rose from Rs. 18,18,028 to Rs. 22,15,519, and to this increase of about Rs. 4 lakhs, coal contributed nearly Rs. 3 lakhs.

6. Sir F. G. Dumayne, KT., held the office of Vice-Chairman throughout the year.

7. The thanks of the Lieutenant-Governor are due to the Commissioners for their able administration of the affairs of the Port, and His Honour is glad to take this opportunity to place on record his high appreciation of the management of the Port Trust by the Vice-Chairman, Sir F. Dumayne. The steady increase in the volume of trade has not only been dealt with by up-to-date methods to the benefit of the mercantile community, but at the instance, chiefly, of Sir F. Dumayne, the needs of the future are being provided for by measures which will undoubtedly render the Port Trust of Calcutta a model to other like institutions.

By order of the Lieutenant-Governor of Bengal,

T. BUTLER,

Secy. to the Govt. of Bengal.

GENERAL SUMMARY.—The weather was seasonable in the beginning, but cloudy and rainy towards the end of the week. Rain was general in Bengal Proper and Chota Nagpur, the fall being heavy in Khulna, moderate in Midnapore, Howrah, the 24-Parganas and Singhbhum, and light in other districts. In Bihar and Orissa there was no rain excepting Shahabad, Balasore, Angul and also Darjeeling, where light rain fell. The rain has been beneficial to the *rabi* crops in Burdwan and Shahabad. Harvesting of winter rice still continues. Sugarcane-pressing is in progress in Bihar and Orissa. *Rabi* crops are doing well. The price of common rice has risen in Midnapore, Saran, Champaran and Ranchi, has fallen in Birbhum, Murshidabad, Jessore, Patna, Darjeeling and Balasore, and has been stationary in the remaining districts. Cattle-disease is reported from Midnapore, Nadia, Patna, Gaya, Muzaffarpur, Darbhanga, Monghyr, Purnea, the Sonthal Parganas, Angul, Puri, Sambalpur, Hazaribagh and Palamau. The fodder and water-supply is sufficient throughout the Province.

The mean pressure, temperature, etc., are deduced from eye observations.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected to those of the standard, Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV and V of the official tables computed in the Meteorological Office and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground. The rainfall reported on any day is for 24 hours preceding 8 A.M. of that day.

△, dew; o, overcast; g, dark, gloomy weather; p, passing showers; d, drizzling rain.

NOTIFICATION.

IT is hereby notified for general information that, in exercise of the powers vested in him by section 139, clause 2, of the Bengal Local Self-Government Act, III of 1885, as amended by Act V of 1908, the Commissioner of the Tirhut Division has confirmed the following bye-laws made by the District Board of Muzaffarpur under sections 139 and 140 of the Act:—

BYE-LAWS MADE BY THE MUZAFFARPUR DISTRICT BOARD UNDER SECTIONS 139 AND 140 OF THE BENGAL LOCAL SELF-GOVERNMENT ACT OF 1885 (BEN. ACT III OF 1885).

[AS CONFIRMED BY THE COMMISSIONER OF THE TIRHUT DIVISION.]

Definitions.

Definitions.

1. In these bye-laws, unless there is anything repugnant in the subject or context,—

(*1*) "road" means a road vested in, or under the control and administration of, the District Board or a Local Board, and includes—

(*a*) a village road,
(*b*) the slope, berm and side-drains of a road, and
(*c*) all land vested in, or under the control and administration of, the District Board or a Local Board and attached to a road; and

(*2*) "cattle" has the same meaning as in the Cattle Trespass Act, 1871 (I of 1871).

Roads, etc.

Encroachment or obstruction on a road.

2. (*1*) No person shall encroach on any part of a road by cultivating crops thereon.

(*2*) No person shall, on any road,

by means of any building, fence, pit, embankment or ditch, or any other obstruction, or by means of any cut, drain or water course intended for the purpose of drainage or irrigation, or by exposing thereon any goods for sale or by placing thereon any substance or material,—

(*a*) without the permission of the Chairman or Vice-Chairman of the District Board or a Local Board, or the District Engineer, make or cause any encroachment, or

(*b*) obstruct traffic, or

(*c*) cause any inconvenience to passengers, or

(*d*) hinder or impede the flow of water.

Cutting of plants, trees or hedges obstructing roads or drains.

3. Any person in possession of, or having control over, any plants, trees or hedges, which obstruct, overhang or overshadow any road, or any public drain or sluice, or any drain which is connected with an public drain,

shall, if so required by a notice in writing, signed by the Chairman or Vice-Chairman of the District Board or a Local Board, or by the District Engineer, cut down, prune or trim such plants, trees or hedges within the period prescribed in such notice.

Damage to bridges, culverts or causeways on roads.

4. (*1*) No person shall destroy or damage, or cause to be destroyed or damaged, any bridge, culvert or causeway built on or across any road.

(*2*) No person shall erect any fence or other object on, or before or close to the opening of, any such bridge, culvert or causeway, for the purpose of fishing or for any other purpose so as to impede the free flow of water thereunder, or so as to cause damage thereto.

Damage to fences, posts, soil turf or grass on roads.

5. No person shall—

(*a*) destroy or damage, or cause to be destroyed or damaged, any fence or post erected on any road; or

(*b*) dig, scrape, uproot or remove any soil, turf or grass from any part of a road

Channels across roads.

6. (*1*) No person shall cut a channel, or convey water by a channel, across a road, except with the permission of the Chairman or Vice-Chairman of the District Board or a Local Board, or the District Engineer, and in such manner as he may prescribe.

(*2*) Any person who has been permitted by the Chairman or Vice-Chairman of the District Board or a Local Board, or by the District Engineer, to cut a channel across a road, shall cover or refill the channel so as to restore the road to its former condition.

(*3*) Any person who has a prescriptive right to keep a channel open for carrying water across a road shall keep the channel in proper order, so as to prevent danger or inconvenience to the public.

Obstruction of waterways adjoining roads.

7. No person shall obstruct any waterway adjoining a road, so as to injure or tend to injure the road, or otherwise to render the road impassable.

Excavations in or near roads.

8. No person shall excavate a hole in any road, or a hole, pit, tank or well within fifteen feet of any road, without the permission of the Chairman or Vice-Chairman of the District Board or a Local Board, or the District Engineer.

Discharge of rainfall from roofs to roads.

9. No person shall, without the permission of the Chairman or Vice-Chairman of the District Board or a Local Board, or the District Engineer, allow the rainfall off the roof of a building owned or occupied by him to be discharged upon any road by means of a spout or other thing intended for the conveyance of water.

Flow of filth on to roads.

10. No person shall allow the water of any privy, or any matter offensive or deleterious to health, to flow on any road.

Removal of trees or erections falling on to roads.

11. Any person owning or possessing a tree or a house, wall or other erection which has fallen, or part of which has fallen, on to a road, shall, if so required by a notice in writing signed by the Chairman or Vice-Chairman of the District Board or a Local Board, or by the District Engineer, remove such tree, house, wall, erection or part, within the period prescribed in such notice.

ENGINEER DEPARTMENT.

CIVIL ENGINEERING COLLEGE, SIBPUR.

Session 1910-11.

APPLICATIONS for admission as regular students to the Engineer Department of this College will be received by the Principal up to February 1st, 1910, in accordance with rule 9 of the Engineer Department rules. Every such application shall be accompanied by a Registration and Examination fee of Rs. 4 which shall in no case be returned.

Candidates must appear at a Special Drawing Test as laid down in rules 10 (*b*) and 13 which will be held in April 1910 in connection with the University Examinations. The exact date and centres will be announced when fixed.

The applicant for admission must produce with his application a medical certificate in the prescribed form signed within one month of its submission by a Civil Surgeon. No other form will be accepted. Candidates, if they so desire, may present themselves for medical examination before the Medical Officer resident at the College on Mondays and Thursdays from 7—10 A.M., or 4—5·30 P.M.

Special students are also admitted; they must apply before July 1st.

For further particulars and for copies of the Rules apply to the undersigned.

SIBPUR, B. HEATON,

The 17th January 1910. *Principal, Civil Engineering College.*

NOTIFICATION.

POST-GRADUATE RESEARCH SCHOLARSHIPS, 1910.

1. Two post-graduate Research Scholarships of the monthly value of Rs. 100 each, and tenable for a maximum period of three years, but in the first instance for one year only, will be awarded early in the year 1910.

2. No candidate will be considered who has not passed the M.A., the M.D., the D.L. or the Master in Engineering Examination of the Calcutta University in 1907, 1908 or 1909. No candidate will be considered who is not possessed of high qualifications and who cannot show that he has a capacity for original research.

3. One of the scholarships will be awarded to a candidate who proposes to carry on original research in some scientific subjects, such as Natural and Physical Science, Chemistry, Mathematical Science, etc. The other may be awarded to a candidate who undertakes research in some literary subject, such as a Language, Comparative Philology, Palæography, Epigraphy, Philosophy, History, Archæology, Anthropology, etc; but no application for a scholarship for research in a literary subject will be considered unless a candidate presents himself who not only shows that he has the capacity for undertaking the research proposed, but also makes it clear by the programme which he submits that he has thought out a definite course of inquiry. In the event of no suitable candidate for a literary research scholarship being forthcoming, both the scholarships may be awarded for scientific research.

4. All applications must be submitted, through the head of the institution in which the candidate read last, so as to reach the undersigned on or before the 28th February 1910.

5. Application forms may be had from the Personal Assistant, Office of the Director of Public Instruction, Writers' Buildings, Calcutta.

CALCUTTA, G. W. KÜCHLER,

The 14th January 1910. *Director of Public Instruction, Bengal.*

NOTIFICATION.

UNDER the orders conveyed in Bengal Government endorsement No. 2310, dated 31st August 1907, the following junior scholarships are awarded to successful students on the results of the final B class examination held for the province of Bengal and Eastern Bengal and Assam:—

4 of Rs. 20 of the 1st grade.
4 of ,, 15 ,, 2nd ,,
8 of ,, 10 ,, 3rd ,,

The period of tenure is two years.

As a student who passes the final "B" class examination goes up for the Sub-overseer examination after one year's study and for the Overseer after two years further study, Government has (in General Department letter No. 4838, dated 20th December 1909)

approved of proposals to the effect that the scholarships should hereafter be awarded for one year in the first instance and extended for a further period of two years to scholars passing the Sub-overseer examination at the end of the first year of their study. It has however been found necessary to reduce the number of the scholarships in order that the period of their tenure might be extended without incurring additional expenditure. The number and respective values of the scholarships will henceforth be as shown below :—

3 of Rs. 20 of the 1st grade.
3 of „ 15 „ 2nd „
4 of „ 10 „ 3rd „

The new system will be introduced with effect from the year 1910. The scholarships awarded during 1909 may however, under orders of the Director of Public Instruction, be continued for a third year to those scholars who pass the Sub-overseer Examination in 1910.

JOHN RICHARD CUNNINGHAM,
Assistant Director of Public Instruction, Bengal.

The 14th January 1910.

THE INDIAN LAW REPORTS.

Published in FOUR SERIES, viz.

CALCUTTA, MADRAS, BOMBAY AND ALLAHABAD.

THE Indian Law Reports, published under the authority of the Governor General in Council, are printed in monthly Parts, which are issued, as soon as possible after the first of each month, at Calcutta, Madras, Bombay and Allahabad, respectively.

The Reports comprise four Series—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court.

The cases heard by the Privy Council on appeal from each High Court are reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta series.

The Calcutta Series is distributed by the Bengal Secretariat Book Depôt; and the Madras, Bombay and Allahabad Series are distributed direct from Madras, Bombay and Allahabad, respectively.

Persons desiring to subscribe for or purchase the Reports should apply to—

the Officer in charge, Bengal Secretariat Book Depôt, Calcutta,

or

the Superintendent, Government Press, Madras, or
the Superintendent, Government Central Press, Bombay, or
the Curator of Government Books, United Provinces of Agra and Oudh, Allahabad.

Cockle Spit, Approach to Port Pirie—Beacon erected.

No. 23 (first publication).—With reference to Notices to Mariners, Nos. 449 and 267, dated, respectively, the 13th November 1905 and 3rd June 1907, issued by this office, the President of the Marine Board, Port Adelaide, has given further Notice (No. 18 of 1909) that a pile beacon, carrying a clock-faced tide gauge, has been erected on the eastern end of Cockle Spit, in 17 feet L. W. S., near the position formerly occupied by the old tide gauge.

The clock faces north-west ½ north, and will be illuminated at night with all possible regularity, but as from its exposed position difficulty may be experienced in attending to its lighting in bad weather, mariners are hereby warned not to trust to its being invariably illuminated under such conditions.

The dial is numbered from 0 to 11, beginning at the top and following round in the same direction as the figures on a clock, and the hand indicates the height above low-water spring tides. To ascertain the depth of water available in Port Pirie Creek therefore, the rise indicated on the tide gauge should be increased by 15 feet, the least present depth in the creek at L.W.S.

Approximate position, lat. 33° 4′ S., long. 137° 58′ 30″ E.

Charts affected.—Nos. 2389B and 403 (Admiralty).

RESOLUTION REVIEWING THE REPORTS ON THE WORKING OF MUNICIPALITIES IN BENGAL (EXCEPT CALCUTTA) DURING THE YEAR 1908-09.

MUNICIPAL DEPARTMENT—MUNICIPAL.

Calcutta, the 18th January 1910.

RESOLUTION No. 125 M.

READ—

Reports from the Commissioners of Divisions on the working of Municipalitics Bengal (except Calcutta) during the year 1908-09.

THE number of Municipalities in the Province during the year was 128, as in 1907-08.

2. *Results of elections held during the year.*—General elections of Commissioners were held in 37 Municipalities. The percentage of voters who troubled to record their votes varied greatly in different localities, and the reports of the proceedings in the Bankura and Bhagalpur Municipalities do not reflect creditably upon the methods adopted by some candidates. The proportion of uncontested elections was high, especially in the Tirhut Division.

3. *Number of meetings, and attendance of Commissioners.*—The majority of the Municipal bodies held a suitable number of meetings during the year, but the average attendance of Commissioners declined from 55·03 to 53·96. The Balasore, Sambalpur and Purulia Municipalities, with 8, 9 and 7 meetings only, respectively, appear to have given insufficient supervision to their affairs. Municipal administration in Balasore has been conspicuously mismanaged, and the explanations adduced are inadequate. A meeting at least once a month is ordinarily required, if the Commissioners are to keep in touch with the matters under their control.

4. *Collections.*—The percentage of total collections on the current demand rose from 95·78, the figure for the preceding year, to 97·5, the outstanding balance being 5·8 per cent. of the current demand against 6·1 per cent. during 1907-08. There was a marked improvement in this respect in the Burdwan Division, in which the percentage of collections to current demand rose from 93·6 to 101·5; but the proportion in the Orissa Division (90·2 per cent.) continues to be poor, falling in the Balasore Municipality as low as 68 per cent. Of individual Municipalities, 13 collected cent. per cent. or more of their current demand, the best results being obtained in South Barrackpore (108·5), Kushtia (108·3), Birnagar (106·8) and Howrah (105·1). Collections were unsatisfactorily small in Chapra (90·7), Arrah (90·6), Cuttack (88·7), Buxar (88·5), Cossipore-Chitpur (86·01), Monghyr (85·3) and Debhatta (81·2), while the Burdwan Municipality shows an outstanding balance of nearly one-third of its current demand. In Chapra, difficulty was experienced in realizing the newly-introduced latrine tax. It is reported that at Arrah collections were not vigorously pushed, for fear of alienating the sympathies of the people from the drainage scheme to which the rate-payers were making voluntary subscriptions. The failure to collect in Buxar was mainly due to the default of the East Indian Railway, and a similar neglect to pay by the Eastern Bengal State Railway affected the results in Cossipore-Chitpur. In Balasore, there was serious mismanagement, and an absence of proper supervision over the collecting staff. Elsewhere the prevalence of scarcity and high prices prejudiced collections, but it is hoped that the ground thus lost will be made good by energetic action during the current year. The percentage of total remissions on current demand rose slightly from 2·68 to 2·88, the highest figure being that for the Bhagalpur Division (3·9). The total outstanding balance at the close of the year was Rs. 2,11,201 in comparison with Rs. 2,17,775 in 1907-08.

5. *Number of rate-payers.*—The total number of rate-payers rose from 416,376 to 418,105, the bulk of the increase (1,245) being contributed by the newly-created Municipality of Khagole.

6. *Assessment and taxation.*—The rate on holdings was in force in 54 Municipalities, and in portions of seven others. In the remaining 67, the tax on persons was in force. Of the special rates, a latrine rate was levied in 96 towns, a water rate in 14, and a lighting rate in 4. The average incidence of Municipal taxation per head of population for the whole Province was Re. 1-8-7 as compared with Re. 1-7-5 in 1907-08. The incidence varied from Rs. 10-0-3 in Darjeeling to 4 annas 9 pies in Ramjibanpur. In 22 towns it was below eight annas.

7. *Revision of assessment.*—Assessments were revised during the year, generally or partially, in 63 Municipalities, and substantial increases of revenue were obtained in the following :—

Name of Municipality.	Increase of revenue.
	Rs.
Cossipore-Chitpur	54,475
Asansol	10,248
Baranagar	6,178
Tittagarh	5,636
Bankura	3,704
Samastipur	3.119
Darbhanga	3,000

In Berhampore the paid Assessor appointed by Government under section 111A of the Municipal Act finished his work in February last, but delays in

the disposal of appeals have prevented the introduction of the new assessment. Since the Municipality is on the verge of bankruptcy and has been obliged to appeal to Government for assistance, it is most unsatisfactory that the Commissioners should thus have neglected their own interests, the more so since the re-assessment was directed as an alternative to the supersession of the Municipality which the Commissioner had proposed. In Arrah the triennial assessment due in 1907-08 has been postponed *sine die*, in order to minimise the opposition of the rate payers to the new drainage scheme; but this fact distinctly detracts from the public spirit claimed to have been shown by the rate-payers in offering voluntary contributions to this project. In Sassaram the revision which was due during the year was postponed till 1909-10, owing to the prevailing hard times.

8. *Income and expenditure.*—The total receipts of the Municipalities in the Province, including the opening balances, amount to Rs. 73,73,133, against Rs. 67,96,298 in 1907-08. The increase occurred chiefly under the following heads:—

	Rs.
Opening balance	2,71,928
Municipal rates and taxes	1,72,956
Grants and contributions	2,85,368

On the other hand, there was a decrease under "Loans from Government" (Rs. 2,56,500). The total disbursements amounted to Rs. 57,88,710, or an increase of Rs. 3,40,147 over the figures for the preceding year, mainly under the heads of "Water-supply," "Drainage" and "Conservancy."

9. *Closing balances.*—The aggregate closing balances amounted to Rs. 15,84,423, as compared with Rs. 13,47,735 in the previous year. The retention of excessive balances was usually due to inability to spend during the year the loans or grants received from Government for particular purposes. The largest balance (Rs. 2,29,351) was to the credit of the Howrah Municipality.

10. *Income (Rs. 60,52,587).*—The total revenue receipts of all Municipalities, excluding the figures under "Extraordinary and Debt," amounted to Rs. 50,79,558, against Rs. 46,22,166 in 1907-08. The increase was shared by all Divisions, except Chota Nagpur.

The more important fluctuations under different heads are noticed briefly below.

11. *Taxes on houses and lands (Rs. 14,29,036).*—The total revenue showed an increase of Rs. 91,594 as compared with that of the previous year. The increase was most marked in Howrah (Rs. 45,559), Berhampore (Rs. 14,136), Cossipore-Chitpur (Rs. 8,795) and Kushtia (Rs. 4,732). In Berhampore, where a rate on holdings was introduced in place of a tax on persons, the re-assessments of the combined tax showed a decrease of Rs. 1,098, but the assessments made by the local Committees having been found to be inequitable, an order was passed under section 111A of the Act for the appointment of an Assessor to revise the rates of taxation. As already stated, the Municipal Commissioners have, by their own action, delayed the enforcement of the revised assessment.

12. *Tolls on roads and ferries (Rs. 99,581).*—The net income under this head shows a decline of Rs. 3,526. The ferry rent payable to the Patna Municipality fell from Rs. 19,366 to Rs. 11,774, in consequence of the institution of a steamer service by the Bengal and North-Western Railway. Tolls on roads are not levied in any Municipality, except Sambalpur.

13. *Water rate (Rs. 4,06,896).*—This tax was in force in 14 Municipalities as compared with 13 in the two previous years, the tax having been levied for the first time during 1908-09 in Tollyganj. The total receipts show an increase of Rs. 41,240, the most noticeable improvement being in Howrah (Rs. 35,144) and Cossipore-Chitpur (Rs. 3,598).

14. *Lighting rate (Rs. 1,89,451).*—This rate is levied in four Municipalities only, and the realisations during the year showed an increase of Rs. 40,779. This occurred mainly in Cossipore-Chitpur, being due to the extension of the rate to the whole Municipality, accompanied by a general revision of the assessment.

15. *Conservancy, including scavenging and latrine rate (Rs. 8,22,688).*—The income under this head showed a small increase of Rs. 19,701, principally in the Presidency Division (Rs. 13,685). In reviewing the reports of the two last years, attention has been drawn to the desirability of turning trenching grounds and the disposal of refuse and sweepings into a source of income, and apparently more attempts in this direction are now being made. It is only from the Burdwan Division that the existence of popular prejudices is reported to have rendered any such action impossible. In future all income derived from this source should be separately shown in the new column 35 (*a*) in Form II, and not merged in the figures shown under "Conservancy" in column 21.

16. *Income from the tax on professions and trades, and the tax on persons according to their circumstances and property.*—These taxes yielded Rs. 62,470 and Rs. 3,55,309, respectively, against Rs. 59,823 and Rs. 3,78,072 in the preceding year. Out of the decline of Rs. 22,763 under the latter head, the Municipality of Berhampore is responsible for Rs. 15,234, as a result of the substitution of a tax on holdings for the tax on persons. In Arrah the collections under this and under other heads show a decrease, and the Lieutenant-Governor is sceptical as to the expediency of such sacrifices from the fear of losing subscriptions to the new drainage scheme.

17. *Grants from Provincial and Local funds, and contributions from private individuals (Rs. 8,94,559).*—The net increase under this head amounted to Rs. 2,85,368. Government made large grants during the year to Monghyr (Rs. 78,203 for water-works), Patna (Rs. 50,000 for a flushing scheme and Rs. 10,000 for the reconstruction of a Dome shed) and to Arrah (Rs. 25,000 for a drainage scheme), while it contributed Rs. 60,000 to the water-works schemes of the Municipalities of the Burdwan Division and Rs. 12,000 to the Howrah drainage scheme. The Maharaja of Darbhanga gave Rs. 50,000 towards the Patna flushing scheme, while Howrah received Rs. 18.603 from the local mills for drainage works. A liberal gift of Rs. 50,000, together with a building valued at Rs. 11,000, was made by Babu Dino Nath Das of Kanchanagore to the Burdwan Municipality for the maintenance of a charitable dispensary and a free Middle English school.

18. *Expenditure—Office and collection establishment (Rs. 3,54,214).*—The expenditure under this head fell from 8·9 on the total ordinary expenditure to 8·0, which is so far satisfactory, although the result is mainly due to the abolition of audit and banking fees. In many cases, however, the cost of establishments would still appear to be needlessly heavy. The highest percentage is reported from Chakdaha in the Presidency Division (27·9), and the Commissioner observes that it is difficult to keep the proportion in Municipalities with limited incomes at a low figure. An examination of the figures, however, suggests that smallness of income is not the only factor in producing a high expenditure under this head, and there are Municipalities in the Presidency Division with a smaller income than Chakdaha in which the percentage of expenditure on establishment is considerably less It is significant that the administration of the Municipality with the highest percentage in the Chota Nagpur Division (Lohardaga, 22·5) is emphatically condemned by the District Magistrate, and the point should receive the careful scrutiny of all Municipalities when framing their budgets and of controlling officers when examining them.

19. *Prevention of fire (Rs 33,861).*—The expenditure under this head shows an increase of Rs. 5,869, and was mainly incurred in the Suburban Municipalities of Cossipore-Chitpur (Rs. 15,362), Howrah (Rs. 11,988), Garden Reach (Rs. 2,528) and Maniktala (Rs. 1,516) and in Darjeeling (Rs. 1,189).

20. *Lighting (Rs. 2,64,658).*—There was an increase of Rs. 19,222 under this head, which was shared by all Divisions, being especially noticeable in the case of that of Bhagalpur, where the expenditure rose by more than 50 per cent. In many cases, however, no satisfactory progress has been made, and the attention of Municipalities should again be drawn to the orders contained in Circular No. 2T.—M., dated the 2nd May 1907, and to the remarks of the Police Commission upon the proper lighting of streets as a preventive of crime.

21. *Water-supply (Rs. 4,33,842).*—There was an increase of expenditure both under "Capital outlay" and under "Establishment, repairs, etc.," amounting in all to Rs. 94,233. The Bhagalpur Municipality, where important improvements were carried out in the water-works, showed the largest increase under "Capital outlay" (Rs. 36,620). The Sanitary Board reports that the water-works throughout the Province generally were kept in a fair state of efficiency during the year, but the Water-works Fund at Berhampore is practically bankrupt, and an application has been submitted to Government for assistance. Howrah continues to lead the way as regards the cost of delivery (1·5 annas per 1,000 gallons), and Burdwan (1·9 annas) is not far behind. A number of new schemes are in various stages of preparation. In Monghyr the contracts for a system of water supply were given out. At Puri and Gaya some experimental work was done, which in neither case was entirely successful. Work is proceeding for additions to the supply in Darjeeling and Kurseong, and schemes were under preparation for new installations or for the improvement of supplies at Hooghly-Chinsura, Serampore, Jessore, Khulna, Naihati and Murshidabad. In Muzaffarpur, and to a less extent in Darbhanga, well-boring experiments were carried out with some degree of success.

22. *Drainage (Rs. 3,59,588).*—There was an increase of expenditure both under capital and maintenance charges, which, as regards capital expenditure, was principally in the Presidency and Burdwan Divisions. Schemes were under preparation for Hooghly-Chinsura and Hazaribagh, while the Bagjolla project, if completed, will benefit various adjacent Municipalities. Drainage projects for Bhatpara, Kishenganj, Daltonganj and Burdwan were sanctioned by Government during the year. The undertaking of the Serampore scheme was delayed owing to the apprehension that the discharge might affect the purity of the water at the intake of the Howrah pumping station. At Puri work was in progress. A drainage scheme for Berhampore was completed; but owing to the unsatisfactory financial position of the Municipality, there is little hope of its being given effect to immediately.

23. *Conservancy, including road-cleaning, road-watering and latrines (Rs. 14,03,955).*—The expenditure shows an increase of Rs. 63,537 over that of the preceding year. Particular activity in this Department was displayed by the Municipalities of the Presidency Division, but, as remarked in the review of the reports for 1907-08, the information supplied deals mainly with the statistics of money expended, and fails to emphasise the cases, if any, in which the existing arrangements were noticeably defective.

24. *Hospitals and dispensaries (Rs. 5,72,471).*—Under this head also there was an increase of expenditure, particularly in the Patna Division, where the Municipalities incurred out of their own funds an expenditure of Rs. 84,948, as against Rs. 19,189 in the preceding year.

25. *Plague charges (Rs 54,154).*—As a result of the marked diminution in the prevalence of plague in the Patna and Tirhut Divisions, the expenditure upon preventive measures fell by 43 per cent. As in previous years a large proportion of the expenditure was covered by Government grants.

26. *Public works (Rs. 7,61,298).*—There was a decrease in expenditure during the year of Rs 10,643. An examination of the figures for individual Municipalities shows that in many cases there were excessive fluctuations in the expenditure on roads from year to year. For example in Chaibassa a sum of Rs. 104 only was spent during 1908-09 as compared with Rs. 1,982 in the previous year, and the District Officer observes that there was no proper plan under which road work was undertaken. It is in the interests of the Municipalities themselves to maintain their public works in an efficient state, and this can only be done if work is executed systematically and according to some regular scheme. The neglect of the roads in Berhampore, Patna and Balasore is particularly commented upon by the respective Commissioners.

27. *Public instruction (Rs. 1,50,983).*—There was a small increase in expenditure under this head, but three Divisions, Burdwan, Patna and Bhagalpur, still fall below the prescribed standard of expenditure upon

primary education, namely, 3·2 per cent. on ordinary income. Attention was drawn to the point in the review of the reports of the preceding year, but the Commissioner of the Presidency Division explains that failure to spend up to the required standard is ordinarily due to special local reasons which are accepted by the Educational authorities.

28. *Loans.*—Thirty-seven Municipalities were in debt at the close of the year, and their total net indebtedness, after deducting the balance of the Sinking Fund investments, amounted to Rs. 38,89,909 against Rs. 38,96,848 in 1907-08. The largest outstanding liabilities were those of Howrah (Rs. 20,66,472), Darjeeling (Rs. 5,86,008), Bhagalpur (Rs. 3,20,390) and Patna (Rs. 2,43,137). Four Municipalities received loans during the year, namely, Howrah (Rs. 40,000 for the south foreshore drainage scheme), Hooghly-Chinsura (Rs. 25,000 for the improvement of roads), Bhagalpur (Rs. 22,000 for an office building) and Darjeeling Rs. 70,000 (for increasing the electric current supply and reconstructing the old Municipal buildings).

29. On the 31st March 1909, 86 Municipalities had outstanding liabilities on account of unpaid bills and unfinished works, amounting to Rs. 2,11,362, which represents 6·4 per cent. of their total current demand. The liabilities exceeded the closing balances in 16 Municipalities. The excess is most marked in the case of Berhampore, in which the liabilities amounted to Rs. 25,029, while the actual closing balance was Rs. 1,926 only. The major portion of these liabilities was on account of the water-works, with regard to which outstanding bills to the amount of Rs. 15,000 remained unpaid at the close of the year. The question of restoring the financial equilibrium of the Municipality is under consideration.

30. The attention of the Commissioners concerned is called to the financial position of the Municipalities of Gaya, Bhagalpur, Purnea and Ranchi, which worked at a deficit. The incomes of these Municipalities were swollen in previous years by the receipt of grants for special purposes, and steps should now be taken to adjust expenditure to normal conditions.

31. *Audit of accounts and embezzelements.*—A heavy defalcation, amounting approximately to Rs. 12,000, by the tax-daroga and other collecting officers of the Balasore Municipality was brought to light during the year. In Patna, a dafadar who embezzled Rs. 426 was sentenced to two years' rigorous imprisonment, and the amount is being recouped by deduction from the pay of the tax-daroga and the checking muharrir.

32. The information given concerning the inspection of Municipalities by Commissioners and District Officers continues to be incomplete, and in the report from the Presidency Division the subject is not mentioned at all. The Municipalities of the Midnapore district, except Midnapore itself, and those of Baidyabati, Jamalpur, Dumraon, Jagdispur, Jajpur, Kendrapara and Puri in particular, appear to have been neglected in this respect. It is only by personal inspection that a District Officer can satisfy himself that the work of a Municipality is being efficiently conducted, and the Lieutenant-Governor trusts that more attention will be paid to the need of such supervision in future.

33. *General.*—The remarks of Commissioners upon the general working of the Municipalities in their Divisions do not ordinarily disclose any very serious defects. In the Burdwan Division attention is drawn to the apathy of the Suri Municipality in tackling the efficient drainage of the town, and to the difficulties caused by party feeling in the Municipalities of the Bankura district in particular and in Bansberia. The Commissioner of the Presidency Division is of opinion that the Municipalities near Calcutta and those which are connected with mills have made great progress in recent years. The *mufassal* Municipalities on the other hand suffered from the decay of local trade, the deterioration of the water-supply and the emigration of the wealthier residents to Calcutta. Nevertheless the Commissioners as a rule made the best of their resources, and there was a commendable absence of friction. In the Bhagalpur Division the appointment of the Subdivisional Officer of Rajmahal as Chairman has effected some improvement in the administration of the Sahebganj Municipality which had left much to be desired. In the Patna Division stress is laid upon the financial difficulties of nearly all the Municipalities,

in view of which the Commissioner considers that the standard of administration is perhaps more satisfactory than might have been anticipated. The Commissioner of the Tirhut Division characterises the work done as creditable, though hampered by lack of funds. In the Orissa Division the raising of funds to improve the water-supply of Puri is perhaps the most important pending question, but hitherto the Hindu community has not responded as liberally as might have been hoped considering the sanctity of the locality and the interests of the numerous pilgrims involved. The Commissioner of Chota Nagpur remarks that in that Division generally Municipal administration is still in a very elementary stage, and in the smaller Municipalities, other than district head-quarters, it is no easy matter to instil life and vigour into the proceedings of the Commissioners. The administration of the Lohardaga Municipality is unfavourably commented upon. The affairs of only two Municipalities in the Province were seriously mismanaged. The Berhampore Municipality has been allowed to fall into a very bad position financially, from which it will not be easy to extricate it, and the action of the Commissioners hitherto has been rather in the direction of opposing all efforts by Government to effect an improvement; at the same time requests are made for assistance from general revenues. In Balasore the serious irregularities which resulted in the embezzlement of Rs. 12,000 and an absolute want of supervision over all branches of the work must be directly attributed to the neglect of duty on the part both of the Chairman and the Vice-Chairman, and the District Magistrate has now been requested to assume the office of Chairman in the hope of restoring some degree of order and control.

34. His Honour has pleasure in acknowledging the good work of the following gentlemen who have been named by the Divisional Commissioners :—

35. A perusal of the divisional reports as a whole leads to the same criticism as was advanced last year, namely, that they are too much concerned with the record of petty changes and fluctuations, while they fail to accentuate the more important measures characteristic of the administration of the year, and to bring out instances in which Municipalities have conspicuously succeeded or failed. It is by such a general review, based upon personal knowledge and inspection, that the action of Commissioners and District Officers can be helpful, in order that Municipalities may learn from the mistakes and achievments of themselves and others. In the details of their work it is desirable that Municipalities should be left as free a hand as possible. It is rather for controlling officers to satisfy themselves that sound lines of policy are being followed, and that the standard of administration is not permitted to deteriorate. The history of the year as a whole was uneventful; but if no striking advance is to be chronicled, there has equally (with one or two exceptions) been no conspicuous failure, and progress has been maintained. The thanks of the Lieutenant-Governor are due to all who have contributed to this result.

By order of the Lieutenant-Governor of Bengal,

H. WHEELER,

Secretary to the Government of Bengal.

RESOLUTION REVIEWING THE REPORTS FROM COMMISSIONERS OF DIVISIONS ON THE WORKING OF THE DISTRICT BOARDS IN BENGAL DURING THE YEAR 1908-09.

MUNICIPAL DEPARTMENT—LOCAL SELF-GOVT.

Calcutta, the 18th January 1910.

RESOLUTION—No. 126L.S.-G.

READ—

Resolution on the Reports from Commissioners of Divisions on the working of the District Boards in Bengal during the year 1908-09.

THERE was no change in the number of District and Local Boards in existence during the year. One new union committee was established at Daulatpur, in the district of Khulna.

2. *District Boards—Number of meetings, and attendance of members.*—The District Boards of the Province held in all 425 meetings, out of which 18 were adjourned or proved abortive for want of a quorum, as against 20 in 1907-08. All the Boards met at least once a month, with the exception of those of Champaran, Sambalpur and Palamau. The two latter were similarly noticed last year, and since a meeting at monthly intervals is a reasonable minimum requirement if effective control is to be maintained over the operations of the Board, the respective Chairmen should see that in future more frequent meetings are convened.

3. *Local Boards—Number of meetings, and attendance of members.*—Eight hundred and seventy-two meetings were held by Local Boards in the course of the year. No fewer than 100 of these were adjourned or failed for want of a quorum, and although the proportion is slightly less than in the preceding year, it is still excessive. Three Boards, those of Dhanbaid and the Northern and Southern Zamindaris, Sambalpur, held only two meetings each, and out of 78 Local Boards, 32 failed to meet at least once a month. The Lieutenant-Governor trusts that the grant of travelling allowance which has now been sanctioned will make it possible for outlying members to attend at meetings more regularly and frequently, but it is remarked in more than one report that the volume of the business transacted by Local Boards is not sufficient to require numerous meetings.

4. *Elections.*—General elections were held in the districts of Burdwan, Midnapore, Nadia and Patna. Except in Nadia, the elections were generally a failure, and vacancies were left which had to be filled by nomination. It is noticeable that the District Magistrate of Patna reports a growing disinclination on the part of the more influential land-holders to stand as candidates.

5. *Union Committees.*—The aggregate income, excluding the opening balance of the 51 union committees, amounted to Rs. 17,180 against Rs. 16,913 in the previous year, and the total expenditure rose from Rs. 16,052 to Rs. 16,524. Outside the Burdwan and Presidency Divisions these committees are practically non-existent. The whole question of village government was discussed by the Royal Commission upon Decentralization, and action has yet to be taken upon their report. For the present the problem of establishing an active unit of village administration below the Local Board has still to be solved. It is reported from Nadia that the practice of carrying out repairs to roads by advances to presidents of *panchayats* and village headmen did not answer satisfactorily, owing to the delay in getting in the accounts.

6. *Financial results.*—The year opened with a gross credit balance of Rs. 28,51,245, and the total receipts of District Boards from all sources amounted to Rs. 78,76,020. The total amount available for expenditure was thus Rs. 1,07,27,265, of which Rs. 85,45,417 was spent during the year, leaving a credit balance of Rs. 21,81,848.

The table below compares the income and expenditure of District Boards under the main heads of account during the past two years :—

INCOME.

7. *Provincial Rates (Rs. 34,88,414)*.—There was an increase of revenue under this head amounting to Rs. 82,220, but in three Divisions, namely, Tirhut, Bhagalpur and Orissa, the income declined by Rs. 32,893, Rs 23,741 and Rs. 4,770, respectively. The main reason alleged was the prevalence of scarcity. The largest increase (Rs. 92,134) occurred in the Burdwan Division, where it was due to the larger collections (Rs. 59,494) of cess on mines in the district of Burdwan, to better collection of arrears in Hooghly and Howrah, and to revaluation operations in Birbhum and Midnapore.

8. *Police (Pounds) (Rs. 3,30,309)*.—The total number of pounds maintained by the District Boards was 2,811 as against 2,773 in the preceding year, and the revenue derived from them rose in 13 districts and fell in the remainder, resulting in a total decrease of Rs. 13,178. The Tirhut Division is responsible for the largest decline (Rs. 8,889). The fall is attributable to the failure of crops, as a result of which fewer cattle were impounded and farmers were unwilling to take settlement at the former rents. It is noted that the district of Midnapore has introduced a system of triennial settlements, and this may possibly help to secure more reliable lessees, who will take greater interest in the efficient management of their pounds.

9. *Civil Works, etc. (Rs. 11,98,685)*.—The total income under this head declined by Rs. 3,57,263, owing mainly to the fact that the grant for the augmentation of the resources of District Boards, which was included under this head in the previous year, was mostly shown under "Contributions from Provincial to Local" during the year under review.

Ferries.—The receipts from ferries rose in 16 districts and fell in 12, resulting in a net increase of Rs. 1,039. The large decrease in Darbhanga (Rs. 25,041) was due partly to remissions of rent on account of the prevailing

scarcity, and partly to the fact that in the preceding year the *ghâts* had been settled for three years and security deposits realised for the whole period.

10. *Loans* (*Rs. 4,54,000*).—Loans to local bodies from Government amounted to Rs. 4,54,000 in all. Of this, Rs. 3,50,000 represented the second instalment of the loan for the Magrahât drainage scheme in the 24-Parganas, while loans of Rs. 54,000 and Rs. 50,000 were taken by the District Boards of Murshidabad and Darbhanga for the construction of railway feeder roads and screw-pile bridges respectively.

11. The fluctuations in contributions under "Education" and "Medical" resulted in an increase of Rs. 10,191 under the former head, and a decrease of Rs. 26,211 under the latter. The figures under the remaining heads call for no special remarks.

EXPENDITURE.

12. *Administration* (*Rs. 2,02,807*).—The aggregate expenditure under this head fell by Rs. 10,529, owing chiefly to the discontinuance of the banking and audit fees previously charged by Government. Office establishment and contingencies showed increases of Rs. 2,105 and Rs. 602, respectively, due to the normal expansion of work.

13. *Education* (*Rs. 12,84,770*).—The aggregate expenditure under this head exceeded that of the previous year by Rs. 1,14,380. The increase, however, was largely nominal, and was attributable to the fact that some District Boards were obliged to refund the unspent balances of the Government grant for the construction of primary schools, having failed to raise locally one-third of the cost of construction. Some progress was, nevertheless, effected. The number of aided upper primary schools rose from 2,255 to 2,368, and the aided upper and lower primary schools together furnished instruction to 677,302 boys and 82,335 girls as compared with 657,531 boys and 77,902 girls in 1907-08. In all districts, except Hooghly (in which instance no explanation has been furnished), the expenditure under "Education" was much in excess of the amount assigned for this purpose from Provincial Revenues; in Midnapore the actual expenditure was nearly one-and-a-half times the assigned amount, and in Darbhanga it was nearly double.

14. *Special Schools.*—Technical or industrial schools continued to be maintained or aided by eleven District Boards, namely, those of Burdwan, Midnapore, Khulna, Shahabad, Saran, Darbhanga, Bhagalpur, Balasore, Hazaribagh, Ranchi and Manbhum. It cannot be said that in any instance was the record of progress very encouraging. Reference is particularly made in various reports to the introduction of fly-shuttle looms, but the degree of success achieved has varied greatly, and at the present stage District Boards would probably do better by assisting pupils to attend the Serampore Weaving School, rather than by attempting desultory local experiments under inadequate supervision. It is hoped that as the result of the appointment of an Inspector of Technical and Industrial Schools, it will be possible to systematise and improve the methods of instruction now followed.

15. *Shows and Exhibitions.*—Agricultural shows or exhibitions were held during the year at Chinsura (Hooghly), Bankura, Suri (Birbhum), Khulna, Bankipore and Bhita (Patna), Barahpur (Shahabad), Muzaffarpur and Sitamarhi, and Purulia (Manbhum), to which the District Boards concerned gave financial assistance. At Chinsura (Hooghly), Bankura, Khulna and Bankipore (Patna) industrial exhibits were also shown.

16. *Medical* (*Rs. 4,29,397*).—The expenditure under this head increased by Rs. 23,301 in comparison with the preceding year. The total number of dispensaries maintained by the Boards rose from 139 to 158, but the number aided by them fell from 147 to 142. Eight new dispensaries were opened by the Gaya District Board, and one each by those of Birbhum, Hooghly, Howrah, Shahabad, Palamau and Manbhum. The management of the Arrah Hospital was taken over by the District Board from the Municipality. In Burdwan five temporary dispensaries were maintained from September to January in tracts affected by malaria. The District Boards of Murshidabad, Sambalpur and Hazaribagh maintained no dispensaries, but, as in the previous year, they continued to subsidise such institutions. The

experiment of a floating dispensary in the Sundarbans tract of the 24-Parganas was finally abandoned as a failure. The Commissioner of the Presidency Division reports that the people did not appreciate the advantages of the practice of deputing doctors to attend rural markets for the distribution of medicines. This system is, however, proving successful elsewhere, notably in the districts of Hooghly and Purnea, and it would seem to contain all the elements of popularity. Lancets and permanganate of potash crystals for use in cases of snake-bite were widely distributed in Muzaffarpur and Saran, and several cures were reported. The Commissioner of the Bhagalpur Division rightly put a stop to a practice obtaining in the Monghyr district of crediting all private subscriptions to local dispensaries to a central district fund. It is only reasonable that subscribers should be allowed to indicate the particular institution which they wish to benefit by their generosity.

The total charges for plague prevention measures amounted to Rs. 32,965 against Rs. 57,765 in the previous year. The bulk of the expenditure, as in the previous year, was incurred in the Patna Division (Rs. 20,461), and the diminished severity of the disease fortunately rendered possible a saving under this head. It is noticed that in the Gaya district expenditure was incurred upon the construction of rat-proof *golas*, but it is not reported in what manner these were subsequently managed. Unless by way of example to others, the object of the experiment is not clearly understood.

17. *Sanitation* (*Rs. 26,663*).—There was a decrease of Rs. 5,091 in the outlay under this head, principally in the Orissa Division (Rs. 4,144). The largest expenditure was incurred by the District Boards of Gaya (Rs. 5,887), Patna (Rs. 5,112), Midnapore (Rs. 3,370) and Birbhum (Rs. 2,530). The system of cleaning rural towns and villages was continued in the Patna district, and was also followed with more or less energy in the districts of Birbhum, Midnapore, Hooghly, Gaya, Saran and Monghyr. Elsewhere attempts at rural sanitation were merely sporadic, and it cannot be said that the fringe of the subject has as yet been satisfactorily touched. The administrative difficulties lie in the creation of a local agency willing and competent to supervise the work, while the financial difficulty of providing funds for the inception of measures on a large scale is extreme. For the present District Boards would be well advised to concentrate their efforts on particular centres where they can hope to accomplish something effectual, which may at any rate serve as an example to other localities.

18. *Veterinary Charges* (*Rs. 48,016*).—The expenditure under this head shows an increase of Rs. 10,095, which was shared by all the Divisions, except the Presidency and Orissa. New veterinary dispensaries were opened, or were under construction, at Khulna, Chapra and Hazaribagh, and at Patna a new building for the existing hospital was constructed by the Municipality, the District Board assisting with a contribution of Rs. 1,930. It is satisfactory to observe that all District Boards incurred expenditure on veterinary work, and that throughout the Province generally more interest is being shown in this important branch of local administration. Attempts were made by the District Boards of Midnapore, Muzaffarpur, Patna and Hooghly to improve the local breed of cattle, and in the case of the two former Boards in particular a considerable measure of success was met with.

19. *Famine Relief* (*Rs. 96,543*,.—No Division except Burdwan entirely escaped expenditure under this head, though in the Patna Division the charges incurred amounted to Rs. 506 only—the cost of maintaining a relief kitchen in the Sassaram Subdivision. It is satisfactory to note that while the charges on account of productive expenditure, "Public Works," showed an increase of Rs. 71,929 as compared with the figures of the preceding year, the amount expended on "Charitable Relief" was less by Rs. 40,492.

In the Presidency Division there was serious scarcity in the districts of Nadia and Jessore, and some distress in the 24-Parganas and Murshidabad. The position in Nadia and Jessore was rendered more acute by the scarcity which existed in the previous year. In Nadia the whole of the Meherpur Subdivision and part of the Chuadanga and Sadar Subdivisions were seriously affected, and altogether Rs. 2,12,170 was spent on relief. Out of this sum, Government contributed Rs. 1,41,389, and Rs. 6,375 was received from the Bengal Branch of the Indian Famine Charitable Relief Fund. The

balance, *i.e.*, Rs. 64,406, was met from the District Fund. Rs. 10,764 were spent on gratuitous relief, and the remainder on relief works. In Murshidabad Rs. 2,220 were spent on public works started with the object of providing labour in the affected area. In the 24-Parganas the District Board sanctioned an allotment of Rs. 4,000 for a similar object, on the appearance of distress in the Basirhat and parts of the Sadar Subdivisions, but the allotment was not spent in full. In Jessore the Board made a special advance of Rs. 6,378 for famine relief works which were carried out by the District Engineer. In Muzaffarpur an allotment of Rs. 26,018 was made, but only Rs. 2,437 were actually expended, as relief was not organized till the latter part of February, and payments for March were entered in the accounts of the current year. In Darbhanga no expenditure was shown, owing to the fact that the accounts were not received before the close of the year. The District Board of Bhagalpur spent Rs. 9,075 on gratuitous relief, salaries, and establishment, and miscellaneous charges, in connection with the scarcity prevailing in the Supaul and Madhupura Subdivisions. In Cuttack some small test works were opened. In Balasore the District Board spent Rs. 1,046 in the construction of a road. In Puri the expenditure amounted to Rs. 12,434, but the figure is nominal, being due to the adjustment of charges incurred in the previous year. The District Board of Ranchi advanced Rs. 7,794 for test works. Of this amount, Rs. 5,000 was refunded by Government, and the net expenditure of the Board was therefore Rs 2,794 only.

20. *Civil Works (Rs. 43,83,396).*—There was a decline of Rs. 2,83,745 in the expenditure on "Communications—Original Works," which more than counterbalanced the increased expenditure under other sub-heads, with the result that the aggregate expenditure on civil works fell by Rs. 1,85,880. The year 1907-08, however, was characterised by a considerable increase in expenditure, and the figure for the year under review is slightly in excess of that of 1906-07 (Rs. 43,77,497). The increase of Rs. 71,929 on public works under the head of "Famine" must also be taken into account, and there is no reason to suppose that there has been any undue slackening of activity in this respect.

21. *Communications—Roads and Bridges.*—As stated above, the original expenditure fell from Rs. 17,50,826 to Rs. 14,67,081. Although construction programmes had in some cases to be curtailed, good progress was generally made, specially in the important matters of railway feeder roads and bridges. Feeder roads received a large amount of attention from nearly all the Boards, while activity in bridge-building was chiefly confined to the Bihar districts. The failure to spend the whole of the sanctioned allotment for road repairs in the Dhanbaid Subdivision of the Manbhum district is to be regretted, and should not be allowed to recur. There was practically no falling off in the amount spent on the repair of roads, and the total mileage of district roads maintained by the Boards increased by 432. The new provisions in the Local Self-Government Act III of 1885, which authorize the levy of tolls on newly-constructed or purchased bridges, to cover the cost of construction and the capitalised value of the cost of maintenance, should enable District Boards to accelerate the important work of bridging the larger roads under their control.

22. *Water-supply and Water-works (Rs. 1,73,856).*—The expenditure on "original works" showed an increase of Rs. 39,239, and that on "repairs" of Rs. 11,106, over the figures of the previous year. As a result of the general scarcity of water, more attention was paid to the construction and repair of wells and tanks, but the apathy of the people in some instances was regrettable. Thus it is reported from Midnapore that neither would the people co-operate with the District Board in improving the water-supply, nor would they make the sources of supply over to the Board in order that the latter might improve them. Successful experiments were made in the use of well-boring plant in Muzaffarpur, and the experience of this District Board might advantageously be consulted by other local bodies desirous of taking similar action. Difficulties were encountered, but they were surmounted, and the results were most encouraging.

23. *Drainage.*—The actual expenditure under this sub-head continues to be very small (Rs. 2,740). The only important work in progress is the

Magrahât project in the district of 24 Parganas. In the same district Rs. 941 was spent on the survey of the Sunthi and Nawai rivers in the Barasat Subdivision, and in connection with this scheme the Collector has issued notices calling for objections to the rates proposed to be levied. The project has been under consideration for a very long time, and it is hoped that some definite advance will soon be made. The Bagerhat project in Khulna was abandoned, as the cost was found to be prohibitive. Outside the Presidency Division the only expenditure incurred was in Bhagalpur, where the District Board spent Rs. 704 on the construction of *pucca* drains in Madhipura town.

24. *Arboriculture.*—There was a rise from Rs. 37,588 in 1907-08 to Rs. 43,622 in the expenditure during the year under review, and only two Boards, (Jessore and Cuttack,) failed to incur any outlay on this account, as against five in the preceding year. In Birbhum the system of planting trees departmentally was given up, and an experiment tried of letting out on contract the planting of trees along one or two roads. The results achieved should be reported in due course, as they may possibly be of interest elsewhere. In most districts regular programmes of operations seem now to be followed, and this is the necessary condition of any progress. The Patna District Board proposes to celebrate an annual Arbor Day on the 9th August in commemoration of the Coronation of His Majesty the King-Emperor, and it is hoped this may prove successful in stimulating local interest in the subject.

25. *Railways and Tramways.*—The existing lines continued to work satisfactorily, and progress was made with a number of new projects. The Antpur Champadanga extension of the Howrah-Amta Light Railway was opened for traffic from the 24th August 1908, and the line continues to be prosperous. The Baraset-Basirhat Light Railway in the 24-Parganas suffered severely from the failure of the jute and other crops, and the Board's half share of the profits during 1908 amounted to Rs. 5,943 only, as against Rs. 16,097 in the previous year. The extension of the line to Hashnabad was completed and opened for traffic in March last. An extension to Patipukhur, in the suburbs of Calcutta, is under construction. The construction of the proposed railway from Krishnaghur to Jellinghee is still under consideration, the Board being anxious to construct the line through the agency of the Eastern Bengal State Railway with the aid of a loan from Government. A proposal has also been put forward to construct a light railway from Jessore to Jhenidah *viâ* Kaligungo, with a branch to Kotchandpur. In Patna the extension of the Bakhtiarpur-Bihar Light Railway to Silao was under construction. In Gaya the construction of a tramway from Gaya *viâ* Bodh Gaya to Sherghati was under consideration, and Messrs. Martin and Company of Calcutta are collecting information in connection with the project. In Shahabad the survey for the light railway from Arrah to Sassaram was completed, and an agreement was drawn up between Messrs. Martin and Company and the District Board. Messrs Octavius Steel and Company, Calcutta, were authorized to construct a line of tramway between Dehri-on-Sone on the East Indian Railway and Rohtas. In the Saran district the Chapra-Masrak extension was in progress, and survey operations on the Thaway-Tewaripatti extension of the Bengal and North-Western Railway were completed by the Railway authorites. The proposed direct line from Muzaffarpur to Darbhanga, with a branch from Tewara to Sitamarhi, is still under the consideration of Government. Apparently nothing has been done regarding the branch line from Samastipur to Roserha, and it is reported that if the Bengal and North-Western Railway continue to delay the line, the District Board will probably ask permission to undertake it. In Monghyr the collection of statistics in connection with the contemplated light railway from Monghyr to Kharagpur was completed. The four guaranteed lines in the Province continued to work satisfactorily, the Boards' shares of the surplus profits in 1908 being as follows:—

	Rs.
Howrah (Howrah-Amta line)	38,678
Hooghly (Howrah-Sheakhala line)	2,987
24-Parganas (Baraset-Basirhat line)	5,944
Patna (Bakhtiarpur-Bihar line)	1,914

26. *Contributions (Rs. 35,456).*—Under the head of "Contributions" there was an increase of Rs. 15,878. The District Boards of Burdwan and Muzaffarpur incurred the bulk of the expenditure, viz., Rs. 16,000 and Rs. 17,113 respectively. In Burdwan the District Board refunded the Government grant which was made in 1905-06 for the construction of primary school buildings, while in Muzaffarpur the expenditure represents the contribution paid to the municipality on account of the surplus tolls of the Akra Ghât pontoon bridge and its connected ferries.

27. *Debt (Rs. 15,09,499).*—The increase of Rs. 6,36,228 over the figures of 1907-08 fell mainly under the sub-head "Deposits and Advances" and was due to expenditure on account of famine in one form or another. The Darbhanga District Board paid heavy sums (Rs. 3,31,482) on account of advances for test works and gratuitous relief prior to the declaration of famine, and the refunds of the security deposits of contractors. The heavy payments in Nadia (Rs. 3,18,344) represented advances for famine relief works and the adjustment of the deposit on account of contributions from Government and the Indian Famine Relief Fund. Unusually heavy expenditure was also incurred in Muzaffarpur (Rs. 81,649), of which Rs. 50,000 was accounted for by the refund and adjustment of an advance for work on tanks, while in Bhagalpur (Rs. 94,869) the expenditure which was incurred on the Tiljuga embankment was debited to this head, and large sums were paid as advances on account of relief operations and land acquisition.

28. *Closing Balance (Rs. 21,81,848).*—The aggregate closing balances of the District Boards, excluding deposits, amounted to Rs. 18,60,254, as compared with Rs. 25,86,456 at the close of 1907-08, showing a decline of Rs. 7,26,202. Assuming the retention of a sufficient working balance, the omission to make full use of the available income of the year denotes defective administration, and it is satisfactory to notice that the actual balances declined in all the Divisions, with the exception of Burdwan. Taking individual districts, the best results were returned by the District Board of Nadia, where out of a total sum of Rs. 7,01,649 available for expenditure, the actual balance at the end of the year was Rs. 29,483 only. The districts of Hooghly, Hazaribagh, Ranchi and Manbhum showed the worst results. In Darbhanga the year closed with a deficit balance of Rs. 41,426 as a result of the heavy expenditure on test works and gratuitous relief, the accounts of which were not adjusted during the year under report.

29. *Amendment of the Bengal Local Self-Government Act.*—The Bengal Local Self-Government Act, III of 1885, was amended during the year by Bengal Act V of 1908. The more important changes made are referred to briefly below. Power was taken to extend the Act to the districts of Singhbhum and the Sonthal Parganas, should that hereafter appear to be desirable. A considerable delegation of powers to Commissioners of Divisions was effected in respect of the appointment, removal and resignation of members, the election of Chairmen of Local Boards, and the sanctioning of various rules and bye-laws. Power was taken to levy tolls on bridges, and the diversion of the road cess to purposes other than those enumerated in section 109 of the Cess Act, 1880, was prohibited. The application of the District Fund was at the same time extended in various directions. Under the head of "Education" contributions were permitted to secondary and other schools under private management, and towards the maintenance of hostels, while the constitution of an education committee was provided for. In respect of medical work, authority was given to District Boards to train and employ compounders, midwives and veterinary practitioners; and for the furtherance of sanitation District Boards, unless specially exempted, were required to appoint sanitation committees and qualified sanitary inspectors. The scope of the expenditure permissible upon veterinary work was greatly extended, and finally changes were introduced which will, it is hoped, extend the sphere of action and usefulness of union committees, which will in future work in direct subordination to the District Board, unless with the Commissioner's sanction the District Board desires that they should be controlled by a Local Board.

30. *General Remarks.*—The following Vice-Chairman of District Board have been favourably mentioned by the local officers for the good work done by them during the year :—

Babu Banwari Lal Hati, Burdwan ; Khan Bahadur Maulvi Mohammad Shamsuzoha, Birbhum ; Babu Bama Charan Roy, Bankura ; Babu Sital Prosad Ghosh, Midnapore ; Babu Khirode Prasad Biswas, Hooghly ; Babu Ashutosh Bose, Howrah ; Rai Mani Lal Banerji Bahadur, 24-Parganas ; Babu Biswambhar Rai, Nadia ; Babu Radhika Charan Datta, Jessore ; Babu Amrita Lal Raha, Khulna ; Saiyid Zahiruddin, Patna ; Mr. A. Halim, Gaya ; Maulvi Anwar Ahmed, Shahabad ; Babu Adwaita Charan Bose, Darbhanga ; Babu Lachmi Prasad Singh, Monghyr ; Babu Radha Charan Das, Balasore ; and Mr. S. C. Dey, Palamau.

His Honour has also read with interest the commendation bestowed by the local officers on the working of the following District Engineers : —

Messrs. Maynard, Edwards, Temple, Barton, Jolly, Robinson, District Engineers of Gaya, Shahabad, Muzaffarpur, Darbhanga, Monghyr and Bhagalpur, respectively ; Rai Bahadur Nanda Gopal Banerji, Manbhum ; Babu Atul Chandra Banerji, Palamau; Babu Rajendra Nath Neogy, Saran ; Babu Kunja Behary Ghose, Birbhum ; Babu Atul Krishna Mukerji, Midnapore ; and Babu Gopal Lal Banerji, Hooghly.

The Lieutenant-Governor's thanks are due to these gentlemen, and the services of Mr. Lyall, District Magistrate of Bhagalpur, who worked with great energy in the selection, supervision and control of famine relief works carried out by the Bhagalpur District Board, are deserving of special mention. His Honour notices with satisfaction that Babu Radha Charan Das, the Vice-Chairman of the Balasore District Board, spent more than 1½ months on tours of inspection in the interior of the District.

31. The administration of the year presented few features of novelty, and in fact was hampered in some instances by the prevalence of scarcity, which both reduced the income of the Boards affected and involved special demands upon their resources. Nevertheless, much useful work appears to have been done, and there was a commendable absence of friction in the working of the Boards. The thanks of the Lieutenant-Governor are due to the numerous gentlemen, both official and non-official, who have interested themselves in the important task of meeting the local needs of their respective districts.

By order of the Lieutenant-Governor of Bengal.

H. WHEELER,

Secretary to the Govt. of Bengal.

FINAL FORECAST OF THE LATE VARIETY OF THE SESAMUM *(TIL)* CROP OF BENGAL FOR 1909.

THE following is published for general information.

F. W. DUKE,
Chief Secy. to the Govt. of Bengal.

The 15th January 1910.

DEPARTMENT OF AGRICULTURE, BENGAL.

FINAL FORECAST OF THE LATE VARIETY OF THE SESAMUM (*til*) CROP OF BENGAL FOR 1909.

[On an average of the five years ending 1907-08, the area under *til* in the territory to which this forecast relates has represented some 5·7 per cent. of the total area under this crop in British India.]

Character of the season.—The crop is most important in Sambalpur, which is responsible for about half of the total area in the Province. The less important districts with over 5,000 acres are Midnapore, Khulna, Bhagalpur, the Sonthal Parganas, Angul, Palamau and Singhbhum. The season was favourable. Some damage was done by excessive rain and floods in parts of Midnapore and by a cyclone in the districts of the Presidency Division.

Area cultivated.—The total area during the year under report has been returned as 193,500 acres against 147,000 acres of last year. The normal area under the crop is reported as 222,500 acres.

Outturn.—Sambalpur reports a crop of 115 per cent. Seven districts, viz., Khulna, Patna, Gaya, Muzaffarpur, Bhagalpur, Balasore and Ranchi, report a normal crop. Six districts report a crop between 90 to 99 per cent., seven districts between 80 to 89 per cent., and three between 70 to 79 per cent. Four districts return a crop of 50 to 59 per cent. and Jessore reports a very low outturn of 30 per cent. only. The total outturn for the Province works out to 98 per cent. against 95 per cent. estimated in the preliminary forecast issued in October last. Last year's outturn was 73 per cent.

Taking $4\frac{1}{4}$ maunds as the normal outturn of the crop per acre, the gross yield of the crop for the Province amounts to 29,600 tons against 16,800 tons of last year.

The area under the early variety of the *til* crop was 35,800 acres this year and the estimated outturn 72 per cent. of the normal. The yield of this variety comes to 4,000 tons against 4,300 tons of last year.

The total outturn of the *sesamum* crop (both early and late) in Bengal, therefore, is estimated at 33,600 tons this year against 21,100 tons last year.

W. R. GOURLAY,
Offg. Director of Agriculture, Bengal.

DEPARTMENT OF AGRICULTURE, BENGAL,
Calcutta, the 3rd January 1910.

APPENDIX I.

Final forecast of the late variety of the Sesamum (Til) crop of Bengal for 1909.

District.	Total area of the district.	Total area estimated to be under cultivation.	Date at which the sowing of the crop began this year.	Approximate normal area under the crop.	Approximate area sown last year (1908-09).	Estimated area sown this year (1909-10).	Taking 100 to represent the normal outturn, how much represented the outturn last year (1908-09).	Taking 100 to represent the normal outturn, how much will represent this year's outturn (1909-10).	Figures from the Cadastral Survey. Total area of the district which has been cadastrally surveyed.	Figures from the Cadastral Survey. Years during which the cadastral survey took place.	Figures from the Cadastral Survey. Area found under the crop during the cadastral survey.	Date at which the harvesting of the crop was begun this year.	A brief statement regarding the weather and general condition of the crop, and whether the dates of sowing and harvesting were this year early, normal or late.

In the Sadar subdivision heavy rainfall towards the end of August was not favourable, but in the Asansole subdivision the weather and rainfall conditions were favourable. The condition of the crop was good in the Asansole subdivision, but unsatisfactory in the Sadar subdivision. The date of harvesting was late in the Sadar subdivision and normal in the Asansole subdivision.

Midnapore ...	3,319,040	2,190,600	May to June.	20,600	8,200	9,240	70	93	35,342	1893 to 1898	110	Sept. in Contai and Ghatal, beginning of Nov. in Tamluk and not yet commenced in Sadar.	The weather and rainfall conditions were favourable in the Sadar subdivision. Excessive rain and floods did some damage to the crops in the Ghatal subdivision.
Howrah ...	328,400	250,600	Middle of July.	300	200	100	50	50	...	...	...	Middle of December.	The weather was unfavourable. The crop suffered much from heavy floods, thence the low outturn. The date of harvesting was normal this year.
24-Parganas ...	3,100,533	1,088,700	July ...	700	300	500	90	78	...	...	...	October	The weather and rainfall conditions were favourable. The condition of the crop was good in the Sadar subdivision, but in the Basirhat subdivision the recent cyclone did some damage to the crop. The date of harvesting was normal.

Nadia ...	1,787,820	1,043,900	Latter part of July.	5,300	5,000	4,800	77	58	Not cadastrally surveyed			Middle of November.	The weather and rainfall conditions were unfavourable. The cyclone of the 17th October last damaged the crop to a certain extent, hence the decrease in the estimated outturn. When the preliminary forecast was submitted sowings did not commence in many places. This explains the increase in the area sown in the present forecast. The date of harvesting was normal

THE MONSOON OF 1909.

THE following report is published for general information.

F. W. DUKE,
Chief Secy. to the Govt. of Bengal.

CALCUTTA,
The 17th January 1910.

RAINFALL SUMMARY FOR THE MONSOON PERIOD OF 1909.

THE following remarks are intended to give a brief account of the distribution of actual rainfall over the Province of Bengal during the past South-West Monsoon (*i.e.*) for the period May to October.

In January and February the rainfall was seasonable. Light showers fell in all districts excepting Hooghly, Howrah, the 24-Parganas and Angul. The fall was below the average in all the Divisions excepting Chota Nagpur, where it is in slight excess.

In February also, light showers fell in all the districts except Jessore, where it was nil. It was in defect in all the Divisions except Orissa.

The month of March was practically rainless. A few showers fell in parts of Bankura, Midnapore, the 24-Parganas, Jessore, Khulna, Orissa and Chota Nagpur.

The month of April was marked by heavy precipitation over the Province. It was above the average in all districts. Expressed in percentage figures, South West Bengal received 308, Bihar 457, Orissa 411 and Chota Nagpur 3 9 per cent. of the normal average. The departure from the normal was + 3·91 in South-West Bengal, + 2·18 in Bihar, + 3 79 in Orissa and + 2·42 in Chota Nagpur as compared with actual average. The rainfall recorded during the month of April 1909 was greater than that recorded in the same month in any previous year except 1899.

During the month of May, the rainfall was below the normal in all districts, Khulna excepted, where it was in slight excess. In Burdwan, Midnapore, Hooghly, 24-Parganas, Nadia and Jessore in South West Bengal the fall was above normal. In Bihar, Orissa and Chota Nagpur it was very scanty.

The month of June is of special interest, as the advance of the monsoon current up the Bay, and the commencement of the rains in Bengal usually takes place during this month.

In June 1909, the monsoon was established in Bengal on the 6th (*i.e.*), about a week earlier than the normal date.

The statement below shows the normal and actual dates of the complete establishment of the monsoon in the coast districts and tracts inland.—

	Actual date of establishment of rains.	Normal date of establishment of rains.
Bengal	6th	15th
Bihar	6th	15th
Chota Nagpur	6th	15th

"The Bay current extended with great rapidity over the Gangetic plain, with the result that the rains there were established by the 8th, nearly two weeks earlier than usual." (*Vide* Montnly Weather Review of India for June 1909.)

The result of the establishment of the monsoon was that the rainfall of the month was in excess of the normal in all the Divisions of the Province excepting Chota Nagpur, where it was slightly in defect. The excess was most pronounced in Bihar, which received 180 per cent. of the normal fall. Expressed in percentage figures South-West Bengal received 128, Bihar 180, Orissa 130 and Chota Nagpur 96 per cent. of the normal.

During July the rainfall was below the average in all districts of the Province excepting Darbhanga, Sambalpur, Cuttack, Balasore and Puri, where it was in slight excess. The defeciency varied from —0·18 inch in Khulna to —7·43 inches in Purnea. Of the four Divisions Orissa was the only Division, where the fall was in excess.

The month of August was characterised by heavy downpour in South-West Bengal. In every district the fall was well above the average. The excess was greatest in Jessore, where the departure from the normal was +19·22 inches. In Bihar and Chota Nagpur the fall was in excess except in Shahabad, Palamau and Purnea.

"A notable feature of the last four days was the occurrence of heavy downpours of rain in Bengal in connection with a small low pressure area. Thus Burdwan recorded a total of 16·78" and Jessore of 15·55" on the 28th and 29th." (*Vide* Monthly Weather Review of India for August 1909.)

During the month of September, the rainfall was above the average in Burdwan, Bankura, Hooghly and Murshidabad in South-West Bengal; in Patna and Gaya in Bihar; in Sambalpur, Cuttack and Puri in Orissa; in Hazaribagh, Ranchi, Manbhum and Singhbhum in Chota Nagpur. The defect was greatest in Champaran, where the departure from the normal was —6·41 inches.

In October the rainfall was above the average in Hooghly, Nadia, Jessore, Khulna, Champaran, Darjeeling and Purnea. The excess was greatest in Jessore, where the fall was 4·89 inches above the normal. Elsewhere in the Province the fall was below the normal.

On the whole then, the South-West Monsoon rainfall of 1909 was not ill-distributed. Expressed in percentage South-West Bengal received during the whole period 115 per cent. of the normal, Bihar 101 per cent., Orissa 102 per cent. and Chota Nagpur 83 per cent Of the four Divisions, Chota Nagpur alone did not receive its normal average.

MONTHLY WEATHER AND CROP REPORT OF BENGAL FOR DECEMBER 1909.

Character of the Season.—The rainfall during the month under report was general all over the Province, the fall being above the normal in all the districts excepting Birbhum, Murshidabad, Gaya, Monghyr and Bhagalpur, where it was in slight defect. The rainfall was heavy in Orissa districts, where it was 0·84 to 2·68 inches in excess of the normal. The usual rainfall statement is appended.

II. *Progress of Agricultural operations.*—Sowings of *rabi* crops were completed during the month. Harvesting of winter rice continued Pressing of sugarcane was in progress in Bihar and Orissa.

III. *State of Standing crops.*—The standing *rabi* crops are doing well. The light rainfall in Bihar benefited the crops. More rain was reported to be wanting in parts of Jessore, Patna and Shahabad to improve the condition of standing crops.

IV. *Prospects and Probable Outturn of Harvests.*—The outturn of the winter rice crop is expected to be above the normal this year. Prospects of *rabi* crops are hopeful.

V. *Damage to Crops.*—There was no serious damage to the standing crops. Some injury was done to the wheat crop by insect-pests in parts of Murshidabad.

VI. *Condition of Agricultural stock.*—The condition of agricultural stock was fair. Cases of cattle-diseases were, however, reported from Midnapore, Nadia, Jessore, Patna, Gaya, Champaran, Muzaffarpur, Darbhanga, Hazaribagh, Palamau, Manbhum, and from the Bhagalpur and Orissa Divisions excepting Darjeeling and Balasore.

VII. *Failure of Pasturage and Fodder.*—The supply of fodder and water was sufficient throughout the Province.

VIII. *Prices of Food-grains.*—During the second fortnight of the month under review the price of common rice rose in six districts and fell in fourteen. Prices of staple food-grains are easier than in the corresponding period of last year.

IX. *Condition of Agricultural people.*—Agriculturists are in good condition. Good harvests have been obtained of the autumn and winter crops. Prospects of the *rabi* crops are also favourable so far.

SUMMARY OF RAINFALL OBSERVATIONS TAKEN IN BENGAL DURING THE MONTH OF DECEMBER 1909.

During the month of December, rainfall was general over the Province. The fall was above the average in all districts excepting Birbhum, Murshidabad, Gaya, Monghyr and Bhagalpur, where it was in slight defect. On an average South-West Bengal received 0·44 inch, Bihar 0·15 inch, Orissa 2·28 inches, and Chota Nagpur 0·49 inch of rain. The fall in Orissa was about eight times the average. Expressed in percentage, South-West Bengal received 116 per cent., Bihar 101 per cent., Orissa 106 per cent., and Chota Nagpur 89 per cent. of the normal during the year 1909.

The following table compares the rainfall in the four Divisions during the month of December with the normal fall, the actual being given as a percentage of the normal. The table also shows the actual falls for each of the previous months of the year expressed in the same way, and the last column of the table shows the total rainfall of the past twelve months of the year 1909:—

Meteorological Divisions.	January.	February.	March.	April.	May.	June.	July.	August.	September.	October.	November.	December.	Actual rainfall of first twelve months of 1909 expressed as a percentage of the normal fall for the period.

The mean pressure, temperature, etc., are deduced from eye observations.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected to those of the standard, Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV and V of the official tables computed in the Meteorological Office and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground. The rainfall reported on any day is for 24 hours preceding 8 A.M. of that day.

o, overcast; g, gloomy; p, passing temporary showers; d, drizzling rain; ⌓, dew; ≡, fog.

PART I.

Orders and Notifications by the Lieutenant-Governor of Bengal, the High Court, Government Treasury, &c.

ORDERS BY THE LIEUT.-GOVERNOR OF BENGAL.

COMMUNIQUE.

THE Lieutenant-Governor has heard with deep distress of the death by the hand of an assassin, on the 24th January 1910, within the precincts of the High Court, of Khan Bahadur Maulvi Shamsul Alam, Deputy Superintendent of Police. The deceased officer had risen, in the course of thirty-four years' honourable service through the subordinate grades of the Police, to the rank to which recently he had been promoted. This, and the title which he held, were conferred on him in recognition of his able, courageous and unsparing efforts for the prosecution and repression of anarchic crime. The Lieutenant-Governor is assured that all thinking men will share his sorrow at the loss of a faithful public servant and his sympathy with those whom the crime has bereaved.

F. W. DUKE,
Chief Secretary to the Govt. of Bengal.

REVENUE DEPARTMENT.

NOTIFICATIONS.

No. 350For.—The 25th January 1910.—The following rules are published for general information.

F. W. DUKE,
Chief Secy. to the Govt. of Bengal.

I.—RULES FOR THE APPOINTMENT OF FOREST RANGERS, DEPUTY RANGERS AND FORESTERS IN THE BENGAL FOREST CIRCLE.

1. The Conservator of Forests, Bengal, may appoint the following to the class of Forest Ranger:—

(*i*) Deputy Rangers of long service and tried ability and probity, irrespective of the educational certificates they may hold.

(*ii*) Candidates who have obtained the Honours' certificate, or the Higher Standard certificate, after passing through the two years' Ranger course at the Imperial Forest College, Dehra Dun.

(*iii*) Candidates who have obtained the Lower Standard certificate after passing through the above mentioned course at the Imperial Forest College and who have rendered thereafter not less than two years' satisfactory service in the class of Deputy Ranger.

(*iv*) Deputy Rangers, or Foresters, who have passed through the Kurseong Forest School course, with credit, and who have rendered thereafter not less than two years' satisfactory service in the class of Deputy Ranger.

(*v*) Deputy Rangers, or Foresters, who have passed through the Kurseong Forest School course successfully and who have rendered thereafter not less than five years' satisfactory service in the class of Deputy Ranger or Forester.

2. The Conservator of Forests, Bengal, may appoint the following to the class of Deputy Ranger:—

(*i*) Foresters of long service and tried ability and probity, irrespective of the educational certificates they may hold.

(*ii*) Candidates who have obtained the Lower Standard certificate after passing through the two years' Ranger course at the Imperial Forest College, Dehra Dun.

(*iii*) Foresters, or candidates, who have passed through the Kurseong Forest School course, with credit.

(*iv*) Foresters, or candidates, who have passed through the Kurseong Forest School course successfully and who have rendered thereafter three years' satisfactory service in the class of Forester.

3. Foresters will be appointed by the Conservator of Forests, Bengal, under the provisions of article 34 of the Forest Department Code.

II.—RULES FOR THE SELECTION OF BENGAL CANDIDATES FOR DEPUTATION TO THE TWO YEARS' RANGER COURSE AT THE IMPERIAL FOREST COLLEGE.

1. The number of candidates to be selected annually will depend on the requirements of the Department, but ordinarily will not exceed two.

2. Candidates for these appointments must apply to the Conservator of Forests, Bengal, and their applications must be accompanied by the certificates required by the rules of the Imperial Forest College, Dehra Dun. Candidates must have passed the Entrance examination of a recognized Indian University, and preference will be given to those who, in addition to possessing the necessary physical qualifications for service in the Forest Department, have passed the F. A. examination.

3. From the applications received, the Conservator of Forests will make a preliminary selection; and the candidates so selected will be required to present themselves before the Conservator at a time and place to be fixed by him. From the candidates present, the Conservator will make a further selection of not more than twice the number of men to be deputed to the Ranger course at the Imperial Forest College in the ensuing year.

4. Candidates so selected will be required to undergo a course of preliminary practical training in such Forest Division, or Divisions, as the Conservator of Forests may prescribe. This course of training will extend over not less than three-and-a-half months and not more than eight months, and during it candidates will be granted a monthly allowance at the rate of Rs. 25, which is intended to cover their expenses. The Conservator of Forests will dispense with the services of candidates whose work or conduct during this preliminary training is unsatisfactory.

5. The final selection of candidates for deputation to the Imperial Forest College will be made by the Conservator of Forests in accordance with the results of this practical training, preference being given to the men who promise to make the best Forest Officers. While at the Imperial Forest College the selected candidates will be granted a monthly stipend of not less than Rs 40 and not more than Rs. 50, provided they execute the agreement and security bond prescribed by Government.

6. Candidates who obtain the Honours' certificate of the Imperial Forest College may be deputed to undergo the third year's course for direct appointment to the Provincial Service, if recommended by the Principal of the College as likely to make useful members of the Provincial Forest Service. Under similar conditions candidates, who obtain the Higher, or Lower, Standard certificates, will be appointed Rangers, or Deputy Rangers, on monthly salaries of not less than Rs. 50 and Rs. 40, respectively.

List of certificates required under Rule 2.

(*a*) A certificate that the candidate is a "Native of India" within the meaning assigned to those words by section 6 of 33 Vict., Cap. 3.

(*b*) A certificate of age.

(*c*) A health certificate in the form prescribed by article 49 of the Civil Service Regulations, fourth edition, signed by the Civil Surgeon of the district in which the said Divisional Forest Officer's or Collector's duties lie, and testifying to the candidate's sound constitution, good vision and hearing, and general physical fitness for a rough outdoor life in the Forest Department, and to the fact that he bears on his body marks of successful vaccination or of small-pox.

(*d*) A certificate of respectability and good moral character from two or more persons whose social or official position can be accepted as a guarantee of reliability.

The certificates (*c*) and (*d*) must bear date not further back than the 1st April of the year previous to that in which the candidate desires admission to the college.

If any person, giving certificates as above under (*c*) and (*d*), is in a position to mention anything more to the credit of the candidate than the certificates actually call for, he may do so.

(*e*) A certificate of having passed one of the following examinations, viz:—

- (*i*) the B. A., F. A., B. Sc., or Licentiate of Agriculture;
- (*ii*) the matriculation, where no School Final examination exists;
- (*iii*) the School Final examination, provided the candidate can show that he has qualified in English and Mathematics up to the Matriculation standard or, for European candidates, a certificate of having passed the High School examination with a similar proviso.

NOTE.—Copies of the agreement and bond to be executed under rule 5 can be obtained from the Conservator of Forests, Bengal.

III.—RULES FOR THE RECRUITMENT OF THE PROVINCIAL FOREST SERVICE IN BENGAL

1. Subject to the satisfaction of the claims of persons already qualified under the rules hitherto in force, appointments to the Provincial Forest Service shall be made—

- (*a*) by the promotion of Forest Rangers of long service and tried ability and probity, irrespective of the educational qualifications they may hold;
- (*b*) by the selection for direct appointment of candidates who must successfully pass through the full three years' course at the Imperial Forest College, Dehra Dun, and thereafter render not less than three years' satisfactory service as Probationary Extra Assistant Conservators of Forests before being confirmed.

Government reserves to itself the right to fill all vacancies in such of the two ways described, as it may consider best, in the interests of the public service.

2. **Candidates for direct appointment will be selected from—**

(*a*) candidates deputed to the two years' Ranger course who obtain the Honour's certificate of the Imperial Forest College at the end of that course and who are recommended by the Principal of the College as suitable for direct appointment to the Provincial Service;

(*b*) Forest Rangers who have obtained the Higher Standard certificate of the Imperial Forest College after passing through the two years' Ranger course, and who have specially distinguished themselves thereafter by their work and conduct during a period of not less than two years' service as Forest Rangers. Rangers whose age exceeds twenty-eight years will not be selected under this rule;

(*c*) other candidates selected to pass through the full three years' course continuously and to join the service as Probationary Extra Assistant Conservators of Forests without any intermediate period of service as Forest Rangers.

3. Candidates for appointment under rule 2 (*c*) above will be nominated by the Local Government with special reference to high educational and social qualifications and to physical fitness for work in the Forest Department. It will generally be expected that a nominee should obtain the Honours' certificate of the Imperial Forest College at the end of the first two years of the full course. Should he fail to do so, it will depend largely on the recommendation of the Principal of the College whether he should be allowed to proceed to the third year's course and continue to be accepted as a prospective member of the Provincial Forest Service. Should, however, the Principal recommend any such nominee who, having failed to get Honours, has nevertheless obtained the Higher Standard certificate, on the ground that he has displayed such special ability, character and other qualifications as are likely to render him a useful member of the Provincial Forest Service, the nominee will usually be permitted to take up the third year's course. After the conclusion of that course, nominees, certified to have passed it satisfactorily, will be appointed to the Provincial Forest Service, on probation, for a period of three years, liable, however, to be further extended at the discretion of Government.

4. The pay of the Probationary Extra Assistant Conservators of Forests will be Rs. 150 per mensem during the period of their probation, and thereafter Rs. 200 per mensem until they can be appointed to vacancies in the sanctioned cadre of the Provincial Forest Service.

5. Candidates selected under rules 2 (*a*) and 2 (*b*) above will receive, during the third year's course at the Imperial Forest College, a monthly stipend of Rs. 100, or, in the case of candidates under rule 2 (*b*), the pay of their grade, whichever is greater. Candidates nominated under rule 2 (*c*) will receive such monthly stipends as the Local Government may fix in each case, subject to a maximum of Rs. 100 per mensem throughout the three years' course.

6. Candidates nominated under rule 2 (*c*) must not be less than nineteen or more than twenty-three years of age on the date of admission to the College. On the nomination of a candidate, he will be required—

(*a*) to produce the following certificates:—

(*i*) a certificate that he is a "Native of India" as described in section 6 of 33 Vict., Cap. 3;

(*ii*) a certificate of age;

(*iii*) a health certificate in the form prescribed by article 49 of the Civil Service Regulations (fourth edition), signed by a Commissioned Medical Officer or by a Medical Officer in charge of a Civil station, and certifying to the nominee's sound constitution, good vision and hearing, and general physical fitness for a rough outdoor life in the Forest Department, and to the fact that he bears marks of successful vaccination or of small-pox;

(*iv*) a certificate that he has passed one or other of the following examinations, viz.:—

(*a*) the B. A., F. A., B. Sc., or Licentiate of Agriculture examination;

(*b*) the Matriculation examination, where no School Final examination exists;

(*c*) the School Final examination, provided the nominee can show that he is qualified in English and Mathematics up to the Matriculation standard or, for a European nominee, a certificate of having passed the High School examination with a similar proviso;

(*v*) a certificate of respectability and good moral character from two or more persons whose social or official position can be accepted as a guarantee of trustworthiness;

(*b*) to sign an agreement binding himself to work diligently while at the college and to serve Government for not less than five years after passing out of the college;

(*c*) to find two sureties to execute a bond in the prescribed form guaranteeing that under special circumstances therein detailed they will refund all monies expended by Government on the nominee's behalf, &c.;

(*d*) in order to prove his fitness for forest work, to undergo preliminary practical training, in such forest divisions as the Conservator of Forests, Bengal, may direct, extending over a period of not less than three and-a-half months and not more than six months.

7. Candidates selected under rule 2 (*b*) will be required to sign the agreement and security bond referred to in rule 6 (*b*) and (*c*) before re-entering the college for the third year's course.

NOTE.—Copies of the agreement and bond to be executed under rules 6 (*b*), (*c*) and 7 can be obtained from the Conservator of Forests, Bengal.

DECLARATION.

No. 339J.—The 21st January 1910.—Whereas certain land was acquired by the Bengal Government, under the provisions of Act I of 1894 and Act XVIII of 1885, for a public purpose, viz., for the Damuda Branch of the Jharia extension of the East Indian Railway between mile 173 feet 1,500 and mile 173 feet 5,110, and whereas coal mines are situate under the said land, and whereas the Bengal-Nagpur Coal Company, Limited, have given notice to the Government of Bengal, in accordance with the provisions of Act XVIII of 1885, that the said Company intend to work the seam known as No 12 seam, and whereas the mines have been inspected by the officer appointed by the Bengal Government for the purpose under section 5 (1) of Act XVIII of 1885, and whereas it appears to the Bengal Government that the working out of the coal of the mines underlying the said land is likely to cause damage to the surface of the said land and to the works constructed thereon, and whereas the said Bengal-Nagpur Coal Company, Limited, have agreed not to work and get minerals underlying the land acquired for their siding or underlying the land acquired for the branch or other lines with which the siding is connected or underlying the land of the branch or branches connecting the said siding with the main line, in such a manner as to injure or to endanger the safety of the undertaking or any part thereof, nor to claim any compensation for any restricted working:

Manbhum.

Now, therefore, the Lieutenant-Governor of Bengal is pleased to declare, under section 5, sub-section (2), clause (*b*) of the abovementioned Act, XVIII of 1885, that the working shall be carried on by the said Bengal-Nagpur Coal Company, Limited, in the manner and subject to the restrictions below specified, viz.:—

(*a*) Galleries shall be driven not more than 10 feet wide and 12 feet high at distances apart of not less than 50 feet centre to centre;

(*b*) Manholes not exceeding 6 feet in height and 3 feet in width by 4 feet in depth may be made where required by any rule framed under the Indian Mines Act, 1901;

(*c*) Any inrush of water, quicksand or soft material shall be reported to the Chief Inspector of Mines without delay;

(*d*) The above restrictions apply to No. 12 seam only and to the area edged with pink on the plan and the Bengal-Nagpur Coal Company, Limited, shall give notice, under section 4 of the Land Acquisition (Mines) Act, 1885, of their intention to work any other seam under the above area or to work coal under any other area of acquired land;

and that in all the above cases no further excavation shall be made in any of the galleries which already have been driven, the actual heights and widths of which have been carefully recorded on the plan marked L, A, M, A, No. 150 signed by the Chief Inspector of Mines.

The plan referred to may be seen in the office of the Chief Inspector of Mines in India by the parties concerned.

J. G. CUMMING,
Secy. to the Govt. of Bengal.

DECLARATION.

No. 341J.—The 21st January 1910.—Whereas certain land was acquired by the Bengal Government, under the provisions of Act I of 1894 and Act XVIII of 1885, for a public purpose, viz., for the Sitarampur-Baraboni Branch of the East Indian Railway between points situated 192·41 chains and 200·56 chains, respectively, from Sitarampur, East Indian Railway, and whereas coal mines are situate under the said land, and whereas the Damra Coal Company, Limited, have given notice to the Government of Bengal, in accordance with the provisions of Act XVIII of 1885, that the said Company intend to work a portion of the coal and, whereas the mines have been inspected by the officer appointed by the Bengal Government for the purpose under section 5 (1) of Act XVIII of 1885, and whereas it appears to the Bengal Government that the working out of the coal of the mines underlying the said land is likely to cause damage to the surface of the said land and to the works constructed thereon, and whereas the said Damra Coal Company, Limited, have agreed not to work and get minerals underlying the land acquired for their siding, or underlying the land acquired for the branch or other lines with which the siding is connected or underlying the land of the branch or branches connecting the said siding with the main line, in such a manner as to injure or to endanger the safety of the undertaking or any part thereof, nor to claim any compensation for any restricted working:

Burdwan.

Now, therefore the Lieutenant-Governor of Bengal is pleased to declare, under section 5, sub-section (2), clause (*b*) of the abovementioned Act XVIII of 1885, that the working shall be carried on by the said Damra Coal Company, Limited, in the manner and subject to the restrictions below specified, viz. :—

(*a*) A single pair of galleries may be driven under the acquired land in positions closely approximating to those shown by the dotted lines A B and C D on the plan L. A. M. A. No. 135.

(*b*) The distance apart of the galleries shall not be less than 140 feet.

(*c*) Not less than two feet of coal shall be left unworked in the roof of the galleries.

(*d*) The width of the galleries shall not exceed nine feet but refuge holes of the regulation size may be made where required by the rules made under section 20 of the Indian Mines Act, 1901.

(*e*) Any inrush of water, quicksand or soft material shall be reported to the Chief Inspector of Mines without delay.

(*f*) Should it be desired to work coal from any other stratum than that known as the Deshargarh seam the working thereof shall be the subject of a separate notice under section 4 of the Land Acquisition (Mines) Act, 1885.

The plan marked L. A. M. A. No. 135, signed by the Chief Inspector of Mines, and showing the positions of the proposed drivages, may be seen in the office of the Chief Inspector of Mines in India by the parties concerned.
